Had Your VITAMINS Today?

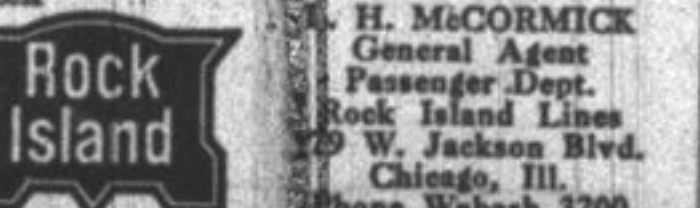

Yes you have—unless you have been fasting. Vitamins lurk in all that we eat, in much that we drink.

But whether you've had sufficient vitamins is quite another matter—a matter that only your Doctor can determine. For Doctors have found that many persons—nursing mothers and growing children, especially—need more vitamins than the regular diet supplies. In such cases they will often prescribe certain of the newer food concentrates.

If you—or a member of your family—is lacking in energy and vitality—consult a capable doctor—and bring his prescription to this Reliable drug store to be filled.
