DON'T MAKE THE SAME MISTAKE TWICE
THIS TIME, USE...
CONCRETE

EVERY STREET—business or residential—that has developed bumps, ruts or chuckholes, cries for repaving with concrete.

Don't let the old mistakes be made again. Concrete is smooth, safe and clean—and stays that way through decades of hard service.

Concrete actually costs less than any other pavement of equal load-bearing capacity—and costs far less for upkeep. It saves motorists money by reducing car operating expense. Its non-skid surface is safe to drive on night or day, wet or dry. Its cleanliness and attractive appearance improve property values.

Urge your public officials to use concrete when they pave your streets.
