

Church News

First Church of Christ, Scientist
 First Church of Christ, Scientist, Highland Park, Illinois, 381 Hazel avenue, is a branch of The Mother Church, The First Church of Christ, Scientist, in Boston, Mass.

The Sunday morning service is held at 11 o'clock, and the Wednesday evening meeting, which includes testimonies of Christian Science healing, is at 8 o'clock.

Sunday school is open to pupils up to the age of 20 years, and is held Sunday morning at 9:30.

Subject for next Sunday's Lesson sermon "Is the Universe Including Man, Evolved by Atomic Force?"

A free public reading room is maintained by this church at 43 N. Sheridan road, which is open daily from 9 o'clock in the morning to 6 in the evening, except on Saturday when it is open from 9 a.m. to 9 p.m.

On Sunday the reading room is open from 2:30 to 5:30. Here the Bible and all authorized Christian Science literature may be read, borrowed, or purchased.

All are cordially invited to attend the services and make use of the reading room.

CHRISTIAN SCIENCE CHURCHES

"God The Preserver of Man" was the subject of the Lesson-Sermon in all Churches of Christ, Scientist, on Sunday, June 13.

The Golden Text was, "In God is my salvation and my glory; the rock of my strength, and my refuge, is in God" (Psalms 62: 7).

Among the citations which comprised the Lesson-Sermon was the following from the Bible: "Preserve me, O God: for in thee do I put my trust. The Lord is the portion of mine inheritance and of my cup: thou maintainest my lot. The lines are fallen unto me in pleasant places; yea, I have a goodly heritage" (Psalms 16: 1, 5, 6).

The Lesson-Sermon also included the following passages from the Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy: "There is today danger of repeating the offense of the Jews by limiting the Holy One of Israel and asking: 'Can God furnish a table in the wilderness?' What cannot God do?" (p. 135).

 10:30 a.m. Morning service.
 3 p.m. Kinderheim festival at Addison.

Reports Due June 30 on Social Security

Next month will be the busiest month for employers since old-age benefits were prescribed for employees by the Social Security Act last January.

Calling attention to the fact that reports for the first six months of this year ending June 30 are due any day next month, H. L. McCarthy, regional director of the Social Security board, issued a statement in which he cautioned employers to obtain forms SS-2 and SS-2a from the Internal Revenue Bureau in order to comply with regulations recently announced by the bureau.

"Employers have shown a willingness to cooperate and many employees reaching the age of 65 have already benefited by the old-age benefits provisions of the act. Employ-

ers have since January submitted returns made from their entire payrolls. During the month of July, however, employers are expected to submit in addition to the monthly return two completed forms which are known as SS-2 and SS-2a. SS-2 is to be used for reporting a summary of information for the six months, while SS-2a is to be used to report information concerning the wages of all the individual employees," said Mr. McCarthy.

Mr. McCarthy pointed out that employers who have been filing Form SS-1, the monthly return, will be furnished with a supply of blank forms SS-2 and SS-2a. Failure to receive these forms, he emphasized, will not excuse an employer for neglecting to file the return on time.

It cannot be expected that distribution of these forms to all employers can be completed before July 1 because of the large number of employers to whom the forms must be furnished. An employer, therefore, who does not receive the forms by that date should request a supply from the office of the Internal Revenue Collector in his district.

When informed that many employers have not yet received their identification numbers, Mr. McCarthy said that these should make application on form SS-4. If these numbers are not obtained in time to fill out the summary information return the employers must enter on the return the date on which the application was filed as well as the name and address of the agency through which he made the application, Mr. McCarthy said.

On behalf of the employee who has not obtained his account number employers are required to fill out an application for the employee. If, on the other hand, the employee has filed his application but has not received his number yet, he too should be entered on the employer's return indicating the date on which he filed the application and the agency through which he did so.

months of this calendar year any day in July but not later, added Mr. McCarthy.

How you can have the Home you want

Convenient monthly payment plans and low interest rates now make home ownership easier for everyone

Real estate values showing gains

Three years ago a property owner offered to sell a dwelling on Home Avenue, near 325th Street, Berwyn, for \$10,000. There were no takers. A year ago, he sold the property for \$12,000. Thus have real estate values risen in many sections of the Chicago area.

Today it is much easier for everyone to own a home!

If you can make a moderate down payment, you can arrange to pay the balance in convenient monthly installments fitted to your income. By spreading your payments over a long period, you pay each month about what you now spend for rent. Or suppose you do pay somewhat more. Wouldn't it be worth the effort, since much of your payment on a home—unlike rent—is really money saved?

Suggestions to Home Buyers

Your real estate broker will tell you about the various ways you can finance your home purchase. Today's interest rates on loans are low—the most reasonable in many years. Choose a payment plan that fits your income. It is common practice to make the monthly payments include part of the principal, interest, taxes, and insurance. Your home becomes

yours—free of debt—when your loan has been paid.

When you choose your home, remember that you are making a very important purchase. Examine it carefully from all standpoints—type of community, nearness to schools and transportation, trend of values in the neighborhood. This is information that your real estate broker will be glad to give you in order to help you make a suitable selection.

Finally, insist that the title to your purchase be protected by a Title Guarantee Policy. It will protect you against loss from defects in the title to your property. Insurance companies and banks demand this safeguard when lending on real estate in the Chicago area.

Your real estate broker can help you find a desirable home or building site. Why don't you ask him to show you properties for sale in the community in which you would like to live?

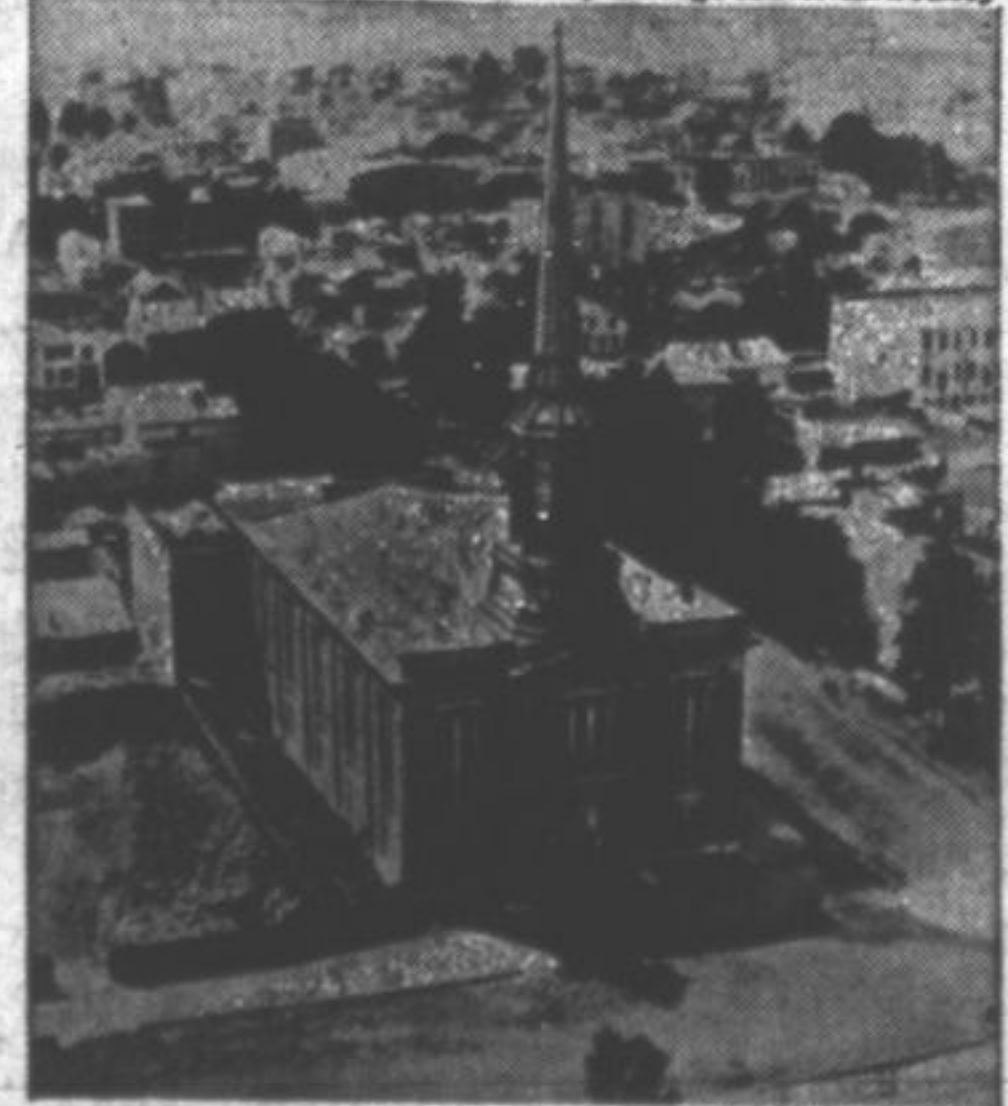

CHICAGO TITLE & TRUST COMPANY
 69 WEST WASHINGTON STREET - CHICAGO, ILLINOIS

Your real estate broker can help you

The most satisfactory way to buy real estate is through your real estate broker. He knows his section, the kind of people who live in it, the location of schools, churches, and shopping districts, the trend of prices—all the many factors that influence real estate values. He can help you make your selection wisely—help you obtain the most satisfactory method of financing your purchase.

Millions of records to protect land values

When La Salle and Washington Streets looked like this in 1878 data relating to Chicago property were already being collected in records that now form part of the archives of Chicago Title & Trust Company. Today these records comprise more than 46,000 volumes, contain the title history of each of the 1,100,000 parcels of land in Cook County. On them, Chicago Title & Trust Company bases its Title Guarantee Policies which protect the owners of real estate against loss from defects in their titles. Your attorney will explain this important protection to real estate buyers.

BEHIND YOUR BOTTLE OF BOWMAN MILK

(Third in Series)

From country receiving stations Bowman Milk moves swiftly to city bottling plants in clean, white motor trucks and milk trains. These Bowman trucks and cars are really "thermos bot-

tles on wheels." Glass-lined tanks and scientific insulation assure a constant, low temperature all the way. That is a big reason why Bowman's is the Grade "A" Milk of Superior Flavor.

THE BEST IS BOWMAN'S

"For rent" signs (outing down)
 When vacant dwellings become scarce, rents rise. As rents rise, property values increase. What is the situation in Chicago today? Dwellings are now 96% occupied compared with 75% in October, 1932. A further increase in occupancy would produce a definite housing shortage. Growing scarcity of vacant dwelling space has recently caused an average increase in rents of 10%.

Chicago's growth rate all-time record
 Probably no other city ever reached Chicago's rate in such a short time. A 1930 census compared with 1890's census, Chicago—the wonder city—already covers six times the ground area of the French capital. With increases in population have come increases in land values.

CHICAGO AREA REAL ESTATE, WELL BOUGHT, HAS PROVED ITSELF ONE OF THE SOUNDST FORMS OF INVESTMENT
