Yacht Club Completes Plans for Spring Dance

Further plans were made for the Spring Regatta dance to be given by the club on April 18. At the business meeting of the North Shore Yacht club, held last Thursday evening, The Ravinia Village house, which has been chosen and everything possible is being done by the yacht club to make the evening complete.

According to the report given by Baker M. Hamilton, chairman of the Social committee, a setting will be provided which will make the dance one of the most unusual and colorful occasions ever held on the north shore. No trouble will be spared to create a true nautical atmosphere. The Village house is to be transformed into a ship, complete with a gangplank, lifeboats and a bridge. A novel lighting effect is to be used.

The orchestra selected for the occasion is the Townsmen, of Lake Forest, of which Harry Nielson, one of the Major Bowes amateurs, is a member. The orchestra has promised several specialty numbers to add to the evening's entertainment.

As stated by Baker M. Hamilton, the ship will depart on a de luxe pleasure cruise at 9 o'clock, docking again at 1:00.

The tickets are now on sale to the public and may be secured from any member of the Yacht club, any of the local drug stores, or may be purchased at the door the night of the dance.

Lake Forest Academy To Hold Spring Festival

Because of the scarlet fever epidemic which placed Lake Forest Academy in quarantine during the month of February, the school's annual mid-winter festivities, originally scheduled to have been held over the week-end February 21-22, will be held as a "spring festival" over the week-end of April 17 and 18, it was announced by Headmaster John Wayne Richards.

Opening with the headmaster's tea in Durand House on Friday afternoon, April 17, the week-end festivities will be concluded at a formal dance in the Academy gymnasium at 8 o'clock Saturday evening, April 18. The musical clubs' concert and follies show will be held at 7:15 Friday-evening at Reid Hall Chapel and will be followed by an informal dance in the gymnasium. On Saturday afternoon the Academy Gargoyle Club will present "The Dictator" at Durand Art Institute.

An exhibition of works produced during the year by the students of the graphic and mechanic arts department of the academy will be held in Reid Hall during the festival. A feature of the exhibition, which will be open to the public, will be the Academy's prize winning exhibit at the annual flower show at the Navy Pier recently.

Mason Advocates Abolishment of Real Estate Tax

William Mason, 419 Ninth street, Wilmette, Illinois Democratic candidate for Representative in Congress, 10th Congressional District advocates abolishment of real estate taxes for the small home owner by Federal legislation, forcing the states to abolish real estate taxes to receive Federal benefits. His platform also favors establishment of an adequate old age pension and unemployment insurance, and the re-establishment of a bank credit for the small merchant.

Mr. Mason was born, raised and still resides in the 10th District and is well known in the building and contracting, mortgaging and real estate business. His experience while practicing law is also of great aid in his list of qualifications.

More heat is required to increase the temperature of water than of any other substance except hydrogen.

Harris Opposes Benefits for Special Interests

At the time of my announcement of candidacy for Representative in Congress from the 10th Illinois District on the Republican ticket I stated that I would from time to time make clear my position regarding matters which it is the right of voters in this district to know.

During my campaign I have been approached personally and by mail by duly authorized representatives of various groups, whose purpose it is to benefit some particular class of people by means of national legislation. Each of these groups, in their plans has something which is unquestionably of merit. By the same process of reasoning, portions of their plans would not be for the best public interest.

I am a candidate for the Republican nomination for Congress from the 10th Illinois District, on a platform to represent the best interests of 577,000 residents of this district and our state and country as a whole.

Any portion of the plans of these various groups, which after careful study, satisfies me that it will meet the requirements of the above statement, will receive my hearty co-operation. Conversely any portion of their plans which I do not believe to be for the best public interest, will receive my earnest opposition.

I believe that this pledge of mine would justify the support of any voter in the 10th Congressional District, who is satisfied with the honest assurance I have made above, rather than promises made, which cannot or would not be kept.

JOHN FAY HARRIS,
Candidate for Nomination
For Representative in Congress,
10th Illinois District.

Easter Pageant at Bethany

A pageant of unusual interest is being prepared and will be presented at the Bethany Evangelical church, Sunday evening at 8 p.m. The pageant might well be called an Electrical Easter Pageant. It depicts the story of the Three Crosses, The Empty Tomb, and the Ascension of Christ. Each of these phases of the scripture is set forth by silhouetted panels, which will be colored and emphasized by a series of lights. The coloring of these lights will do much in making the pageant a success. The pastor will read various portions of scripture, giving the setting of the picture before the audience, he will be assisted by the Bethany choir who will sing anthems and hymns, also presenting Easter message. This pageant has been planned and worked out by Mrs. L. R. Hawley and her son Richard. They had the privilege of presenting it at Memphis, Tenn. a year ago, where it was considered a great success. A cordial invitation is extended to all to share this fine service Easter Sunday evening.

Radium, because of its value in cancer treatment, is of far greater worth than its commercial price of \$50,000 a gram. The two main sources of supply are the Belgian Congo, Africa, and Great Bear lake, Canada, which are separated by 10,000 miles and a temperature range of 200 degrees. Approximately one-fourth of the moving picture films shown in British theaters are now of British origin, apart from news and travel films.
