Summertime Treats in Mid-Winter at Budget Prices

Intensive distribution of Birds Eye Frosted Foods in the North and South Side suburbs of Chicago now makes quick frozen sea food, vegetables, fruits and meats easily available to every housewife in these communities. E. C. Newton, Chicago sales manager of the Frosted Foods corporation announced today.

Fresh flavored ocean perch and the succulent sweetness of garden fresh lima beans and raspberries are just a few of the celebrated delicacies of summer at the sea shore and on a farm that housewives in Chicago suburbs can enjoy now in midwinter at budget prices by buying these quick frozen foods.

The secret of this amazing menu variety which ends seasonal and geographical limitations in menu planning is a special patented quick freezing process which applies arctic cold to these foods with the speed of light, right on the spot where they are produced to perfection and at the exact hour of their greatest deliciousness. Their flavor of freshness is sealed in; and time literally stands still until the housewife opens the Birds Eye cartons in her kitchen. In addition to introducing new delicacies to the every day family menu, quick frozen foods are a great time saver because they come prepared for cooking or serving; all waste has been eliminated.

When the housewife buys ordinary fresh vegetables and fish she is obliged to throw away from 25 to 80 per cent of what she has purchased after she has prepared them for cooking. The family can enjoy every bit of the quick frozen foods you buy because these delicacies were cleaned and prepared for cooking right on the spot where they were produced.

Sixty Birds Eye dealers in the North and South shore suburbs now feature a complete line of Birds Eye sea food, vegetables, fruits and meats. Mr. Newton announced. Forty additional dealers in this territory will receive a complete line of Birds Eye products within the next two months. Ask your grocer to supply you with your requirements of Birds Eye Frosted Foods for your table.
