In our delight over a fancy dessert, we are liable to forget that the merit of the dinner was based on the excellent meat and vegetables. Time marches on in Highland Park and in the rush of the parade we are prone to focus our attention on temporary spectacular events and overlook institutions which continue to render valuable community services, year in and year out.

For twenty-five years in Highland Park, the Young Women's Christian Association, with small acclaim, has gone forward supplying to an important group of our citizens a worthwhile service, the influence of which reaches into every block of the city. To the young women of Highland Park it has always extended a welcome, offering social, recreational and educational advantages under wholesome conditions—advantages which otherwise might have been denied them.

The credit for this quarter of a century of unselfed service must be given to the successful administrations of officers and directors—administrations composed of altruistic Highland Park women. Next week the association is celebrating its twenty-fifth anniversary. The Highland Park Press, which has also been serving Highland Park for more than a quarter of a century, extends congratulations to the Young Women's Christian Association and to those who have labored to make it a success. It also bespeaks for them the co-operation and gratitude, not only of the young women who enjoy the privileges offered, but of every citizen well done. The association is a credit to the city.

Astronomy Class to Start in March

Plans have been completed by Community Service, Inc., for an astronomy class for adults. This class will start early in March, the exact date to be announced later, and will be under the supervision of Mr. Bert Leech, science instructor at the Elm Place school. Mr. Leech has had many years of successful teaching experience in this field and is well qualified to teach astronomy. Further information may be had by calling the office of Community Service, Inc., Highland Park 858.

Several Tickets Are to Be Entered in Highwood Election

The political pot in Highwood is beginning to boil, with three tickets entered in the field already, for the City Election on April 20th. The last day for filing will be March 17 with the final day for withdrawal, March 20th.

Charles Portilia, who was a close runner-up in the last election will have a ticket in the field, while it is reported that Evan Dever, former Mayor of Highwood is also planning to enter a ticket, as will the present

Infant Welfare Will Meet Next Tuesday

Because of the Washington birthday holiday, next Monday, the regular business luncheon meeting of the Highland Park-Ravinia Infant Welfare society, scheduled for that day has been changed to Tuesday, Feb. 23 at 10:30 a.m. The meeting is to be at the home of Mrs. Bernard Newman, 122 N. Sheridan road.

Grocery Corn Party

On Wednesday evening, February 24th, the Royal Neighbor camp of Highland Park will hold a grocery corn party in Masonic temple. The public is invited to attend. Refreshments will be served.

Organize Class in Music Appreciation

A new and popular class offered at night school on Monday evenings is the music appreciation class. This class is being taught by Mr. Harold Finch, a graduate of the music school of Oberlin college, and who now is the music and band instructor of the Highland Park high school.

In this class the members will trace some of the important developments in music, both past and present. Composers, forms, and periods of music will be studied in order that the class may understand symphonic literature. Frequent use will be made of phonograph recordings to illustrate the points covered.

This class can enroll just a few more. Come next Monday at 7:30 if you wish to attend. This is an Adult Education Council opportunity.

Pottery Class Is Meeting Mondays

The pottery class at the Adult Education night school is again underway and meeting as usual on Monday evenings from 7:30 to 9:30. Many beautiful pieces of work were turned out by members of the class last semester and the group expects to do even better work this term. The glazing and firing of pottery is to be a part of the instruction given during the next several weeks. Further information may be had by calling Mrs. Schaufler at Highland Park 1109.

Meredith Elick will be initiated into Sigma Alpha Epsilon fraternity in the near future. He, and the other candidates, will go to Evanston for the formal initiation at the fraternity national headquarters. Later they will go to the Edgewater Beach hotel for a dinner and dance in honor of the initiates. This week is probation week for the candidates. Mr. Elick is a freshman at James Millikin university.

OYSTERS SO GOOD they passed a law about 'em

Legislature Shoots Works and Permits Sale of Oysters in R-less Months
 CHICAGO, Feb. 18—When a group of N. Y. legislators soberly pass a law permitting the sale of oysters in SUMMER as well as winter, your skeptical Inquiring Reporter is willing to break down and murmur: "That's news!"

Such is the strange story of what seems to be a new miracle in food... Birds Eye Quick-Freezing. A miracle that brings you oysters so fresh that the Atlantic Ocean water still glistens on them. Indeed so "fresher than fresh" that you are permitted to buy them in R-less months as well as months that include an R.

The truth is that this unbelievable machine makes Time stand still! And though you live a thousand miles from these rich oyster beds you can honestly say that you've never tasted an oyster so refreshingly fresh unless you've picked it out of the ocean yourself, and eaten it on the spot.

How come? Could you visit the Great South Bay of Long Island, New York, you'd see the secret of it all. You'd see how experts coaxed the oysters to the plumpst, gustiest point. You'd learn that it takes five years a-growing to bring out the lush-est, most succulent flavor of these Birds Eye Oysters. Five years of feeding. Five years of transplanting.

Indifferent oysters are in the water only three years when they're scooped up and casually plopped in front of you. That's why you find them so erratic, some fat, some lean, some full, some thin.

But these Birds Eye people are a patient lot. They calmly wait until their Birds Eye Oysters are virtually bursting with health. Then they gingerly dredge them, shuck them, wash them, and put them in the Quick-Freezing machine located right on the dock!

Whiz! At that instant the full flavor is suddenly SEALED IN by Arctic cold applied with the speed of light! The ocean-freshness is miraculously captured in mid air and held for you. Every wisp of that salt water tang is literally imprisoned! Imprisoned not just for days or weeks, but indefinitely if you please.

There are more than four dozen kinds of Birds Eye Foods—fruits, vegetables, seafoods, poultry, and meats. For the name of your nearest Birds Eye Dealer, see list below.
