**Strength from Within**

The greatest strength in any structure whether it is in a building, a government, a family or a community comes from within.

An architect would not be acting according to his best judgment if he designed a building that would remain in an upright position only by leaning against the building on either side. Instead he designs his structure so that it is a unified and integrated whole. Each part, each arch, joist, beam, and upright has a part in supporting all of the other members of the structure, and is in turn supported by them.

That family is happiest and in many cases most prosperous, that looks in upon itself, rather than to the outside, for the solution of its problems. When troubles pile up or life becomes dull the members of the self reliant family turn to each other and by intelligent co-operation solve the difficulty.

Thus it is with any enterprise or any phase of human activity involving two or more people headed toward a common goal. The combination whose members work together best and support each other are the group most loyal who forge ahead faster and with firmer footing.

Highland Park is a community—a group of people gathered together for the purpose of living and desiring to live comfortably, conveniently and pleasantly.

A large factor in making possible comfortable, convenient living in Highland Park is the service rendered by its local merchants. Without their work and constant effort this community would cease to be comfortable, convenient or pleasant.

This works both ways, without the support and patronage of the community, the merchants cannot exist.

Whole hearted support of local merchants, purchasing from them in every instance possible will mean constantly improving service, better and wider selections of merchandise here in Highland Park.

This support, however, must come from within.

**Proviso Defeats H. P. High School on Muddy Field**

Proviso's league-leading football warriors continued their mark toward the conference championship by defeating a stubborn Highland Park eleven on the latter's rain-soaked field last Saturday, 21-0. It was Proviso's fifth consecutive victory and Highland Park's third loss in four starts.

Proviso's star 200 pound full-back, Mizen, led their attack scoring all three of his team's touchdowns by short runs. All extra points were scored by line plunges. The field was so muddy and completely rainsoaked that players' faces and numbers became wholly unrecognizable. The tough going greatly handicapped the lighter Highland Park backfield, but they gave their heavier opponents so much opposition that the score remained 7-0 until the final minutes of play. Harris' unlucky punt of a slimy, heavy ball against a strong wind and blowing rain in the last few moments of the game put Mizen in position to score the final touchdown.

Highland Park threatened to score in the first quarter when they blocked Proviso's first punt on the Proviso 40 yard line and runs by Ullman and Baldauf netted 2 first downs. Again as the half opened, Ullman broke through the line at his own 30 yard marker and ran 45 yards to his opponents 25. On both occasions Floyd's boys were unable to push the ball further into Proviso territory.

A dozen seniors played their last home game for Highland Park. Wilder, Ullman, and Baldauf in the backfield and all of the linemen except Wolff are seniors.

Al Frost, Eugene Juhrend, Dave Wilder, and Eddie Wing starred for the Highland Park Frosh in their defensive struggle against the Proviso team Saturday. The game looked like a sure 0-0 tie when Miller, Proviso's driving full-back, threw a long pass to his right end, Tannehill, for 30 yards and a touchdown in the final seconds of the last quarter. This is the third straight game in which Coach Lauer's boys have been forced to accept a 6-0 defeat.
