RAVINA SCHOOL NEWS

THE STORY OF MILK

One of the first grades of Ravina school is studying about milk—how it comes from the farm on railway trains and milk trucks to the dairy, where it is cooled and pasteurized to be taken to the city people by the milkman. The children have made a story, on the wall, of the journey of the milk. In the next scene, they have railway trains and trees and are going to have a milk truck. Next come the dairy and the city. They cut trees out of colored paper and pasted them on a background of colored paper representing the sky. Each day there is a child who acts as a milkman to bring milk to the first grade family. The children mark on a milk chart how much milk and butter and how many eggs they want.

They have made a cow and named her Bossy. She is life-size and is made of a barrel covered with newspapers. They choose two children each day to be farmers. In the morning, one of them milks the cow, and the other one cleans her with a brush and cloth.

They have made a red barn in their workroom where they have the cow. The cow is inside the barn. The barn has a hayloft made of colored chalk with some of the hay hanging over the edge. They have real soy beans and corn hanging on the wall.

Each child has a record book in which he notes the amount of milk Bossy gives each morning and afternoon.

They are now building a silo out of barrels. They have some real silage to put into it, which they got from the Mill Road farm.

—Pauline Blume 8.

A Cow Bell Jingle

We made a cow all black and white
We milk her in the morning and at night
She has real horns, and hoofs, too,
And she says "oo, moo, moo."
We feed her silage, soy beans and hay,
We brush and clean her every day,
She stands in a stallion in the barn
Where it is always nice and warm.
Upon her neck she wears a bell,
We like our bossy very well.

—Composed by Grade 1W.

ASSEMBLY PROGRAM

The Monday morning assembly

program at Elm Place school was composed of several numbers. The school band presented several very fine selections. This is the first appearance of the band on this year's programs. The clarinet trio played a special number that was extremely well done.

In addition to the band program Ljvia Montle sang for us, and Rose Caryl Pfanstiehl did a tap dance.

THE HARMONICA BAND

The Harmonica band of Elm Place school will reorganize for further work next week. The band has always proved very popular with the children, and so a large number of applicants is expected for the try-outs. Those children who might not be included at first will do private practice until they can be admitted to the band, which plans to give several programs for the student body.

RIDGE SCHOOL

THE WEATHER BUREAU

The United States Weather Bureau was organized in 1870. At that time it was a division of the signal service in the War department, but after the year 1891 it became a branch of the Department of Agriculture which it is today. Ten thousand persons are employed in this service.

The weather influences the welfare of man more than any other one thing. We all depend, more or less, on the daily weather report. If it were not for the work of the bureau, many lives might be snuffed out before action could be taken to prevent disaster. Transportation of all kinds look to these reports for guidance in their work. The work of this bureau amounts to far more than most people realize, for over 250 stations are scattered over the country, with official forecasts being given from the federal observatories every twelve hours.

Bud Haas, Grade 8.

LINCOLN SCHOOL

THE SKATING RINK

Our skating rink is truly one of the happiest and most colorful spots in Highland Park. Many of our school children spend their happiest moments on the skating rink.

Our rink was paid for by subscriptions of our parents. If it had not been for them we certainly would never have had it. We also have a warming house and it surely does keep you warm after you've been skating.

The boys, though, all think the hockey pond is the best, and so do I. We would like to have you come, too.

Bob Templeton, Grade 8

BRAESIDE SCHOOL PLAYERS

The 6th grade of Braeside school has suddenly gone dramatic. They have organized a dramatic club called "The Braeside Players." Last Thursday they gave for their first play, a new version of "The Emperor's New Clothes." The play was written by the children and presented under the direction of David Whitcomb. We hope that they soon will present another one for us. I am sure that we shall get just as much enjoyment out of it as we did "The Emperor's New Clothes."

Mary Lou Harrison, Grade 8.

We had some very interesting movies in our room last week. They were pictures which Joseph Michael's father had taken in Europe. One film showed Buckingham Palace and the changing of the guards. There were also pictures of Holland, Italy and Switzerland. We enjoyed all of them very much.

Hallie Harrington, Grade 4.

2556 HOLC LOANS for Lake County

Lake county received 2,556 applications for loans from the Howe Owners Loan corporation up to and including October 3, 1935, according to a report recently compiled by the National Emergency Council.

In this county there were 1,292 loans closed, amounting to \$5,318,291 on this date and 432 applications pending for loans. The report lists 832 loans as "held in suspense," which includes applications withdrawn and applications held for further consideration.

Figures for Illinois given in the report were: 127,170 applications received, \$6,662 held in suspense and 11,837 applications pending. The 58,671 loans made up to October 3, 1935, in Illinois totalled \$232,269,480.

The Newark airport at Newark, N.J., has installed radio transmitters and lights to assist pilots in making blind approaches to the landing area when visibility is poor.

Ford Motor Company Distributes Almanac

Publication of a "Farm Almanac and Facts Book" which will be distributed to the rural population in all parts of the country was announced today by the Ford Motor Company.

The book is of a convenient pocket size, containing 48 pages. It is unusual in makeup and content, presenting an extensive array of handy tables, statistics and charts for the assistance of the farmer and business man. Other sections are designed to aid the farm wife.

This first Ford almanac is published for 1936 and is now being distributed. It carries a readily available calendar on the back cover and contains tables showing the time of rise and set of sun and moon in all parts of the country every day of the year. Other helpful and interesting astrological and

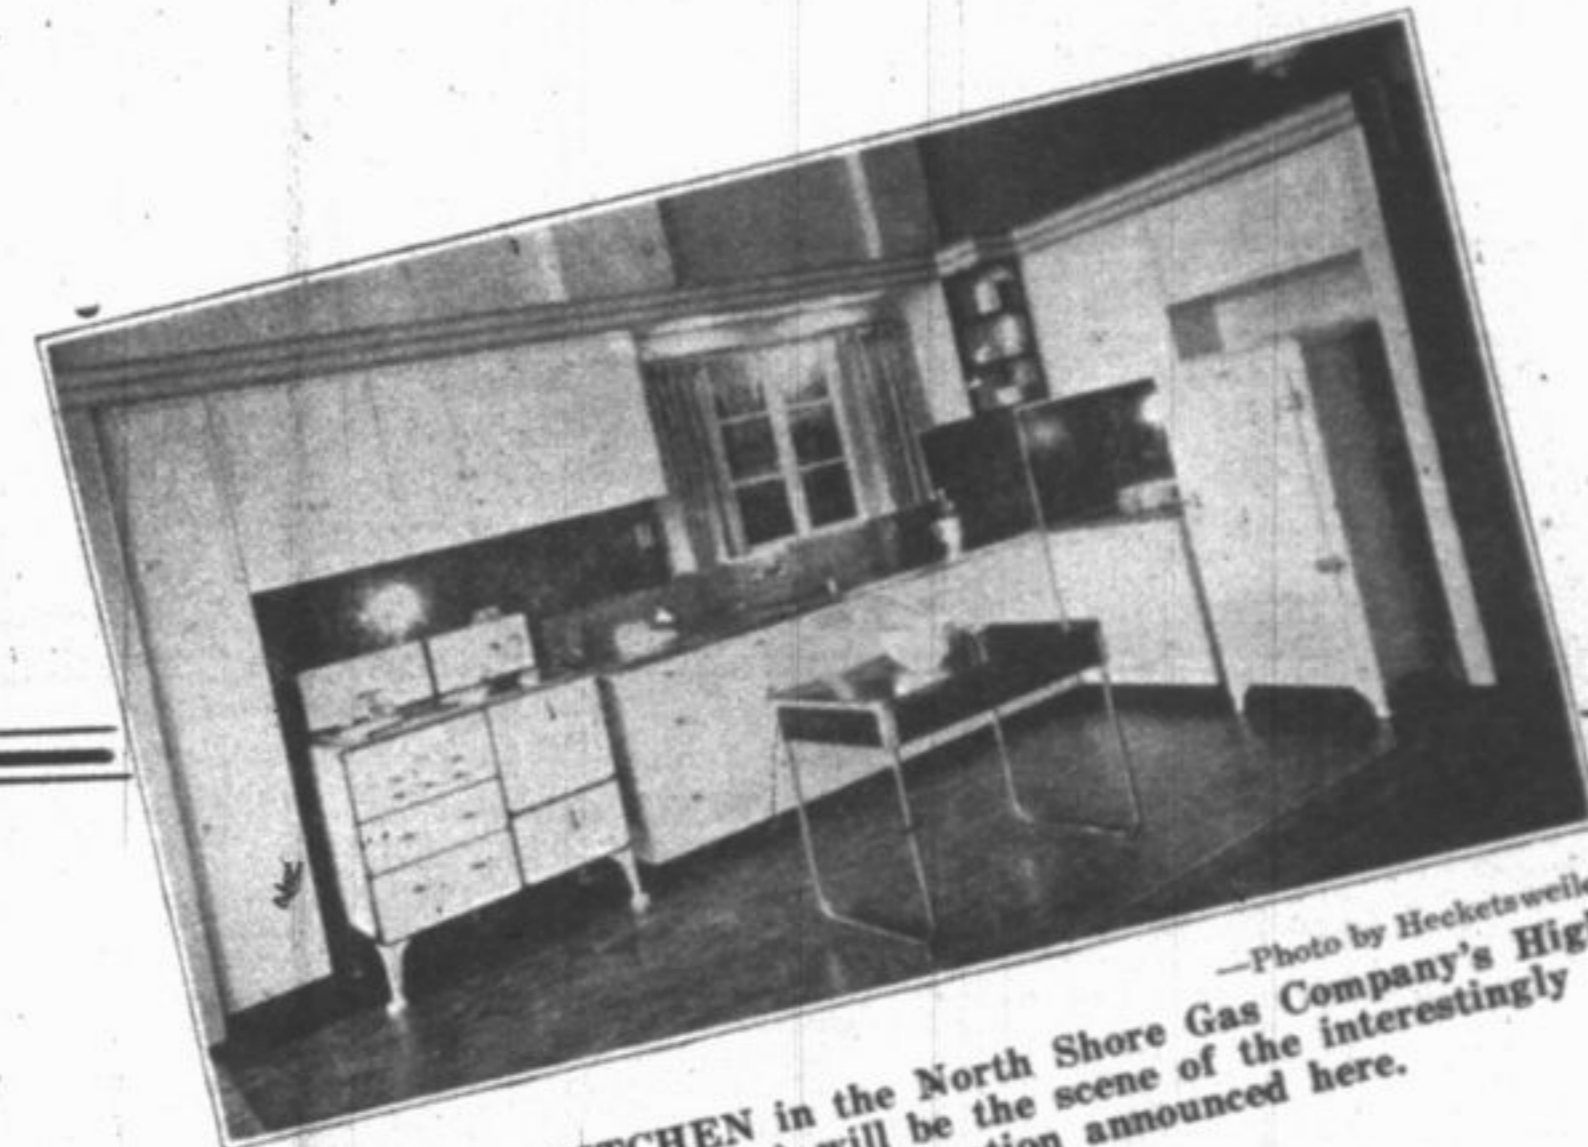

astronomical information is included.

Among the other prominent sections of the book are: A list of memorable historic events for each day of the year, facts about the universe, explanations of physical phenomena, a list of important festivals and anniversaries for the year, rules for telling weather conditions, population statistics, facts and records on farming as an industry, discussion of the farm of the future, information on citizenship and naturalization, a brief review of the history and development of United States, "do's and don'ts" for use in emergencies, poisons and their antidotes, instructions for flower and vegetable gardening, crop seed sowing instructions, a list of places of interest to the tourist, parcel post rules and regulations, temperature rainfall chart, dates of killing frost in all parts of the country, and a table of distances between the principal cities of the country.

Stories on the founding and development of the Ford Motor Company and about the Ford Rouge Plant, word pictures of famous Edison Institute Museum and quaint Greenfield Village, established within a few miles of the Rouge Plant, are other features of the Ford Farm Almanac.

Starting Friday! A novel FOOD DEMONSTRATION in the model gas kitchen of the gas company's office in Highland Park

THIS MODEL KITCHEN in the North Shore Gas Company's Highland Park office (above) will be the scene of the interestingly different food demonstration announced here.

He knows 8,500 recipes

PHIL LIBBY (left) is an accomplished chef and food expert whose years of food preparation and experimentation have built for him a "repertoire" of 8,500 recipes. He will be in charge of the demonstrations at the gas company.

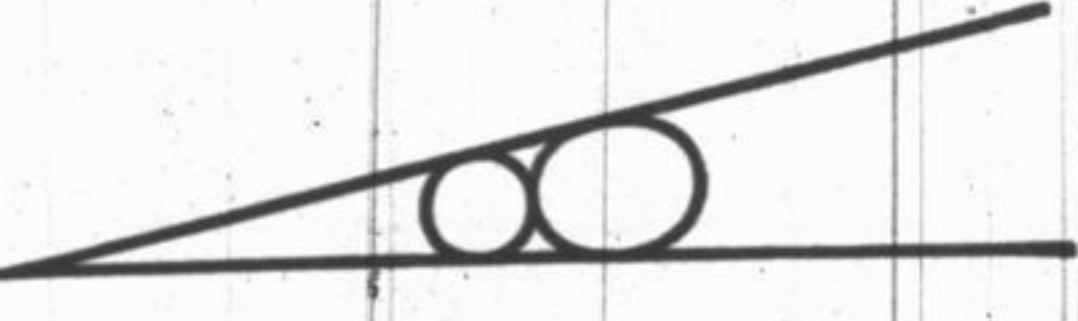

DAILY!
Jan. 31 to Feb. 11
9 a. m. to 5 p. m.

offered through cooperation of
HIGHLAND PARK PRESS and
NORTH SHORE GAS COMPANY

There is more than meets the eye in a perfectly browned, savory roast; in a flaky pie crust that "melts in your mouth"; in vegetables that are cooked so that flavor is retained and enhanced; in desserts that give your appetite added zest; in fact, in all the great variety of foods you can serve in your home. What is the secret to giving your foods this extra goodness? The Highland Park Press and North Shore Gas Company have arranged for you to learn these cooking secrets. They are presenting Phil Libby, whose experience includes that of head chef in the Niunala Hotel in Honolulu, in daily food demonstrations at the North Shore Gas Company office in Highland Park. Mr. Libby will be glad to answer your questions individually. Visit this demonstration and find the answer to your cooking problems!

Come! This demonstration is FREE!

Ford ANNOUNCES \$25-A-MONTH TIME PAYMENTS AND A NEW UCC 6% FINANCE PLAN

Any New Ford V-8 Car
Can Now Be Purchased for \$25 a Month
with Usual Low Down-Payment

THIS \$25-a-month time-payment plan enables you to buy a New Ford V-8 car through your Ford dealer on new low monthly terms.

After the usual low down-payment is made, \$25 a month is all you have to pay for any type of new car, including insurance and financing.

Your cost for this extension of credit is only 1/2 of 1% a month on your original unpaid balance and insurance. This plan reduces financing charges for twelve months to 6%. For example, if you owe a balance of \$400 for your

car and insurance, you pay \$24 for the year of credit; if the balance is \$200 you pay \$12. Your credit cost for one year is the original unpaid balance multiplied by 6%.

UCC plans provide you with insurance protection at regular conference rates. You have not only fire and theft insurance, but \$50 deductible collision, and protection against other accidental physical damage to your car.

The Universal Credit Company has made these plans available through all Ford dealers in the United States.
