Hans Kindler Is Conductor of Third Week at Ravinia

Hans Kindler, conductor of the Washington (D.C.) Symphony Orchestra will direct the Chicago Symphony Orchestra in the four concerts of the third week of the Ravinia Festival, on July 15, 16, 17 and 18. Although Mr. Kindler, in the capacity of virtuoso — cellist has been heard many times in Chicago, his Ravinia appearances will mark his debut as a leader of orchestra in this city.

Hans Kindler was born in Rotterdam, Holland, on January 8, 1893. Both his parents were musicians and the talent of the little boy was taken for granted by his father and mother. He studied at home, then attended the conservatory of his native city, from where he was graduated with first prizes in both cello and piano. At twelve he had begun his concert career; at seventeen he was acclaimed as soloist with the Berlin Philharmonic Orchestra; at nineteen he was appointed professor at the Klindworth-Scharwenka Conservatory; at twenty-one, in the year 1914, he came to America, became first cellist of the Philadelphia Orchestra under Leopold Stokowski.

He stayed in Philadelphia seven years, then gave up his orchestral work in order to find time to fill all the demands made on him for solo appearances. Since then he has played all over the world, in the United States, Europe, and the Orient. He has given concerts in conjunction with such artists as Casuso, Rachmaninoff, Busoni, Ravel, etc. He has appeared as soloist with nearly every orchestra of note, under such conductors as Mengelberg, Stock, Bodanzky, Reiner, Pierné, Gabriłowitch, Stokowski, etc. His repertoire is an unusually broad rich one.

Dr. Kindler did his first conducting in 1920, as an assistant with the Philadelphia Orchestra. Later he directed festivals of modern music in Rome, Milan, Vienna, Prague, Paris, Brussels, and in 1927 he came to Washington to conduct the world's premier of Stravinsky's ballet "Apollon Musagete" in the Library of Congress Festival, by invitation of Mrs. F. S. Collidge.

Since November, 1931, Hans Kindler has been director of the new National Symphony Orchestra in Washington, D. C., which has had a short but thus far remarkably successful career. It was the National Symphony which was chosen to give the special inaugural concert preceding Roosevelt's inauguration this March.

On July 17th, Mischa Mischakoff, for the past seven years concertmeister of the Chicago Symphony Orchestra, will make his farewell solo appearance to Chicagoans before taking up his new duties as first violin of newly formed N.B.C. Orchestra, Toscanini conducting.

The Ravinia Festival has invited the popular little violinist to appear on the Saturday night program of the third week of the summer festival season of symphony concerts at Ravinia park. Hans Kindler, conductor of the National Symphony Orchestra will be the guest conductor of that week.

In 1930 Mischakoff made his Chicago solo debut playing the Tschai-kowsky Concerto for violin, and it is with the same concerto he will say his farewell. He will fly back on July 17th from his summer teaching at Chataqua, New York, to appear at Ravinia, and on August 8th, (Continued on Page 5)

Fine Weather Is Drawing Card for Legion Carnival

With four beautiful days of clear skies, Dumaresq Spencer post, No. 145 American Legion, closed their four day carnival Monday evening as one of the most successful affairs in recent years, given by this organization.

Each day hundreds of folks flocked to Sunset park to partake of the festivities, some coming for an hour or two while others lingered to picnic for the day.

Dancing was enjoyed each evening, music being furnished by Kettner's ten piece orchestra from Evanston.

Bank night was indulged in, and the winners were present and received their awards.

The main prize of the event went to a party from Northbrook, which quite often is the case.

On Sunday afternoon a patriotic program presided over by Commander Miller Shriner and Chaplain Henry Hansen was given. Judge Theodore Forby, of the Circuit court gave the address of the day, and Mayor William Dooley and Mr. Tom Wyles were also speakers. Judge Forby recently gained national prominence through his refusal to be intimidated and his courageous stand for law and order in connection with the recent North Shore radical labor agitation.

On Sunday afternoon a baseball game was held between the Deerfield and Highland Park Junior Legion teams. Highland Park won by a score of 10-7.

On July 5, the older boys of the Legion met the I. O. O. F. team from Chicago, losing by a score of 5-3.

The crowds were unusually large each day, the Bingo game seemingly being the main attraction. From all indications the carnival was a financial success, but the final check up has not been completed.

Meeting July 23 to Further Plans for Highwood Park

Friday, July 23, has been chosen as the date when the Highwood American Legion and committees from all organizations in the city of Highwood, will meet for the purpose of formulating plans for the securing of a municipal playground for the city of Highwood.

William Paine of the W.P.A. and Mrs. Milliken of the N.Y.A. will be present at this meeting and will no doubt lend their support to the proposition.

It is the purpose of this meeting to elect a chairman and working organization to further the plans. There are ten organizations in the city of Highwood.

Word of the approval by WPA authorities of the re-written sewer project is expected momentarily by Floyd Peterson, superintendent of the water department. Plans call for a sanitary sewer to be constructed along Western avenue from Euclid avenue to North avenue to join the main artery now in existence between North avenue and Prairie avenue.

The proposed uniform milk ordinance, which was adopted by Lake Forest Thursday night, has been indefinitely tabled by the Highwood city council. Possibility of action on the health measure is deemed unlikely for several months, according to city officials.

Alcyon Offers Fine Variety in Week's Program

Tonight and Friday night the Alcyon is presenting on the double feature program a new Philo Vance mystery story, "Night of Mystery," which is as exciting as all the other S. S. Van Dine screen attractions.

Nervy, fast-talking, wise-cracking, impudent and equal to every emergency, that's the characterization given by Lee Tracy to his latest screen creation "Behind the Headlines."

Laurel and Hardy go wild and woolly in "Way Out West," which is presented for laughs, and gets them to the tune of the music and songs that were so popular at the turn of the century. Showing at the Alcyon on Saturday only of this week.

"Wake Up and Live" carries the famed Winchell-Bernie feud to new heights of merriment, with your new correspondent and the old maestro engaged in a furious vendetta in the midst of one of the most eye-filling musicals of the year. To be presented at the Alcyon on Sunday, Monday and Tuesday coming.

H. P. Hospital Association Asks For Return Of Stocks

The Highland Park Hospital association is asking all stockholders of the corporation to turn in their stocks as the culmination of years of work to achieve the long hoped for "community enterprise."

It is only fitting at this time that this be consummated as it was on July 12, 1918 when our hospital was completed, dedicated and opened to the public.

The plan for a hospital here was originated in the year 1914, and in 1916 the campaign for funds necessary to build the hospital was begun. On May 5, 1916 the first incorporation papers were signed.

The Highland Park Hospital association was organized as a "not for profit" organization, and stock certificates were issued to those who donated funds for the erection of the building.

The hospital when completed in 1918 had a capacity of 20 beds, with necessary surgical room and offices to meet the needs of the community. Within a few years the size became inadequate for the needs and an addition was built, in 1924. The obstetrical department was increased and confined to the second floor of the building, so that it was completely isolated from the general cases. At the present time the hospital is equipped with 50 beds and 17 bassinets.

During the past nine months there has been an increased demand on our local institution, which has been filled to capacity, the greater part of the time.

The plan of the present Board of Managers of the association is to cause the assets of the hospital to be conveyed to the foundation. Sixty-two and one-half percent of the 5347 shares of outstanding stock have already been turned over to the Board of Managers for this purpose.

With the balance of the stock being turned over to the hospital, it is felt that the project may be carried out for the best interests of the hospital and of the City of Highland Park.

On February 11 of this year, the Highland Park Hospital foundation was incorporated under the laws of the State of Illinois as a corporation not for profit. Under this charter, forty-five members, known as trustees would be chosen, one third of whom would be elected each year for a term of three years. At the present time there are nine directors and five trustees represented on the board. It is felt that with the control of the hospital in the hands of a larger group which would more nearly represent the entire community and which would be actively and intimately interested in the management of the hospital, the community enterprise will have been realized.

The names of the members of the committee are: Paul Olson, H. W. Brelsford, and Ernest Belmont.

The regular Thursday weekly luncheon was given over to the golf tournament.

The Lions golf team is intended to be a permanent arrangement. From hints dropped by President Dr. Wurth, it appears that the Lions will soon be challenging the Rotary club to a tournament, and if the challenge is accepted, there will be a joint stag, and the club losing the tournament will "do the honors."

Sight Sea Serpent Off Ravine Drive

A group of young people while picnicking on the beach at Ravine drive, Tuesday evening, saw what they termed a sea serpent swimming in the waters a short distance from the beach. At first they thought it might just be a tree or some other obstacle floating in the water, but several times its head which looked to be about two feet long, and its tail would emerge from the water. It was thought that the aquatic animal was between twelve and fifteen feet long.

The young people followed it along the shore to Ravinia where they secured a boat to go out and look at it. The serpent then disappeared and no one has reported seeing it since.

Another group on the bluff also reported seeing the animal, although no one knows just what it was.

Old James Home Is Being Torn Down

Another home, which we might term a landmark, although only about forty years old, located at 325 Central ave., is being torn down.

This home which for a number of years has stood unoccupied, was built by Mrs. Georgiana James, after the death of her husband Col. James. The house was built in 1894. At the death of Mrs. James the property was inherited by her grandson. It is now owned by a Mr. King of Dayton, Ohio, who is having the house removed, so that his taxes may be lowered. At the present time there are no plans for the improving of the property. This section is zoned as a residential section, but because of the nearness to the business district, owners are reluctant to improve their property. Many are anxious to have it zoned for business.

It is only fitting at this time that this be consummated as it was on July 12, 1918 when our hospital was completed, dedicated and opened to the public.
