## A Kitchen Telephone WILL "RUN YOUR ERRANDS"

Many of our customers who have kitchen telephone extensions tell us that the chief value of the kitchen telephone is in saving hurried steps to answer calls in another part of the house. Some appreciate the opportunity it affords to make calls concerning homely household affairs out of the hearing of guests. Others comment on its great convenience for ordering groceries and supplies. With a telephone in your kitchen, you can do your household shopping while you are thinking about it and checking the list of things you need. The cost of an extension is small. Call our Business Office or any telephone employee will help you place your order.

# DEPOSIT INSURANCE

## An Extra Measure of Protection

The management of this Bank always has taken every possible precaution to safeguard the funds of its depositors. In keeping with this traditionally conservative policy, deposits made here are now insured by the Federal Deposit Insurance Corporation.

The insurance thus provided applies to all deposits, including personal and corporate deposits, deposits of public funds, and trust funds awaiting investment.

At the present time, the maximum amount insured for each depositor is \$5,000. This does not mean that a depositor with an account of, say \$500, is guaranteed \$5,000, but it does mean that his \$500 is fully insured. Deposit insurance is for your protection. It is a permanent part of the Nation's law.

Conditioned upon the above, may we not be favored with your account?
