## Deerfield Legion Annual Carnival To Be Aug. 14-16

Deerfield Legion Days, the annual carnival of the Deerfield American Legion Post will take place this year on Friday, Saturday and Sunday, August 14-15-16, at Jewett Park, Deerfield. Plans for the affair are virtually complete, announced Ray Goodman, chairman.

"Many new and popular old features have been included in the program," says Mr. Goodman. "For the kiddies we have that ever-popular and ageless merry-go-round and the new auto ride where every child rides and drives his own 'auto.' For the youths and those who do not feel their age a sensational 'ride' is provided in the 'Twilt-a-Whirl.'"

"On Friday night at 7 o'clock, to officially open the carnival the Legion is staging a children's costume parade, with prizes for the best costume, single or pair, best decorated float, doll buggy or wagon, most comical costume, and others to be announced later. The route of the parade will also be given out probably by next week.

"Saturday afternoon, at 4 p. m., the Deerfield Legion Junior baseball team will play the Half Day Junior team.

"Another baseball game will take place on Sunday afternoon, at 2:30 o'clock, between the well known Highland Indians and the popular Half Day Athletic Club. Both teams are of a semi-pro caliber and fans will find an exciting afternoon prepared for them in this particular contest.

"From Friday to Sunday, inclusive, will find all carnival features in full swing. For the women the Auxiliary offers their registration booth with hundreds of dandy prizes both edible and useful. This has always been a popular attraction for the fair sex. The bingo game, pleasing to young and old alike has an unusually choice array of awards to delight the players. "Ring the duck" that game wherein the birds soon learn to dodge the rings with uncanny delight the onlookers and dismay of the players will again draw its usual clientele.

"All three days a section will be set aside to display new models in automobiles for many manufacturers have taken space to display their cars.

"There will be a number of booths where the hungry and thirsty may satisfy themselves. Pop corn, candy and ice cream and soft drinks will please the children — and booths for these are also provided.

"Dancing — always in high esteem with the younger generation and the livelier elders — will this year be one of the main features. Going to Chicago for talent, we have secured one of the most popular smaller orchestras for our music — the Tip Top Orchestra. The music put out by these players is guaranteed to be 'hot' enough for any two-some on the dance floor. Three evenings, from 8 to 12, will find the dance floor busy. The tip topers have always played to 'full houses' in Chicago, and from their general popular reputation we believe they will draw the same large following at the carnival.

"The one feature of the carnival arousing the most interest and curiosity on the part of the general public our 'bank night' feature. All the elements of the tremendously popular theatre attraction have been retained in our carnival.

"These are but a few of the many attractions we have prepared to give our patrons three evenings of pleasure on August 14-15-16."

## CURTIS N. KIMBALL DIES

Curtis N. Kimball, manufacturer of pianos and organs, and long time resident of Highland Park, died last Thursday morning at 9:20 at the Presbyterian hospital in Chicago. He had survived what appeared to be a very successful operation, but complications arose near the end of a week which resulted in his death.

Mr. Kimball was born in Mitchell County, Iowa, in 1862, where he received his early education. His parents, David Williams and Sarah Moore Kimball, had migrated west in the early days of their marriage, setting out from Worcester, Mass. They selected a site in northern Iowa, near McIntire, at that time just one hundred miles from the nearest railroad at Dubuque. On this farm, C. N. Kimball was born and here he participated in all the activities of farm life. In 1879 he came to Chicago to work for his uncle, W. W. Kimball, pioneer piano manufacturer of that city. Six years later, he was made treasurer of the company and in 1898, vice-president. At the death of W. W. Kimball in 1905, he succeeded to the presidency in which capacity he served until his death.

During his early years in Chicago, Mr. Kimball attended business college and applied himself diligently to the study of his company's business. A man of keen business acumen, Mr. Kimball inclined to be conservative, careful, and sure in his methods; as witness, a few years ago in the midst of the depression there appeared in the financial section of one of the Chicago dailies a statement that the Kimball building on the corner of Jackson and Wabash, built in 1918, was the only building in the loop which had never been encumbered with a mortgage.

Mr. Kimball was a life member of the Art Institute and the Chicago Historical Society. His clubs included the Chicago Club, the Bob-o-Link, and the Highland Park Club.

In 1894 Mr. Kimball married Miss Fannie Hadley of Boston, Mass., who survives him. The four surviving children, born of their union, are William Wallace, David Wheeler, Mary Hadley Van Steenderen, and Elizabeth Moore. He is also survived by two sisters, Mrs. Robert M. Noble of Iowa, and Isabel Moore Kimball, sculptress, of New York. For 29 years Mr. and Mrs. Kimball have lived on Green Bay road in Highland Park where their children grew to maturity. Those of us who knew them during those years will always remember the beautiful home life which they exemplified, their activities in church and school, and above all, the enduring and constant example of the American home at its best, with its staunch American traditions surviving, steady and true in a changing world.

Sam Fell, clothier, who has been in business in Highland Park for about a quarter of a century, have moved into new quarters at 511 to 513 Central avenue, just west of their former location, 503 Central avenue. The building which is owned by the Gieser estate, previously housed Sobey's Market and Louis' Quick Shoe Repair shop.

A new store front has been installed and the floor level has been changed to meet the side walk level. In fact the whole interior has undergone remodeling.

Although Fell's have moved into the building and are conducting business, their grand opening will not be until the latter part of the month.

New, modern, up-to-the-minute fixtures are to be installed. A complete line of boys wear is to be added to the store, and part of the building is to be used as a separate department for the young men.

Fell's for many years were located on South St. Johns avenue.

A buffet dinner will be served at 7 o'clock in the evening.

As this is one of the outstanding events of the Chamber of Commerce year, it is hoped that all members will make an effort to attend. Reservations must be made at once.

## Bette Davis and Grace Moore in Alcyon Attractions

Bette Davis, whose characterizations of menacing women won her the highest honors of the film industry, the award of the Academy of Motion Picture Arts and Sciences for 1935, has triumphed again. Supported by George Brent and a cast of film favorites, Miss Davis will appear on the screen of the Alcyon in "The Golden Arrow," a comedy by the noted English dramatist, Michael Arlen, on Friday and Saturday of this week. Miss Davis makes the most of her first important sympathetic role, which also has moments of high drama and comedy. George Brent is unusually capable and pleasing as a bashful reporter whom Bette pursues. Unusually fine direction and capable work on the part of the cast makes this one of the outstanding pictures.

Again that golden voice rings out! Again her magic songs thrill audiences anew. Your heart will soar as Grace Moore sings the love songs of the immortal Kreisler in the grandest of all musical love dramas. This latest film is "The King Steps Out," featuring Miss Moore, Franchot Tone and Walter Connolly. It hits a new high in screen fare... the lyric lark of the divine madcap who stole a king on his wedding day. You'll thrill to the golden voice of Miss Moore, to the romantic dash of Mr. Tone and the glorious melodies of Mr. Kreisler. An Alcyon attraction for Sunday, Monday and Tuesday coming.

Every now and then some literary masterpiece comes to the talking screen to give a new thrill in gripping, dramatic entertainment. This is what happened in the case of the new picture, "The Three Godfathers," based on Peter B. Kyne's story of the same name, probably the most dramatic story ever told of the great American desert. Millions have read the story of the three western bandits, who, in the desert find a dying mother and her babe, promise to get it to civilization and, tramping across the desert, die one by one—the last man finally bringing the baby to safety. Chester Morris, Lewis Stone, Walter Brenner enact the three bandits. Beautiful Irene Hervey is the girl of the story. Showing at the Alcyon on Wednesday and Thursday of next week.

## Water Plant Capacity Not Reached in Spite of Large Amount Used

The Chicago Weather Bureau reports that the month just closed was the driest July in the history of the station, which goes back to 1871. The previous low was in 1934, when forty-two hundredths of an inch of rain fell was recorded. This year the July record was twenty-two hundredths of an inch.

The extreme drought, coupled with very hot weather, greatly increased the demand for water. All the water plants along the north shore report exceptional pumpage. The Highland Park plant delivered 149 million gallons into the mains. The previous high monthly record was for July of 1930 when 131 million gallons were pumped.

Superintendent Pringle states that the ultimate capacity of the present water plant has not been reached, and probably will not be for several years. During the hours of peak demand, the pumps were delivering all that the mains would carry, and had a large capacity in reserve.

The new Highland Park water plant, which is in its seventh year of operation, is so designed that when additional capacity is needed it can be secured by building relatively inexpensive additions.

The purpose of Dollar Day is not only to offer exceptional values for one dollar, but to prove to the patrons of the local stores that the Highland Park merchants are qualified to provide the highest quality in merchandise and service.

Coming as it does at the height of the summer season, when warm weather togs are still in demand and will be for some time, the event will appeal to the careful buyer who must replenish wardrobes.

The rising price market, which will tend to send food prices sky high within a short time, will no doubt attract the local housewife who is looking forward to replenish her shelves. Here again she will be offered exceptional values in standard brands of goods.

Highland Park shoppers are aware of the savings effected by dollar days, and will want to take full advantage of the sale prices. There will be real savings on goods offered from regular stock, as well as from broken lines.

Highland Park merchants are alert to the fact that they must secure the good will of their patrons, and so prefer to sell a large volume at a small profit.

In services of all kinds as well as in merchandise of every description, one will find rare opportunities in savings. The individual need of every person or home will be found in the many stores participating in this event. Watch next week's Press for Dollar Day bargains.
