

SCHOOL NEWS

HIGH SCHOOL NOTES

by Kathryn H. Weinberg
The D.G.A. board of Deerfield-Shields has added a fifth award this year. It is a plaque on which the girls' names will be placed each year. The purpose of this is to give junior girls who have already earned four awards an incentive to earn more points.

Joe Brown, Deerfield graduate '35, has been pledged to Delta Tau Delta fraternity at the University of Illinois.

Try-outs for "Student Stunts" start on April 1. Many skits are being violently rehearsed. Of all those whose skits are seen, about 20 will be chosen for use in production.

Miss Vivian Campbell, former Deerfield student, is replacing Miss Lindquist in the office of the Highland Park high school. Miss Lindquist will become Mr. Richardson's assistant.

Initiation into the National Honor society will be held on April 8. Of the 49 seniors in the upper quarter of the graduating class, only 31 are eligible for this honor.

Members of the new executive board for next year are: Jean Ball, William Bigley, Laverne Clone, Adolph Czerwenka, Robert Jackson, Betty Ann Johnson, James Sanford, Thomas Simpson, Henry Wilder, Peter Wolf and Lois Zahn.

Spring vacation will be held from April 10, 20 at the Highland Park high school.

DEERFIELD SCHOOL

Kindergarten News: Birds we have seen — robin, bluebird, meadow lark, killdeer, starling.

James Peckham brought us a cocoon Thursday. While we were looking at it Miss Callanen asked us to come into her room and see the moth that had just come out of

a cocoon. It was a Cecropia moth. Fifth grade (Evenson). Soap Carvers: Our room is very interested in soap carving, so much so, that we give up our recess periods for it. We are carving bunnies, cats, and dogs. We hope to be able to make some fine pieces before the close of school.

Sixth Grade Poetry
March Winds—by Gloria Segert
The March wind likes to make you run
He puffs and blows beneath the door.
He takes your hat and has some fun,
And makes the rugs dance on the floor.
He makes the children run down the street.
He makes them jump right off their feet.
The children like him because he'll fight
A tug-of-war with their new kite.
The Fire—by Buddy Piper
We love to sit in the warmth of the fire
And watch the flames go higher and higher.
They cast queer shadows when the lights are low
Then softly the sandman does come, and go.

the India dance.
The Girl Scouts who are not going to be in the dances are going to decorate the tables. We invite everybody to come to the banquet. Janice Wilson, Grade 6.

BRAESIDE SCHOOL

The Braeside Cubs
Braeside school has organized a Cub Scout troop. Since there are 15 boys in the troop, we have divided it into two dens. The boys around North Deere Park are in one den, with Bob Will for den leader (den leader). The boys around school are the other den with Ray Scassellati, as denner. We meet on Mondays after school. Our uniform is blue and gold. We are planning some interesting hikes, when all this slush is gone.—Bob Gassens, Grade 5.

Florida
When I was down in Florida I learned something I did not know before. Somehow I always thought the everglades were jungles. What was my surprise when I went there and found they were mostly swamp lands. I saw there all the interesting birds you expect to see in a swamp: pelicans, herons, and ducks. I saw a rattlesnake, too. It was nearly five feet long.—Robert Mjeller, Grade 5.

RIDGE SCHOOL

Our Japanese Murals
Some time ago we started to make two Japanese murals for our room. One was to be a spring scene picturing the cherry blossoms for which Japan is known, and the other the fall chrysanthemums.

Each child had a chance to use colored chalk, and some day we looked like Indians dressed in "war paint" with nearly as much chalk on us as we put in the pictures.

One child put in people riding in jirrickishas pulled by coolies. Others added kites, flowers, trees, and lovely ladies carrying gay umbrellas.

Now, however, we are finished and the murals are on the wall. We are well pleased with our work, and even the Japanese ladies seem to

smile as if they are glad to be with us.—Richard Bruce, Grade 33.

LINCOLN SCHOOL

Florida
About one week ago my mother, father, sister and I got back from a lovely trip to Florida. We stayed at Miami Beach.

Nearly every day of the two weeks we stayed there, we spent the afternoon swimming.

One day while I was swimming I felt something sting me, it felt like a lot of little pin pricks. I quickly swam away for I had often heard of an animal called, "Man-of-War," which stung people. When I looked where I had previously been, I saw the "Man-of-War," that had stung me. These animals are similar to jelly fish but are a bright blue color. When floating on the water they look like big blue bubbles. Each one has a long stinger trailing behind it. This stinger is sometimes two yards long. When these animals are washed up on shore they dry up in about half an hour and if you poke them with a stick they pop.

We also saw a crab that looked like a spider. It ran sideways instead of forwards.

There also are many chameleons down there. They run around underneath the bushes. They are very hard to catch because they change colors.

We had a lovely time and enjoyed our trip more than I can describe.—Margaret Johnston, Grade 7.

ELM PLACE SCHOOL

The "Open House" at Elm Place school on the evening of March 26 is a cross-section of school activities.

Featured in the auditorium program are samples of work from every department. There are seven sections altogether: social science, science, literature, English, manual arts, mathematics, and the work of the primary grades. Representative activities in these departments are shown by the pupils.

After the program proper, there are displays of students' work, text-

books, and projects in all the rooms. This is an excellent opportunity to see how the work of the school is carried on.

Movies

We saw ourselves as others see us a week ago Monday when Dr. Cupler of Wilmette showed us movies he had taken of ourselves. Some of the best pictures showed us skating and skiing during the snowy season just passed. Others showed us marching in the parade last picnic day. It was fun recognizing comrades and friends, and seeing the Elm Place children playing so happily.

A few cents a day will give you a modern GAS KITCHEN and hours of leisure

- Save steps... effort... time... bother
- Save money on food and cooking costs

You are wasting hours every day if you are "getting along" without a modern gas range and automatic gas refrigerator. What is more, you are wasting dollars! And it is these dollars now being lost that will help you own a modern GAS kitchen. You will save yourself, your time and your money if you install a new gas range and gas refrigerator. They eliminate inconvenient, uncertain, inefficient methods. They make kitchen tasks a real pleasure by giving your cooking and refrigeration the highest possible degree of simplicity, ease, dependability and economy.

Why miss the enjoyment, leisure

and savings offered to you by a modern GAS kitchen when you can have every one of these outstanding advantages for a few cents a day! Here is an easy payment plan that will fit your budget. Come in and ask for a demonstration of a new-type gas range and gas refrigerator. You will not be obligated. Or telephone for further information.

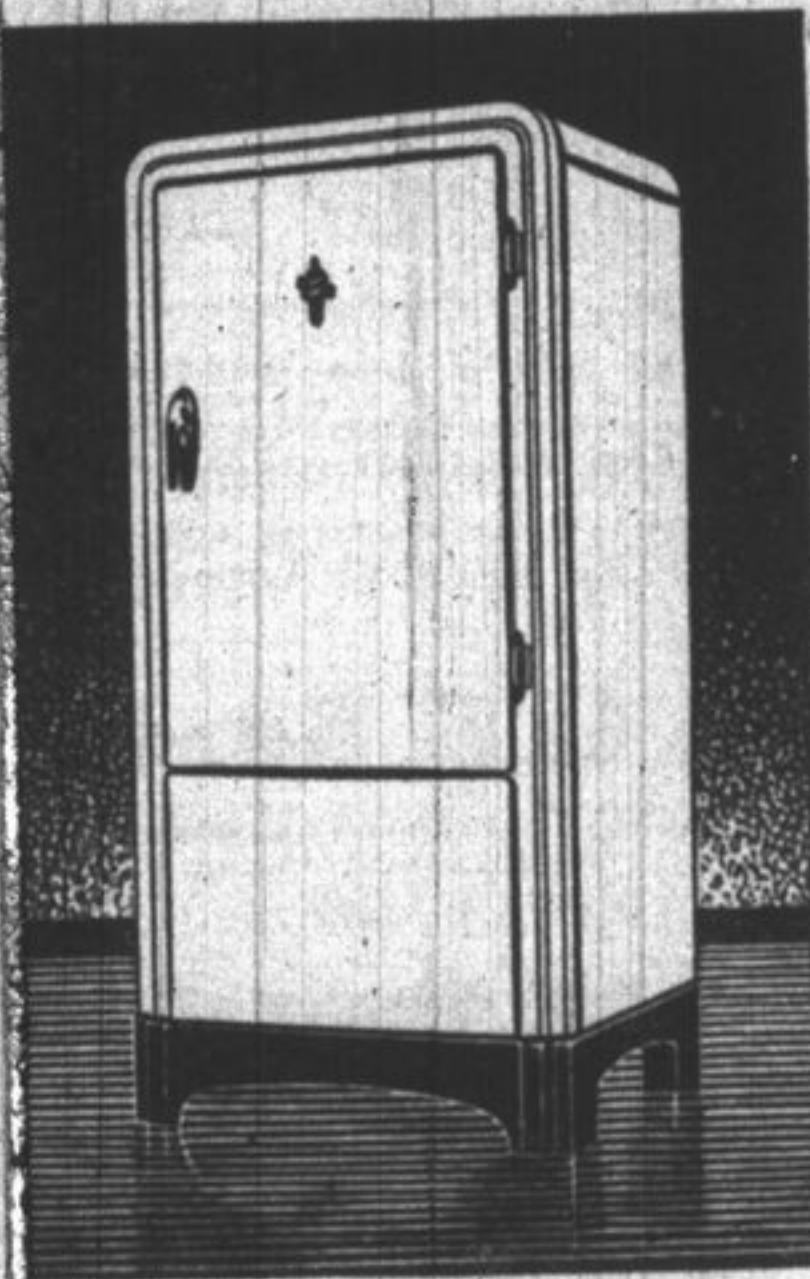

Universal Gas Range

The Oxford Universal gas range (above) simplifies cooking and makes it unfailingly dependable. Visit our display now and see its many features.

Magic Chef Gas Range

Here is a popular model of the famous Magic Chef gas range. It will make your cooking modern at low cost.

ELECTROLUX Gas Refrigerator

It's silent. It has no moving parts to wear or vibrate. It is most economical to use. These are vital advantages of the Electrolux GAS refrigerator. In addition, it has every worthwhile convenience; expertly designed interior, and exceptional beauty. It is the refrigerator you will want when you see it!
