

SKY WRITING

with Betty Wagner and Ed Ferring
The terrific wind Sunday was the tail end of the storm which swept across the Western States a few days ago, so we were told by "Ham" Kunath who is earning quite a reputation as a weather prophet. We received the surprise of our life Sunday, when a grey-haired old man of sixty-six walked into the hangar office and informed us that he was none other than "Curly" Hartzell of Canton, Ohio, the world's oldest parachute jumper, being in the profession since 1909, when he made his first jump from a gas filled balloon. He has a unique act in which he wears four chutes, using every one way down. It is rumored that he will appear in the Air Show July 4, and 5. . . . Captain Art Davis of East Lansing, Mich., one of the headliners in the coming Air Show, dropped in at Sky Harbor last Friday. . . . The Navy is partially moved into their new quarters at Curtiss Airport, and we have been told that the rooms are very modern and good looking. So far they have been using two fledglings for student training. . . . Dorothy Ring, who recently got her transport license, was a visitor at Curtiss Airport last Saturday. . . . Under the capable instruction of "Ham" at Sky Harbor, Earl Genest soloed Thursday night, after three hours and twenty minutes of dual. One hour and fifty-five minutes of it being from last fall—very good work. As customary, Earl had to buy the dinners. . . . The Mystery Hunt which was to be held last Sunday from the local airport, was called off because of the high winds, but will probably be this coming Sunday. . . . One of the big aviation events of the summer, will be the Air Show at Sky Harbor—July 4, and 5, and from all indications, it will be bigger and better than last year. To us, that seems almost impossible.

Wayne King has a new two place open Stinson, which he is hanging at Curtiss Airport. The same type of plane that Amos and Andy learned to fly in. . . . John Lee has us guessing where he flies to every Sunday afternoon, wonder whose house he circles. . . . After many trying weeks, Pete Loesch is finally able to judge his landings—that's the way it is, it comes all of a sudden. . . . Ground school classes will be resumed shortly at Sky Harbor. Classes were held every Tuesday evening, and had to be discontinued when a light cable ruptured. . . . Heard over radio—An aviator may be able to fly like a bird, but can never sit on a barbwire fence.

Hasten! Ravinia Festival Patrons, to Secure Tickets

The local committee in charge of the sale of money-saving coupon books for the coming Ravinia festival, has issued an urgent appeal to all prospective and past patrons of this musical treat who have not already placed their orders for these "privilege" books.

Approached with the request for a statement concerning the progress of the drive, Mr. Robert S. Adler, chairman of the committee for Highland Park, had the following to say:

"The response to the drive for subscription patrons will undoubtedly exceed expectations, but unless immediate action is taken, many music lovers who have in past seasons enjoyed the advantages accruing to coupon book holders, will be sadly disappointed."

"In the main" continued Mr. Adler, "the response has been immediate, but many replies have indicated a desire for the books and a promise of action. Many of these good people are still to be heard from. Their activities are no doubt many and varied, and the delay in entering their applications is quite understandable, but the fact remains that they are running the risk of finding themselves missing from the throng of fortunate book holders who voiced their enthusiasm and dispatched their checks at an early date! Therefore, if any festival supporters from Highland Park and Ravinia are not yet in possession of their subscription coupon books, there remains time to subscribe, but the time is distinctly limited."

"It is the desire of the committee" he concluded, "that no one shall be disappointed. This prompts me to place special emphasis on the need for immediate action. Every possible facility for convenience in obtaining these coupon books has been placed at the disposal of patrons. They may be purchased at the Highland Park State bank or through any of the large number of workers for the committee. We sincerely hope that everyone will support this outstanding contribution to musical history and to Chicago's cultural life."

For the information of local residents, we might add that Mr. Adler is being ably supported in the committee by Mrs. W. J. Fyfe, Mrs. J. L. Martin, Mrs. Howard Detmer, Mrs. A. M. Rosenthal, Mrs. Edwin Tullis, Mrs. Howell Murray, Mr. Bruce Logie, Mrs. Henry Getz and Mrs. Irving Randall.

Y. W. C. A. Notes

Mothers Club of the Y.W.C.A. At a special meeting of the Mothers club of the Y.W.C.A. held on Tuesday evening it was voted to undertake the repairing of sweaters for Ft. Sheridan as a means of earning funds for the organization. The work involves knitting and will continue throughout the summer. Work and social meetings of the group undertaking this will be held weekly. Those interested in assisting in this project should call Mrs. William Howard at H. P. 2856.

The club also planned for a bus tour to Brookfield Zoo for next Thursday, June 24. The bus will leave the Y.W.C.A. promptly at 12:30, returning about 11. Plans for the evening, following the closing of the zoo, include a number of interesting features. Members should make reservations at the Y.W.C.A., accompanied by the transportation fee. As only thirty can be accommodated, reservations should be made as early as possible but not

later than Wednesday.

Poster Class High school pupils interested in art and advertising layout as well as publicity chairmen of organization or others who are interested in poster making are invited to meet with the poster class at the Y.W.C.A., 374 Laurel avenue, on Friday afternoons from 2 to 4. The class is conducted by Nicholas Frigo, Art Institute graduate and instructor in the adult education classes. There is no charge. Come this Friday at 2 o'clock. Lettering and color effects are now being discussed and practical work is done on posters used in Highland Park programs.

New Ham Becomes Summer Favorite

To an American packer goes the honor of producing a ham that offers the homemaker outstanding advantages never before obtainable in a ham. This ham is named Tender Made and well does it deserve that name. It provides the homemaker with a new taste delight that is dif-

ferent from any other ham in the world. With a secret process all the natural juices and flavor of this ham are retained, and it is so tender "you cut it with a fork."

This ham is ready to eat just as it comes from the market, or may be heated instead of cooked to prepare any home recipe, thus saving time and fuel. The fact that this Tender Made Ham does not require cooking means that practically all the ham that the thrifty homemaker buys is served on her table instead of 1/5 to 1/4 of it cooking away, which is the average loss when an ordinary ham is cooked.

There is an additional saving, too, due to the fact that the secret process makes the ham tender all the way through from end to end, so that the economical butts and shanks are truly more tender than ordinary ham. Thus, instead of being forced to utilize these ends by boiling them or grinding them, one can use them just like the more popular cuts. They are especially tasty when served as tender breakfast slices or used in sandwiches.

Tender Made is surely the ham of hams. For its rich natural full-bodied flavor is just the kind to tempt appetites which are apt to be fickle on the hot days. Just the ham for summer, too, because it is all ready to heat just as it is bought or can be served in many appetizing ways without time wasting, worry-some preparation. It requires no cooking, just heat for hot dishes. Homemakers who have a supply of Tender Made Ham on hand are ready for anything from a picnic, buffet supper, luncheon or heavy dinner, on short notice. This Tender Made Ham comes in the regular bone-in form or boneless, cooked and sealed in flavor-saving whole, half or quarter ham size tins. It is produced by the same secret process that has made the bone-in ham popular from coast to coast.

Recently, the same packer and provisioner, that developed Tender Made Ham, has put on the market another all American product which is arousing great interest among homemakers. It is the new Tender-ready Picnic, made delicious by

the same secret process which has brought Tender Made Ham into such great popularity. This Tender-ready Picnic comes in the bone-in or boneless in tins, just like Tender Made. Homemakers who buy these truly American products are benefiting, by helping make America more prosperous for Americans, while enjoying the finest ham in the whole world.
