Deerfield Board Plans Fire District

A special meeting of the Deerfield village board was held Friday evening to discuss the establishing of a new fire district.

The territory included is to begin at Deerfield's eastern boundary adjoining Highland Park, and continue from Route 22 at the north to one-quarter mile south of County Line Road, then west to Saunders Road, north to County Line Road, west to the Desplaines River, north to Route 22, with that road as a northern boundary.

Petitions for signers will be circulated in order to have an election. People of the district will then be given an opportunity to vote on the question.

The benefits to be derived from the newly created district (with an increase of about one-quarter mill tax) are many.

First and foremost will be the acquiring of more modern fire fighting equipment. Two men will be employed, one for day duty and the other for night duty, so that the fire truck will be ready at any time of the day or night for immediate service.

This more efficient fire department will undoubtedly be the cause of a reduction in fire insurance premiums for the district and will more than cover the slight increase in taxes.
