

Endorse Farical Comedy as More Than Ordinary Hit

News reports from Chicago's Rialto continue to lay stress upon the sensational success of "You Can't Take It With You." This farical comedy by Moss Hart and George S. Kaufman was warmly welcomed by press and public when Sam H. Harris brought it into the Harris Theater early in February but now, in its second month, it has proven itself more than an ordinary hit. Even dailies of New York City, where another company has been dominating the Rialto since early December, take space to note that receipts in Chicago exceed those of the Broadway company, despite a more moderate scale here in the mid-west. The difference is due in part to slightly larger seating capacity at the Harris Theater, and an extra performance on Sunday night. The rush is such that alterations have been made in the Harris box-office to accommodate extra ticket racks, and seats are now on

sale for six weeks ahead. Mail orders are encouraged, especially from patrons outside the city, and they will be taken for any performance in the future, including holiday matinees through the summer and fall, to be filled in order of precedence as tickets are raked, always six weeks ahead.

The Chicago American has commented that "You Can't Take It With You" is chalking up a record for continuous side-splitting laughter. And aside from its qualities as a laugh-maker, the play has received praise from most unexpected sources for its genuine sincerity. The Very Rev. Chester B. Emerson, dean of Trinity Episcopal cathedral, Cleveland, visiting Chicago to conduct special services under auspices of the Church club, for final address took as his theme the title of this comedy and endorsed the play wholeheartedly for demonstrating the joyousness of life. It has been recommended directly by other high Episcopal clergy as ideal entertainment for their parishioners in Lent, and the result of all this is that the play has boomed right along with capa-

city audiences through a period when normally there might be a falling off.

By coincidence, just at the same time, Brooks Atkinson, critic of The New York Times has given additional endorsement, noting that the Messrs. Hart and Kaufman have shown the way to a new and welcome geniality in the theater. "Three months ago," says Mr. Atkinson, "the celebrated authors of 'Once in a Lifetime,' who perfected the vitriolic style, left 'the fancy way' and accepted the universe with 'You Can't Take It With You,' a merry prank that openly endorses tolerance."

All of which may help to explain why "You Can't Take It With You" bounds joyously along as the reigning success both of Chicago and New York, enjoyed by every element in its audiences.

Decide on Tax Raise at Meeting April 6

On Tuesday, April 6th, the annual meeting of Deerfield Township will be held in the town hall to decide if the property levy will be raised 13 cents per \$100 valuation for poor relief in order to receive state sales tax proceeds for relief.

Last April, Deerfield citizens felt that a levy of 17 cents per \$100 valuation of property would be sufficient to carry the relief load. The cessation of WPA projects, however, caused the township to seek state aid for the increased number of dependent families, according to Supervisor W. W. Steele.

It's farther between filling stations in the Ford "60"

THE 60-horsepower Ford V-8 engine was first developed for Europe, where fuel costs are high. Two years' usage there proved its unusual economy.

When the "60" came to this country this year, the Ford Motor Company made no mileage claims—waited for facts, written on American roads by American drivers.

Now Ford "60" owners are reporting averages of 22 to 27 miles on a gallon of gasoline. That makes it the most economical Ford car ever built!

Best of all, the Ford "60" is just as big and roomy—just as handsome, sturdy and safe—as the famous 85-horsepower Ford V-8. And it sells at the lowest Ford price in years.

If you want a big car for a small budget—a car you can drive with pride and profit—see the thrifty "60" soon!
