**NORTH SHORE GAS COMPANY**  
or these dealers

<b>Broiling</b> Gas gives you the intense heat needed to brown meats so fast that loss of juices is prevented. Flavor is saved.	<b>Roasting</b> Gas gives you the oven ventilation which produces crisp, juicy roasts. Excess moisture escapes, preventing that flat "steamed flavor."	<b>Baking</b> Baking requires even oven heat, and unlimited range of baking temperatures . . . for light, evenly browned cakes, pies, etc. Gas gives both!	<b>Frying</b> Perfect frying requires instant high heat . . . even spread of heat under the skillet . . . numberless heat variations. Gas gives all three!	<b>Boiling</b> Faster! Gas brings foods to a boil in 1/2 the time or less of other fuels. More flexible, it gives you the exact shades of heat you need.

**THE WHOLE NEIGHBORHOOD LOOKS BETTER SINCE WE PAVED WITH CONCRETE**

"I WISH we had put concrete on our streets long ago. Aside from being the best to drive on, it keeps itself clean, looks better, and has made our neighborhood more desirable. Property values are up."

That's not half the story. Your own experience tells you that concrete helps you to drive safely; that it effectively checks skidding; that its light-grey surface helps you see at night.

And concrete saves you money because it is moderate in first cost, low in upkeep and long lasting.

Be guided by your experience and observation. When your streets come up for paving—insist on concrete.

For complete pavement facts, write to  
**PORTLAND CEMENT ASSOCIATION**  
33 W. Grand Ave., Chicago, Ill.

**CONCRETE IS THE REAL LOW-COST PAVEMENT**  
A national organization of engineers and scientists, working in laboratory and field to improve and extend the uses of concrete.
