

Synopsis of Lecture on Christian Science

Monday evening, Francis Lyster Jandron, C. S. B. of Detroit, Mich., member of the Board of Lectureship of The Mother Church, The First Church of Christ, Scientist, in Boston, Massachusetts, spoke at the Elm Place school. The subject of his lecture was "The Science of Good Government."

The lecturer spoke in part as follows:

Christian Science teaches that God, Spirit, the supreme cause and creator, self-existent Being, cannot be finite or personal. Wherever thought can reach, there at that moment God can be found. God's government is instantly available to redress wrong, no matter how long established a wrong may have seemed to be. It is instantly available to avert danger, no matter how formidable a danger may seem. Because God, Spirit, is divine Principle, it follows of course that His creation must be mental or spiritual, to be perceived only through spiritual sense. Christian Science teaches that if you will allow thoughts which are Godlike, that is, unselfish and spiritual, to take possession of your consciousness, because they partake of the immutable quality of the infinite self-enforcing Principle which they reflect. It makes clear that you have but to entertain mentally, to reason with, these Godlike thoughts, and they will give you employment; they will heal you of sickness and sin; they will supply your needs abundantly; they will enrich and beautify your life; they will lift you above fear. They will prove to you that to acknowledge and conform to the government of God, the divine Principle of all real being, is to place yourself where nothing unlike God can thwart or reverse the good which you have made your own. The Psalmist discerned this possibility when he sang, "He that dwelleth in the secret place of the most High shall abide under the shadow of the Almighty."

Now since this is true, and Christian Science teaches that it can be proved, then all which appears to contradict or oppose God's government in national, collective, or individual affairs must be the result of a mistaken view of God's nature and power. Proportionately as God's spiritual government is understood and conformed to, human governments are improved. The peace and good will which flow from obedience to God's government are really the only sure foundations of progress. Hatred never made a nation or an individual strong or happy, and genuine peace and prosperity cannot result from war and destruction. In our endeavors to assure peace among the nations we must acknowledge that God's government is supreme, and practice peace and good will in our own daily experience. In God's hands alone "is the kingdom, and the power, and the glory, for ever."

Mrs. Eddy's discovery came to a generation unprepared to receive it. It came because there was one who could understand it; because there were some who were conscious of their need of it. Divine Principle operates in the same way for all people and in all ages. It reveals itself to the seeing eye and the hearing ear.

MASTER GARDENER GIVES TIP ON LAWN CUTTING

"Most folks," says the Master Gardener, "clip their lawns too close—so close that they weaken the grass. My advice is, let your grass get 3 inches high before you cut it. Then set your mower no closer than 1 1/2 inches."

And don't forget that grass must have eleven different food elements from the soil. Lack of even one of these results in a thinner growth, giving weeds an easy entry.

Ordinary fertilizers—bone meal, manures and sewage products—supply only two or three of these vital food elements. Most successful gardeners prefer VIGORO, the complete plant food that provides all eleven in balanced proportions. VIGORO is sanitary, odorless, easy to apply, and economical. The world's largest-selling plant food—for good reason! Feed your lawn early, soon as frost leaves.

USE THE COMPLETE PLANT FOOD
VIGORO
Supplies all eleven food elements needed from soil

Deerpath Theatre to Be Scene of Benefit for "Orphans of the Storm"

The Deerpath theatre at Lake Forest is to be the scene of a gay gathering of socialites on Friday evening, May 15, at 8:30 o'clock to attend Irene Castle McLaughlin's movie benefit for the Orphans of the Storm. This performance opens the active summer season for Lake Forest's hostesses.

"The Perfect Gentleman" starring Frank Morgan and Cecily Courtneidge, will be the main movie attraction of the evening.

Gale Page, talented radio artist, will be there to delight the audience with her rich, natural contralto. Harold Stokes who rose to fame via the radio with his imitable piano syncopations will accompany Miss Page (Sally Trichter in private life).

Rumors are that many other featured stars of the radio and stage will be dashing out to do their bit

for the "Orphans" on that night—among them a fast-stepping dance team, a much-loved female singer-comedian; and another big feature of the evening is still a secret... but it's a real attraction.

Lake Forest society is planning to attend en masse to make the evening worth while and long remembered. Many hostesses have planned dinner parties immediately preceding the benefit.

District Legion Units To Meet at Grays Lake

The next quarterly district meeting of American Legion Auxiliary units in Lake County will be held at the Grays Lake grade school auditorium, at 8 o'clock Wednesday evening, May 13th.

Reports for the months of February, March and April, are expected at this meeting and the unit and district chairmen are urged to have them ready.

The committee in charge of the meeting has made the tentative an-

ouncement that the speakers will be Mrs. Ethel Oetter of Des Plaines, department child welfare chairman, and Grover Sexton, a past seventh district commander and the present state chairman of the "Boys State" committee. Mrs. Oetter will have a message concerning her particular committee's activities in the Auxiliary and Mr. Sexton will expound the aims and merits of the "Boys State" which is to be an annual affair at Springfield.

Mrs. Elmon Thurlwell, president of Grays Lake Unit, will open the meeting and turn the evening over to Mrs. Paul Chase, district director who will conduct the business portion of the program and introduce the speakers.

Noted psychologist explains why people fall in love on summer vacations. An article by Professor Laird in THE AMERICAN WEEKLY, the magazine distributed with NEXT SUNDAY'S CHICAGO HERALD AND EXAMINER.

Steaks which are inclined to be tough, such as the top sirloin, are greatly improved if they are spread with a generous quantity of French dressing one-half hour before broiling.
