Federal Government to Aid State Fair

The Federal Government will cooperate with the state government in presenting a whole floor of Federal Exhibits at the Illinois State Fair August 15 to 23, it has been announced by Sveinbjorn Johnson, state director of the National Emergency Council and the United States Information Service, under whose auspices the display will be shown.

An entire room has been reserved on the second floor, in back of the grandstand on the State Fair ground to house such interesting displays as a model village project, in miniature, presented by the Resettlement Administration, and a model housing project prepared by the Public Administration Housing Division.

The contour of the country in Lake county, including all of the creeks, watersheds and rivulets, can be seen in miniature on the scaled model map of Illinois, that will be featured by the Works Progress Administration at the exhibit.

Displays at the Federal Exhibit will include: U. S. Engineers; United States Weather Bureau; Great Lakes Naval Training Station; Bureau of Air Commerce; and the Works Progress Administration and many other Emergency Agencies.

Wind Plays Havoc at Central Beach

A high wind last Thursday afternoon drove most of the bathers from the Central avenue beach and dislodged the diving raft from its moorings. The raft was hoisted after some effort on the part of the Guard Jake Jepson with aid given by some of the few swimmers left on the beach. The waves had subsided enough Friday to permit replacement. However, the float was returned to its original position by members of the Park Board last Saturday morning.
