mobile manufacturers in their final assembly line tests.

To round out their service, Dahls are equipped also with a modern headlight tester, and body straightening equipment.

Throughout north shore gardens stately dahlias are being groomed for entrance in the second annual dahlia show sponsored by the American Gardeners' association, at Community House, Winnetka, Saturday and Sunday, September 19 and 20.

The first exhibit arranged by the association a year ago, brought together one of the finest displays of this popular flower ever witnessed in the Chicago area.

These shows are held in the large gymnasium at Community House, which permits a most unusual and attractive arrangement of these blossoms.

The association spared neither time nor expense in the matter of equipping the show room for the exhibit, and President Walter Lieback, head gardener on the H. Earl Hoover estate, 1801 Green Bay rd., Glencoe, announced this week that many new features are being provided for the coming show.

The Highland Park Post Office will receive bids this week, up to Saturday noon, for the hire of several light trucks, on an hourly basis for the delivery of parcel post, during the coming Christmas season.

Forms may be procured at the post office by anyone interested in bidding.

Final arrangements have been completed by the parishioners of St. Patrick's church, West Lake Forest, for their annual chicken dinner and bazaar, which will take place Sunday afternoon and eve-

ning, Sept. 13. Dinner will be served from 5 p.m. to 8 p.m.

Father Fielding wishes to extend a cordial invitation to everyone and assures them of a very pleasant evening.

During her stay she will attend a meeting of the Oak Park and River Forest Garden club of which she is a member and a meeting of the Gamma Pleasure club of which Mr. Mercurio is president.

Funeral services for Mrs. R. E. L. Holmes (Edna Hutchison) were held Monday at the First Christian church in Waukegan with Rev. C. W. Longman officiating. Interment was made in Oakwood cemetery.

Mrs. Holmes passed away, Wednesday, Sept. 2, in Clarksville, Mo. Mrs. Holmes is survived by her husband, Robert E. L. Holmes, one son, C. W. Holmes of Deerfield; one sister, Mrs. William Hellman of Waukegan; two brothers, William of Ozark, Mo., and S. P. Hutchison of Deerfield. The Holmes family had resided here for many years.

### Local Auto Repairman Adds New Equipment

With the announcement that the Dahl's Auto Reconstruction Co., 322 North First street, has installed the complete Bendix standard safety inspection equipment, Highland Park becomes another in the list of progressive cities who have joined with Vincent Bendix, head of the company which makes the equipment, in declaring "Safe cars made safe highways."

Accepted by many cities as standard municipal testing equipment, the Bendix set-up will give Dahl's the means for testing every passenger car and most trucks whose owners may desire the service. Obtainable in several sections, the entire Bendix testing device is a miracle of completeness. At the front end, the equipment tests wheel alignment, caster, camber, toe-in, and entire steering geometry precisely and quickly. Brakes on automobiles and trucks are electrically tested, each wheel separately, but simultaneously, to save time. The shop can also check brake drums and for grease on brake linings.

It is significant that Bendix manufactures the only equipment which can check brakes through a full wheel revolution. This furnishes a true test of the brakes as they will operate with the car moving, and not an approximation of what the brakes would do under certain conditions.

Dahl's new modern equipment enables them to give rapid satisfactory service to a large number of cars.

Perhaps even more important than the fact that the local repair shop is equipped to test cars and trucks safely and surely, is the fact that the new equipment enables Dahl's to furnish the most accurate repair work possible. The Bendix safety equipment is designed to test and correct various ailments of the modern automobile. One of the factors in the decision of the local automobile man to bring this ultra modern testing equipment to Highland Park was the fact that similar Bendix equipment is used by leading auto-

## "The Universal Car"

ONE NAME comes quickly to mind when you think of "The Universal Car." The description is distinctively Ford. No other car is used by so many millions of men and women in every part of the world. Everywhere it is the symbol of faithful service.

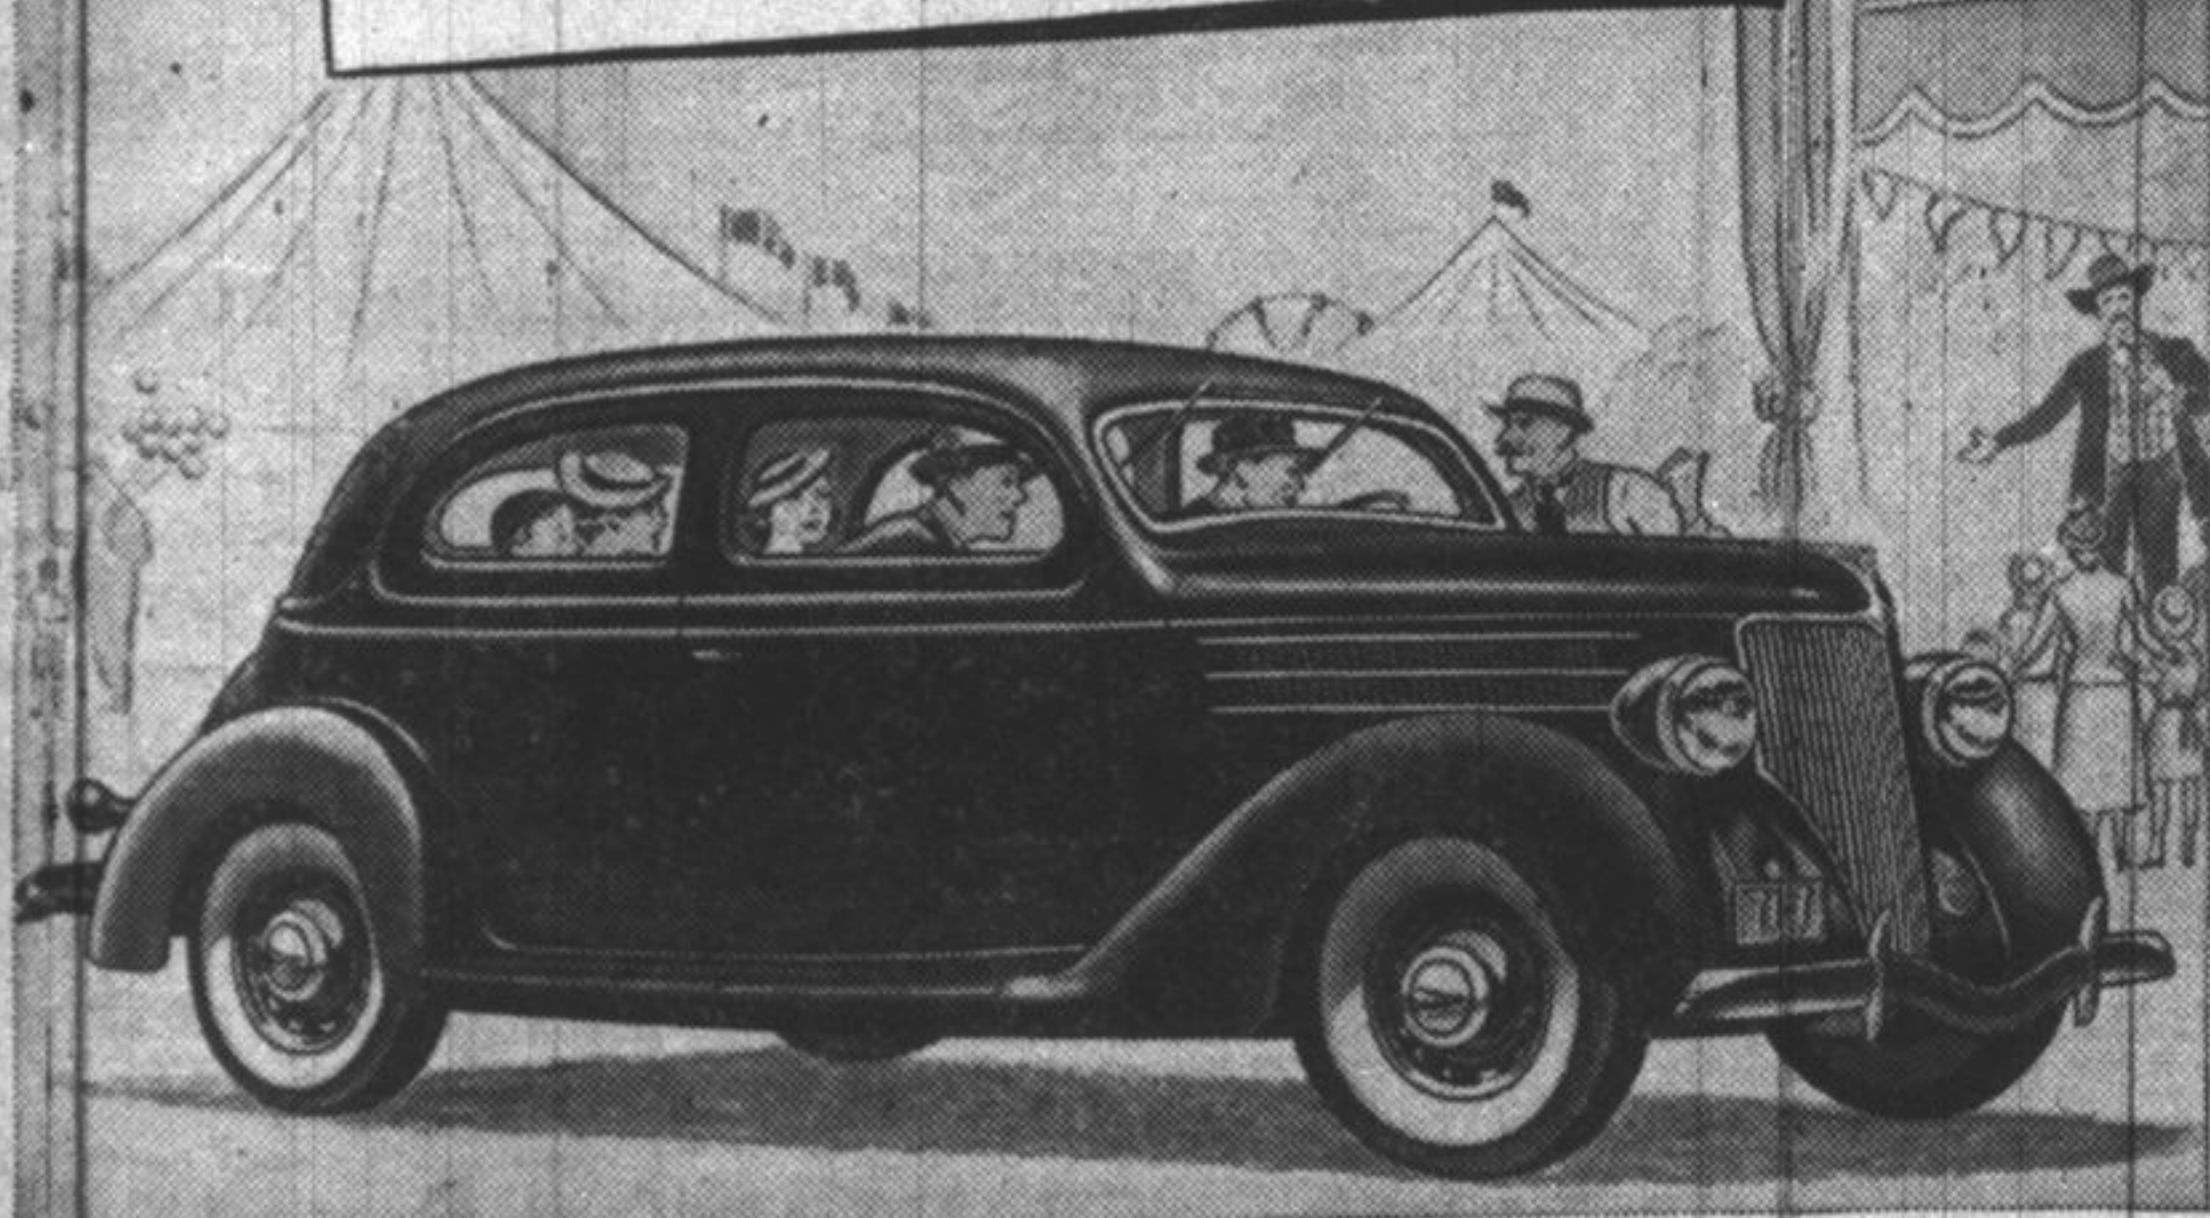

That has always been a Ford fundamental. Something new is constantly being added in the way of extra value. Each year the Ford has widened its appeal by increasing its usefulness to motorists.

Today's Ford V-8 is more than ever "The Universal Car" because it encircles the needs of more people than any other Ford ever built. It reaches out and up into new fields because it has everything you need in a modern automobile.

The Ford V-8 combines fine-car performance, comfort, safety and beauty with low first cost and low cost of operation and up-keep. It depreciates slowly because it is made to last. There is no other car like it.

### Only the Ford V-8 Gives You These Fine-car Features

1. V-8 ENGINE PERFORMANCE WITH ECONOMY
2. SAFETY GLASS ALL AROUND AT NO EXTRA CHARGE
3. SUPER-SAFETY MECHANICAL BRAKES
4. CENTER-POISE RIDING COMFORT
5. WELDED STEEL BODY AS WELL AS STEEL SURFACE
6. NEW INTERIOR APPOINTMENTS

## ANOTHER REDUCTION IN Long Distance RATES

The Illinois Bell Telephone Company announces another reduction in rates for telephone calls to most points where the station-to-station day rate is over \$1.10. This reduction applies to both station-to-station and person-to-person rates—day, night and all day Sunday. Also on person-to-person calls to most points, the station-to-station additional minute rate applies after six minutes of conversation.

This is the seventh reduction in the rates for Long Distance calls during the last ten years. It shortens the distance more than ever between friends and relatives in distant places... offers more frequent personal reunions with children at school... the family back home. It permits business men to make contacts in other cities speedily, efficiently... at a still greater economy.
