**Paul A. Harsch, C.S.B. Lectures Tuesday To Christian Science**

Before a large and enthusiastic audience Tuesday evening at the Elm Place school auditorium, Mr. Paul A. Harsch, C.S.B., of Toledo, Ohio, delivered a lecture on Christian Science. Mr. Harsch is a member of the Board of Lectureship of The Mother Church, The First Church of Christ Scientist in Boston, Mass. A brief synopsis of the lecture is as follows:

Christian Science brings the comforting assurance to all men that there is a correct solution to every problem, whether the problem be one of human relationship, of sickness, sorrow, lack, temperamental weaknesses, or sin. Jesus proved this fact twenty centuries ago, but because his life and works are looked upon as miraculous or as a personal accomplishment, rather than as the result of Science, humanity in

general, and Christianity in particular, have been unable to repeat those works.

Christian Science is based on the Bible, but it does not require that the Bible be accepted simply because it is the Bible, for this blind belief in the Scriptures does not make them understandable nor practical. Christian Science shows that there is a Science of the Scriptures which not only makes plain the events and statements contained therein, but enables us to repeat the works of the prophets, apostles, and Jesus, and to prove for ourselves the great fact brought out in the Bible, namely, that God, good, is all and that evil and materiality are therefore powerless and non-existent.

Mrs. Eddy gives the reason for the loss of the Science of the Scriptures and the scientific religion which Jesus taught, in the following words: "There was never a religion or philosophy lost to the centuries except by sinking its divine Principle in personality" (The First Church of Christ, Scientist, and Mis-

cellany, p. 117), and, "The religious departure from divine Science sprang from the belief that the man Jesus, rather than his divine Principle, God, saves man, and that *materia medica* heals him" (*ibid.*, p. 348). In order, then, to solve in a scientific way the many problems which come into the experience of every individual, and to be happy, healthy, intelligent, unlimited, and free, we must understand God as divine Principle.

Isaiah, Zechariah, and Amos perceived and described God's exact, undeviating, absolute nature as Principle when they beheld Him expressed as a plummet or plumbline. Amos describes his concept of God as one with a plummet in His hand, standing on a wall made by a plumbline, and as saying, "Behold, I will set a plumbline in the midst of my people Israel." That which is plumb is exact, level, true, and a plumbline is used for the measurement of perpendicularity or uprightness. Could Mrs. Eddy have found a better name than Principle to express

this undeviating, exact, upright nature of God?

Much has been written within the last few years about the Discoverer and Founder of Christian Science, for the false impression seems to persist that the Christian Science movement was and is dependent on her personality. As long as the statements in her books can be and are proved to be true, the Christian Science movement will continue, and Mrs. Eddy's place as the Discoverer and Founder of Christian Science, as well as its Leader, will remain inviolate.

Should anyone care to know the salient events of her life which led her to this discovery and to the founding of this great movement, they will find her autobiography, "Retrospection and Introspection," most inspiring and instructive.

**CARD OF THANKS**
