

**Y. W. C. A. SPONSORS CLUB FOR H. S. GIRLS**

To promote friendliness and interest in informal group activities, the Y.W.C.A. will sponsor a High School Girls' club to begin next fall. The leaders have already had one meeting with a chosen group of high school girls, and there will be a second meeting at the high school this Friday, May 14. At this time the girls, assisted by Mrs. Bradt and Miss Robe, from the Y.W.C.A., and Miss Buzard and Miss Griswold, from the high school, will make more specific plans for next year and will suggest girls for the executive board. The club will be under the supervision of the Y.W.C.A. The girls who were invited to the first meeting are Ruth Anderson, Honore Beere, Dorothy Bonson, Betty Carlson, Helen Cawley, Sue Coale, Georgioulou Fleager, Cyrella Golden, Betty Ann Johnson, June Meyers, Agnes Svendsen, Hazel Weaver, and Joan Wichman.

**Waukegan Hospital Joins Plan For Hospital Care**

St. Thomas' Hospital of Waukegan became a member of Plan for Hospital Care, it was announced today by Perry Addleman, executive director. There are fifty other member hospitals in Chicago and the surrounding area. Evanston and St. Francis hospitals are other north shore hospitals participating in the program.

The plan has been in operation since January 1 and now has nine thousand persons enrolled. The plan is not-for-profit program directed by a group of outstanding citizens.

It provides twenty-one days of hospital care to gainfully employed persons for \$9.60 a year. Subscribers receive semi-private accommodations, which means two to four beds in a room. In addition, they are given use of the operating room and auxiliary services; general nursing service; anesthesia; ordinary drugs, medications and dressings; pathological and laboratory services and X-ray examinations when considered necessary by the attending physician. The twenty-one days of hospital care may be used in one or several admissions.

Provision is made for dependants

also. For one dependent, the subscriber pays \$4.20, for which half the bill for twenty-one days is paid. For two or more dependents, \$8.40 a year is paid to cover half the bill.

"In a member hospital," Mr. Addleman explained, "all of the services outlined in the plan are guaranteed, regardless of their cost. These member hospitals are hospitals approved by the American Medical Association and the American College of Surgeons. More than two-thirds of the fifty-one hospitals have already given service to subscribers under the plan.

"A subscriber has free choice of any member hospital. Hospitals in the area surrounding Chicago are being admitted into the plan in order that residents of the suburban communities may go to the hospital closest their homes if they prefer it.

"Since Chicago is universally regarded as one of the world's great hospital and medical centers, we can say that the hospitals in the plan represent the finest institutions in the world. All the facilities of all of these hospitals are completely available to subscribers of plan for hospital care."

**PERSONAL TYPING OFFERED STUDENTS**

As penmanship is no longer stressed in the schools, there is a greater demand than ever for personal (non-professional) typing instruction. The commercial department, of the Highland Park high school, consequently, is offering a one-year course in personal typing for students who desire to learn to type for their own personal use.

From graduate schools down to the secondary schools, instructors in sheer self-defense have taken the stand that no papers other than in typewritten form are acceptable from their students. In some schools the statement is made that all work submitted in all of the departments must be typewritten. In other schools these baits are offered: "the instructor will be favorably predisposed toward typewritten work," "extra credit will be given for typewritten work," "neatness and appearance of the paper count largely toward the grade given."

The course in personal typing offered in our high school consists of instruction in the mechanism of

the machine, routine care, and technique of machine operation.

The instruction covers the entire keyboard, with particular attention and emphasis given the symbol keys. The course includes drill in placement material upon the page; punctuation according to modern usage; spelling, with emphasis upon the division of words; and modern styles of composition, particularly with reference to business forms.

A passing grade does not depend upon the pupil's ability to turn out a set quantity of perfect papers, or upon speed of operation, but upon a comprehension of the mechanism and the operation of the machine, and a fair ability to meet demands placed upon the vocational operator. He should be able to do efficiently and with a degree of speed, after a year of instruction, any work required of him except that of a precise vocational nature.

**ANNUAL PLAYDAY FOR INCOMING FROSH TO BE HELD MAY 25**

In order to acquaint the eighth grade graduates with the high school, the annual Playday sponsored by the Boys and Girls clubs, will be held on May 25. It was formerly scheduled for May 21.

The graduates from the following schools have been invited to attend: Elm Place, Ravinia, Ridge, Lincoln, Wilmot, St. James, Braeside, Deerfield, and Oak Terrace.

Outstanding skits from "Student Stunts" will constitute a part of the entertainment.

Girls wishing to act as hostesses should see that Virginia Severson has their names within the next few days.

**TEACHERS ATTEND INDUSTRIAL MEETING**

In order to hear talks on industrial arts problems and inspect some modern industrial equipment, the teachers of the industrial arts department of the Highland Park high school, will attend the Metropolitan Round Table on May 14 at Aurora, Illinois.

Many places of interest in and near Aurora will be visited by the teachers before the regular program starts. After the dinner in the high school cafeteria, there will be a program of four fifteen minute talks, headed by Mr. John Knell, president of the All Steel Equipment Co., on the subject of "What Industry Expects of the High School Graduate."

**\$10,000 SCHOLARSHIP IS AWARDED TO ROBERT JACKSON**

Because of his high scholarship standing, Robert Jackson, a senior in Mr. Mason's session, has been awarded the \$10,000 Deep Springs scholarship.

This entitles him to go to a Ranch school, owned by Cornell university, for three years and then to continue at Cornell university, Ithica, New York, for four years.

Robert, an honor student, has been very active on the Student Council executive board.

**Tri Deltas Hear Talk On Books For Summer Reading**

Delta Delta Delta alumnae of the north shore stored up suggestions for summer reading at their luncheon meeting Wednesday, May 12, at 12:30 at the home of Mrs. Joseph B. Garnett, 622 S. Linden ave.

Information on recent books and others about to be issued by publishers, with emphasis on volumes particularly adapted to summer reading, was given by Mrs. Mary Beilmohr, head of the book department at Chandler's.

The program also included a group of songs by Mrs. Charles Max App, contralto, with an accompaniment by Mrs. Frank Guthridge. New officers were elected during a short business session.

Mrs. Garnett had as her assisting hostesses, Mrs. Joseph M. Egloff, Mrs. George R. Roehm, Mrs. Frederick L. Copeland, Mrs. Wayne T. Bradford and Mrs. Kathryn Finnegan.

**A.A. Rawson Dies; Descendant Of Old American Family**

Adriel A. Rawson, a resident of Chicago and the state of Illinois for 79 years, passed away Saturday at his home at 925 S. St. Johns Ave., Highland Park. He was a direct descendant of one of America's oldest families, the first member, Sir Edward Rawson, landing in America in 1632 and settling in Massachusetts Bay colony, of which he later became secretary.

Mr. Rawson was born in East Douglas, Mass., on August 16, 1846. He moved to Chicago with his family in 1858, where he resided until October, 1918, when he moved to Highland Park with his daughter, Mrs. W. H. L. Bowden.

He was connected with J.F. Far-

well & Co. for 38 years, retiring in 1908.

Mr. Rawson is survived by his daughter, Mabelle Rawson Bowden, and a grand daughter, Marjorie Bowden Gaylard. He was grandfather of the late Rawson Earle Northway Bowden.

**POPPY DAY—ITS PURPOSE**

From the poppy sale each year the American Legion Auxiliary raises approximately \$1,000,000 for the relief and rehabilitation of disabled veterans, and for the care of fatherless children of veterans. This money forms the principal support of the vast rehabilitation and child welfare program carried out constantly by the Auxiliary in co-operation with the American Legion.

Women in almost every city and town in the United States take part in the memorial poppy program. The American Legion Auxiliary with its 425,000 members and 9,000 local units sponsors the work, aided by women and girls from other groups. Last year nearly 10,000,000 of these little flowers were distributed and this year the number is expected to increase to 12,000,000.

Benefits to the disabled veterans begin long in advance of this distribution. Many hundreds receive in making employment the millions of little crepe flowers. Manufacture is started early in the winter and continues through the spring. This year poppies were made for the Auxiliary in 65 veterans hospitals and poppy workrooms located in 40 different states.

One cent piece is the usual price paid the disabled men for making the flowers. This work is spread among the largest number of men possible, thus enabling them to help support their families or to save a little money towards the day when they will be able to leave the hospital to make a fresh start in life.

**Deerfield Scouts Have Parents Night**

The Scouts in Troop 52 of Deerfield entertained their parents last Monday evening at the Presbyterian church. A Court of Honor was held and the movies of Camp Ma-

Ka-Ja-Wan were shown and Scouts who were intending to go to camp this summer signed up on the Camp Scout Craft were also part of the program.

**MAN THROWS SUN FOR A LOOP!**

**Invention Turns Seasons Topsy-turvy as Raspberries Bloom in May**

Chicago, May 18.—It took a man near the North Pole to perform the miracle that "couldn't be done." He invented a machine that makes Time stand still. A machine that turns the seasons upside-down and makes it possible to bring you today—months

out of season—the FARM-FRESH-EST Raspberries ever picked off a bush! Farm-fresher, indeed, than the kind you buy even in the middle of July!

**The "Impossible" Story**

You see, raspberries are delicate things. They begin losing flavor within an hour or two after picking. Now, ordinary raspberries take a good 12 to 72 hours to reach the market. During that time some of the flavor has faded, the taste has begun to flatten, the berries to dry.

But the Birds Eye people have licked this problem with their marvelous machine. They pick the bush-ripened berries at their lushest, juiciest peak—at the time when Nature

has bestowed all the goodness it is possible to pack into a raspberry. Then—and only then—are the berries picked. They are quickly sorted, washed, packed . . . and instantly placed into the remarkable Quick-Freezing machine located right in the

Wham! At that moment a terrific blast of Arctic cold is suddenly shot out. A cold so intense and so speedily applied that the farm-freshness of the berries is literally SEALED IN! The full flavor is caught in mid-air, as it were, and magnificently held for you!

**Time Stands Still**

No matter how many days have been ripped from the calendar . . . no matter how long ago the season closed . . . you get these Birds Eye Raspberries today as farm-fresh and juicy as the minute they left the farm. The staggering fact is, that for these Birds Eye Raspberries, Time stands still!

The price, special this week—starting today—is only 17c a box. (Regularly 23c.) Box serves 4.

Your Birds Eye Foods dealer has these delicious farm-fresh raspberries as well as four dozen kinds of Birds Eye fruits, vegetables, poultry, seafoods, and meats.

His name is listed below.

**CRANE EQUIP YOUR HOME FOR Health and Comfort**

• Winter is over—let a Crane Heating System free you from next winter's heating worries.

Back of Crane Heating Systems are 80 years of manufacturing experience. This experience, plus careful, scientific engineering, accounts for the increased comfort—the fuel economies that a Crane Boiler will give you.

Boilers and convectors, radiators and valves—everything in the system works better—more efficiently when it's made by Crane. Ask your heating contractor to tell you what a Crane Heating System will mean for you next winter—and many winters to come.

**WHERE THE FUEL IS GAS**  
**HERE'S MAXIMUM EFFICIENCY**

The carefree convenience of a Basmor gas-fired boiler is a genuine contribution to human health—comfort and happiness. Automatically—with no thought or care on your part—this efficient unit will keep your home at a constant temperature no matter how cold it is outside. Efficiently designed to transform gas into healthful, comfortable heat in your home, the Basmor Boiler does its job efficiently—thoroughly—saves you money, too.

**SOUND ADVICE:**

*invest in America's finest motor car at this year's low prices*

THIS YEAR'S Packard Twelves and Packard Super Eights are beyond doubt the finest cars Packard has ever built—the finest motor cars America has ever seen.

They are selling now at the lowest prices such magnificent cars have ever sold for.

But . . . we think it obvious that, in view of rising labor and material costs throughout industry, this year's low prices cannot obtain for any certainty of time—particularly in the case of big, fine, luxury cars.

That is why we feel we should remind you that now is patently the most advantageous time to get in your order for your new Packard Twelve or Packard Super Eight. Purchasing at today's low prices should give you a very worth while bargain.

So we urge you to act now—and secure at present low prices the one car that offers you two lives . . . extraordinarily long mechanical life and long enduring style life.
