Delegates to Convention

The Lions' International will open its National convention in Chicago on July 20, 1937. Lions from all over the world will be assembled. Probably close to 50,000 members will attend.

Although the Lions' club is not the oldest service club in existence, it is now the largest, having the greatest number of clubs throughout the country and the greatest number of members.

S. D. Morris Speaks

The Highland Park Lions' club holds its weekly luncheon at Mrs. Green's Tea Pot, where on most occasions the club is addressed by important speakers. It is the purpose in connection with these lectures to

cover all important subjects of the day of local and national importance. The Program committee has announced that this week the club will be addressed by Sidney D. Morris, local building inspector, whose club subject will be "New Homes," particularly new homes in Highland Park.

Mr. Morris is a graduate engineer, having graduated from the Engineering department of the University of Illinois. Thereafter, he took a post-graduate course in the Engineering School of the University of Wisconsin, at Madison. After completing his post-graduate course, he taught topographical engineering at Wisconsin until 1917. He gave up his professorship to make surveys for the United States Government, he having made surveys for the Government over practically all of the United States.

Mr. Morris is also an ex-soldier, serving his country in the Army during the Spanish-American war. Comparatively few people know that we have such a well-qualified engineer acting as building inspector for the City of Highland Park. Every one who knows him is acquainted with his zeal, with no regard for favoritism, in requiring all the new homes constructed in Highland Park to comply strictly with the building ordinances. Mr. Morris has acted in this capacity since 1924.

His family has resided here in Highland Park since 1880, they having come here from Nova Scotia, where Sidney was born. He was only 2 years old when his family moved to Highland Park.

U. S. Marine Corps Seeking Men Here for Enlistment

Word has just been received from Lieutenant Colonel A. B. Miller, officer in charge of the Central Recruiting Division, Chicago, that the Chicago recruiting office of the Marine Corps expects to enlist 40 men each month for the next few months.

Applicants must be between the age of 18 and 30, at least five feet four inches in height, single, of good character, and be able to meet the high physical standards of the Marine Corps.

Colonel Miller explained that all young men now being enlisted are immediately transferred to the Marine Corps Base at San Diego, California, for a period of six to eight weeks training, and upon completion of this training, they are assigned to duty aboard the larger ships of the Navy or to shore stations in the United States, China, Cuba, Guam, the Panama Canal Zone, or the Philippine Islands.

In addition to the extended travel, the Marine Corps offers a splendid opportunity for young men to learn various trades through the 'Marine Corps Institute,' which has fifty-one courses to select from. These courses are free to all Marines.

Full particulars concerning enlistment including application forms may be obtained by writing to the U. S. Marine Corps recruiting station, 824 Post Office building, Van Buren and Canal streets, Chicago.

Two weeks' pay each year of the average American motorist goes to pay special automotive taxes, according to the Chicago Motor club.
