NEW EDUCATIONAL TOY

Designed by W. H. Sutherland

as constructed by a 13-year-old boy.

"TUNIOR HOME BUILDERS" is the name of a

new educational toy recently designed by W. H.

Sutherland of Glencoe, a college instructor and well-

known craftsman. With this toy a child learns to

build a home to exact scale, as a contractor builds a

real home. He learns the stages of construction, the

terminology, how to read working drawings, and

how to scale a drawing. It gives him a keener ap-

preciation of his own home, and links him to the

The Highland Park Press is this week printing

thousands of folders to be circulated throughout the

United States advertising this unique toy. It is de-

signed especially for the older boys and girls, how-

CHRISTIAN SCIENCE CHURCHES

Church News "Mind" was the subject of the Les-First United Evangelical Church son-Sermon in all Churches of Christ, Green Bay Road at Laurel Avenue Scientist, on Sunday, August 23. Rev. F. Brandfellner, Pastor

The Golden Text was, "Great is our Lord, and of great power: his understanding is infinite" (Psalms 147:5).

Among the citations which comprised the Lesson-Sermon was the following from the Bible: "Surely there is a vein for the silver, and a place for gold where they find it. But where shall wisdom be found? and where is the place of understanding? It cannot be gotten for gold, neither shall silver be weighed for the price thereof. Whence then cometh wisdom? and where is the place of understanding? God understandeth the way thereof, and he knoweth the place thereof" (Job

28:1, 12, 15, 20, 23) The Lesson-Sermon also inincluded the following passages from the Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy: "God is Mind, and God is infinite hence all is Mind. On this statement rests the Science of being, and the Principle of this Science is divine, demonstrating harmony and immortality" (p. 492).

DRAFTED

FROM time to time there has I been talk of "drafting" some candidate. However, there have been only two instances in our political history when a man was given the nomination against his will and in both cases the drafted candidate was defeated in the election.

In 1868 one of the issues raised by the Democrats was a demand for the payment of the war debt in paper money. It was advocated by George H. Pendleton of Cincinnati and the appeal of the "Ohio Idea," was so great that he was the log-

ical candidate for President. But Horatio Seymour, the Civil war governor of New York, was opposed to both the "Ohio Idea" and the candidacy of its chief-supporter. As chairman of the con vention he was able to prevent Pendleton's nomination but he couldn't keep the inflation plank out of the platform.

After many ballots and some confusion it turned to Seymour and, although he shouted from the platform "Your candidate I can not be!", the delegates went right ahead and nominated him, giving him Gen. Francis P. Blair for a running mate.

Although Seymour polled 2,70%,-213 popular votes to 3,015,071 for Gen. U. S. Grant, the Republican nominee, and carried eight states, the electoral vote stood 214 for
