How are your "SYMPTOMS?"

There are still a few of them left—those old-timers who are continually developing new "symptoms" and seeking to placate them with old-fashioned remedies.

We modern sophisticates smile tolerantly—and turn to some new health fad. But at least the old-timers' remedies were probably harmless, while some of our new-fashioned "health" fads may be downright dangerous.

Before you take up any diet, exercise or miracle method, consult your Doctor. He guided by his counsel. His promises may not be so alluring—but are a great deal safer.
