Centrella Stores Win Award for Excellent Butter

Sweet Cream Butter The certificate of quality of the U. S. Department of Agriculture has been awarded to the "Pride of Dairy States," sweet cream butter which is distributed exclusively by the Centrella stores of Highland Park and North Shore. A dated certificate of quality is included in every package of the butter. The award gives the product a 93 score or higher. This is the highest rating that can be attained, it is explained. Not only is every carton of butter inspected, examined and graded by a federal inspector, but the dairy herds from which the cream is obtained are under official inspection, and the equipment, employees and processes in the cream-

ery are likewise rigidly guarded to insure the highest degree of sanitation. In the butter print room the air is filtered and washed and the temperature is automatically controlled by scientific apparatus. Butter made of pure sweet cream, say food authorities, is much preferable from the standpoint of both taste and food value, to the ordinary sour cream butter. Since it is not subjected to treatment by a neutralizer, it contains all the original vitamins and other food elements of sweet cream.

Centrella stores are exclusive distributors of this product in this area.
