Mail Ballots for Literary Digest Presidential Poll

Individual ballots have been mailed to voters of Highland Park and nearby communities in a new Literary Digest poll of over 10,000,000 persons to ascertain who will be the next President of the United States.

Returns from Illinois in this 1936 referendum will be tallied as a unit so they may be compared with the voting in other states, it is announced.

The voting of the post-card ballots is secret as no signature or other identification is required and the return postage is paid by magazine. To guard against tampering and counterfeiting a specially manufactured cardboard is used for printing the ballot.

The ballot asks the voter's choice of the seven officially nominated candidates and for whom he or she voted in the 1932 election to reveal the general drift from one party to another.

This is announced as the fourth quadrennial national Presidential poll conducted by the Literary Digest. The three previous polls have forecast the Presidential winner with "uncanny accuracy."

Ballots are reported being mailed from the magazine's headquarters in New York at the rate of over 350,000 per day and will continue until every section of the country has been sent its proportionate share of the total being mailed.

Publication of the first tabulated returns will start this week.

The forthcoming balloting will be the twelfth national multi-million vote poll conducted by the Literary Digest besides several localized referendums which included the 1933 Mayoralty contest in New York City and the 1934 Gubernatorial election in California.

Seven of the twelve polls were held in advance of elections and each of the seven forecast the official outcome with a small margin of error, the magazine reports.

The Literary Digest states that just prior to the 1932 election it predicted Roosevelt would get 59.86 per cent of the popular vote in his campaign against Hoover. The official returns showed that the President received 59.14 per cent of the Roosevelt-Hoover vote, revealing an error of 0.72 per cent in the magazine's forecast.

A staff of more than 2,000 additional employees is reported to have been engaged by the Literary Digest for the mailing of the ballots and the tallying of the returns in the forthcoming Presidential poll.

New Secret Process Makes Ham Tender

Acclaimed as a most important development in meat for 100 years, is an utterly new type of ham. It is called Tender Made Ham and a new Secret Process makes this ham so tender, that just as you buy it from the market, you cut it with a fork.

But don't think of this ham as a pre-cooked ham or a boiled ham for slicing, for it is distinctly and deliciously different. It is a ham that serves all the purposes for which every special type of ham is used.

You can serve it as sliced ham with potato salad just as it comes from the market. But, when you want hot ham dishes you just heat it and eat it. A big thick center slice put in broiler or pan comes out in twelve minutes, done to a turn. When you want to serve a whole or half ham it can be prepared in one third the time it usually takes to bake an ordinary ham.

Costs to More Than Ordinary Ham. The most remarkable thing about this new ham is that in addition to its tenderness, marvelous flavor and many other points that commend it to the housewife, it is economical.

Wilson's Tender Made Ham Steak. Place Ham Steak in a well oiled shallow baking pan and top with a mixture made by combining 1/2 cup brown sugar, 1/2 teaspoon dry mustard, and 1/4 cup fruit juice.

Ham Salad. Mix together 2 cups Wilson Tender Made Ham, 1 cup celery (cut fine), 1/4 cup green pepper (cut fine), and 1/2 cup mayonnaise.

Stuff fresh tomatoes (shells) with this mixture and serve one stuffed tomato on a bed of crisp lettuce for each individual serving.
