Packard Shows Big Increase During Year

In contradiction of the openion of many people that the fine car business is on the wane, Mr. W. R. Belard Motor Car Co. of Chicago, reports that an analysis of the Packard Super Eight and Twelve deliveries in Cook county during the nine months period from September 1936 to May of this year, shows an increase of 142 percent over the same period during the previous year.

He further states that the advent of the Packard Six and the great success of the Packard 120 have swelled total Packard deliveries for the same nine months period to the extent of 86 percent, while an ans alysis of the first five months of 1937 shows an increase in total Packard registrations in Cook county of 102 percent over the first five months of last year.
