Medical Library Is Planned for Local Hospital

Private Library of Dr. D. W. Rogers Forms Nucleus of Project

The nucleus of what is hoped will be a complete and up-to-date medical library has been started at the Highland Park hospital.

Through the generosity and foresight of Mr. Robert Rogers, who, since the passing of his father, Dr. Daniel Weston Rogers, has made his residence in New England, the local hospital becomes the possessor of Dr. Rogers' entire medical library, comprising some three hundred volumes pertaining to the practice of medicine and surgery.

In addition to the present library, 16 journals and bulletins from medical organizations and research centers throughout the world have been made available to those local medical men using the medical library. These latter contain much important data on recent developments in practically every branch of medicine and will ultimately be bound in volume form and indexed for future research.

The library proper is located on the south side of the main corridor on the first floor of the hospital, immediately to the east of the main entrance. It is modestly but comfortably furnished, and adequate lighting and seating facilities invite perusal of the works lining its

"The Mikado" To Be Given Tonight at Deerfield-Shields

Having staged many light operas in the past four years, the semi-professional Lake Shore Opera Players come highly recommended to the Highland Park school this evening to play Gilbert and Sullivan's famous "Mikado." The profits are to be used to buy the school a needed marimba and additional new uniforms. The play will begin at 8:15.

The singing professor at Northwestern, also music critic for an Evanston paper, Mr. W. A. Stultz, assures Mr. Finch of the school's music department that the group is exceptionally well trained, the productions are cleverly staged, and the principals are very fine. Mr. I. Rudolph, executive secretary of the Chicago Federated Boys clubs, who has had the group play for benefits for his organization, says "It is a capable company that puts on colorful performances which, in my estimation, are on a par with fine professional work."

The players' costume designer previously worked as a designer for the Metropolitan and Chicago Civic operas.

Tickets bought from band members or their parents may be exchanged at the box office for reserved seats.

Reserved seats may also be secured at the door this evening.

The junior players will have a tournament starting at 7 p.m. on Friday, while the finals for all games will be played Saturday at 8 p.m. There will be an exhibition volleyball game between Ravinia Volley Ball club and the Evanston Y.M.C.A. team at 7 p.m., Saturday.

The scouts of troop 33 wish to express their thanks and appreciation to Sheridan Rifle and Pistol club for the valuable instructions they received and for the good time they had.

Council OK's Paving of Central Avenue

The Highland Park city council at its regular meeting last Monday night in the city hall, passed a resolution authorizing the paving of Central avenue, from Green Bay Road to Sunset Road.

The work can be done at the cost of \$55,800, it is estimated, and the city has approximately \$32,000 accumulated in the motor fuel tax fund which will be appropriated to cover this improvement. It is planned to pay the balance by special assessment.

Instructions were issued by the council to the corporation counsel to draw up an ordinance providing for the changing the name of Deerfield avenue west of Deerfield Road to Berkeley Road.

Legion to Hold District Meeting Here Tonight

Members of Eighth District to Assemble at Masonic Temple

Members of Dumaresq Spencer Post No. 145 of the American Legion will be host to the 8th District at a meeting to be held in the dining room of the Masonic Temple, Thursday evening, February 27, beginning at 8 p.m.

The meeting will be opened by Commander Gilroy after which the district commander, Harry Brown, of Lake Forest, will take charge.

A program of entertainment has been arranged for, to take place after the business session, after which refreshments will be served.

At this meeting, an annual affair, it is hoped by the officers of the local post that all members will avail themselves of the opportunity to meet members of the other posts in the district, by attending this meeting.

No Action Taken on Time Change in H. P.

Although an ordinance has been drawn and is now on file, the Highland Park city council has (as we go to press) taken no definite action to fall in line with other suburbs forced into "The Joshua Club" by the ambitious aldermen of Chicago. How the controversy started in the first place is an interesting story which suburbanites probably never will see in the Chicago dailies. Indian summer was a bit late last fall, and after the last Sunday in October when the clocks were turned up again the days continued sunny and warm.

Lacking a topic for a good anti-New Deal editorial, a Tribune editorialist translated his zeal for daylight savings into a pertinent brief write-up no longer than your finger.

It struck a popular chord of approval. Letters began to pour into the Tribune office from readers who favored year-around daylight savings.

The afternoon papers kept quiet, but publishers were apprehensive as they studied the effect of a 12-month daylight savings on news stand sales.

The final New York markets would arrive in Chicago one hour later than they do at present. Race track news would be an hour later. And with the morning papers getting out an early night edition on newsstands at 7 p.m., late-working commuters might grab a morning paper instead of the afternoon daily's final market-sport edition.

Soon from the afternoon sheets came news articles and editorials, thunderous in their condemnation of the whole scheme. One paper ran a series of satires on members of the city council, climaxing it all with sarcastic editorials advocating the abolition of the council.

Shore Line Trains To Be on New Time

All schedules of the Chicago road—the North Shore Line—will be adjusted starting next Sunday (March 1) to conform with the time change which goes into effect in Chicago on that date, it was announced today.

Starting at midnight Saturday, when clocks will be advanced one hour, operation of all trains will be in accordance with the new time—one hour faster than the present central standard time. Time-tables showing the adjusted schedules are now being distributed through stations of the company.

Except for a few minor schedule changes in the arrival and departure time of trains at intermediate north shore stations, operating schedules are the same as heretofore. One additional Saturday train from Chicago to Libertyville and Mundelein is announced. This train will leave the Adams-Wabash station at 12:10 p.m., and will make all local stops to Mundelein, arriving there at 1:22 p.m. This train will serve all Skokie Valley Route stations and adjacent golf courses and country clubs.

PWA Contracts for Sanitary Dist. Are Reallotted

Darrow and Barron of Waukegan To Do Work on Ravine Drive Project Also

Recommended re-award of the contracts for the North Shore Sanitary District sewage treatment plants to Darrow and Barron of Waukegan, Illinois is satisfactory to PWA, Carl H. Bauer, state director of the Public Works Administration, notified the district trustees today. The low bidder who originally had been awarded the contract was unable to provide the required bonds.

The additions to the Highwood plant were awarded Darrow and Barron on a bid of \$75,728.75, and the Highland Park plant at Ravine drive was awarded the same firm on bid of \$104,715. A deduction of \$2,750 for a combined contract award brought the net total to \$177,693.75.

PWA made a 45 per cent grant of \$106,363 to the project, estimated to cost \$236,200 to construct. With the re-award of the contracts, work can start as soon as the contractors file with PWA proof of insurance, a performance bond, and the executed contract.

"Three Musketeers" at The Alcyon Theater

"Mutiny on the Bounty" showing for the last time tonight at the Alcyon, stars Charles Laughton, Clark Gable and Franchot Tone. Fiction never equalled this true story of mad mutiny, primitive romance and lusty adventure in tropical waters. Every word, each character, every incident is authentic!

Impressively produced and superbly enacted, "The Three Musketeers" comes to the Alcyon on Friday and Saturday with the full enchantment of Alexandre Dumas' ageless romance which takes its place among the season's outstanding pictures. The celebrated Broadway actor, Walter Abel, portrays d'Artagnan, while Paul Lukas, who has earned such wide popularity in suave and urbane roles, plays the part of Athos. The talented English actress, Margot Grahame, plays the role of Milady de Winter, spy of Cardinal Richelieu.

Sunday, Monday and Tuesday brings a robust tale of the Barbary Coast in which James Cagney packs fine fighting form as a sailor who rises to rule the gaudy underworld. Here is a forceful melodrama, containing plenty of human interest, a charming romance, and situations that hold one in tense suspense. Margaret Lindsay, Ricardo Cortez, and George E. Stone turn in excellent portrayals.

"Bad Boy" featuring James Dunn, Dorothy Wilson and Louise Fazenda will be an Alcyon attraction on Wednesday and Thursday of next week. Humorous as well as mildly sentimental scenes and excellent acting make this a picture the whole family can enjoy.

Bakery Sale Saturday

The Ladies' Aid of the Grace M.E. church will hold a bakery sale Saturday, Feb. 20, at Laegeler's Drug store in Highwood. Many fine home made articles of pastry will be offered at reasonable prices.

SMALLOWPOX

The Board of Health of Highland Park wishes to bring to the attention of the public the present status of the smallpox situation as it exists in the State of Illinois.

There have been 78 cases reported since January 1, 1936 compared with 15 cases up to this date last year. During the week ending February 17, 1936, 14 new cases were reported, all of them being in Chicago and suburbs.

A state publication reports as follows: "The 14 new cases of smallpox last week, coupled with a large unvaccinated population, makes the smoldering prevalence of this disease a disquieting threat to satisfactory health conditions."

The local Board of Health recommends that each child and adult be protected by vaccination against the possibility of smallpox invading this immediate vicinity. To this end the family physician should be consulted regarding vaccination or re-vaccination against this easily preventable disease.

Publications Staff for Yacht Club News Announced Last Week

The Publications committee for "North Shore Yacht Club News" was announced at the club meeting last Thursday, February 20. Those serving on it are, Edgar Boehm, editor; Baker Hamilton, associate editor; Ray Rogers, Edward Weeks, and Robert Carter.

The committee met at the clubhouse last Sunday afternoon to lay their plans for the forthcoming publication. The paper is to be printed each month, and will contain editorials, features, exchange news from other yacht clubs, and any announcements or information from the racing season, it will in addition contain race results and bulletins.

The Program committee makes the announcement that at the next Yacht club meeting, Arthur Gourley, at the request of the Race committee, will give the first of a series of lectures dealing with rules of the road and racing tactics. These lectures should prove very worthwhile, and will give the skippers a chance to brush up on their racing rules before warm weather brings the fleet to the beach.

Highland Park Boys Appear in Opera at University of Chicago

Cody Pfantstiel and Robert B. Anderson, both from Highland Park and students at the University of Chicago, took part in the production of Gluck's opera "Iphigenia in Tauris" which was presented recently by the University of Chicago Opera Association at Mandel Hall on the Midway campus. Pfantstiel served on the production committee, while Anderson was a member of the business committee.

The heroic tragedy "Iphigenia in Tauris" was the third annual production of the University Opera Association and this was the first time the opera has been produced in this country on a major scale. The production was conducted by Cecil Michener Smith, assistant professor of music at the university. The major roles were sung by professional artists, several having appeared with the Chicago City Opera company, while the choruses and orchestra were composed of students of the university.

This year's production was adjudged a great success by the Chicago critics as were the first two productions of the University Opera Association, Handel's "Xerxes" and "Dido and Aeneas." The University of Chicago Music society will, in the near future, sponsor the premiere performance in English of Weinberger's "Schwanda, the Piper."

Deerfield-Shields P.T.A. To Meet on Tuesday, March 5

The Deerfield-Shields Parent-Teacher association regrets that it will be impossible to present Professor Franklyn Bliss Snyder on the evening of March 5, as announced.

The regular March meeting will be held in the English Club room of the high school on Thursday afternoon, March 5, at 3 o'clock. There will be a social hour with the teachers around the tea-table, followed by the regular conference hour.

These conferences have been so successful as an aid in the solution of student problems that both teachers and parents will welcome an extended conference period. The purpose of the Parent-Teacher association is to promote an understanding relationship between the home and the school. This purpose seems to be best served by the increasing use of the personal conference.

Gasoline Fouls Air at Elm Place School

For the past three weeks there has been a strong gasoline odor throughout the Elm Place School building which culminated Tuesday, Feb. 25, and spread to the Primary Building.

The board of education has done all it can to eliminate the odor and the city hall is now working on the problem.
