PAINT UP, CLEAN UP, FIX UP

With all nature putting on a new dress, grass and trees and flowers pushing, swelling, bursting with fresh beauty, with the promise of new and recurring life in the very air, nearly every housewife feels the irresistible urge to turn her domain inside out...

But why stop with merely a cleaning, no matter how good it may be? Aren't there a dozen things about the place that could stand fixing or renewing?

That north bedroom would seem far cheerier and sunnier papered in white, one of the designs, perhaps, that were introduced this spring expressly for brightening up rooms that don't receive their full share of sunlight.

The house, we'll wager, would be even more a credit to the street than it is now with a new coat of paint. Think of it gleaming through the long sunlit summer months in the glory of new paint!

Remember the garage door you wrenched nearly off its hinges when it stuck in the ice one winter morning? A carpenter can fix it for you in a jiffy, better than new, and a lot easier and more pleasant to open.

Let's make this Paint Up, Clean Up, and Fix Up time in Highland Park. We are all proud of our town—we admire it's beauty and charm. Let's be sure we are doing our part to make it as attractive as possible.

Better call up your favorite carpenter and painter and handy men tonight and make a date for putting the premises in tip-top condition. Drop in at your paint and furnishings shop tomorrow and look at the spring styles and samples.
