Many New Features in Packard Cars

In the display of the Packard Motor Car Company at the Automobile Show, in addition to several body models of all the four Packard "lines," the Six, Eight, Super Eight and Twelve there is a novel Packard Six chassis. Besides the fact that all parts are operating and with motor, transmission and rear axle open to view the entire chassis revolves.

is much speculation as to what makes it go. Actually there is an electric motor concealed in one of the standard supporting the chassis and this furnishes the power to keep the chassis turning. A concealed wire carries electricity through a special-made connection into the chassis and to the car starting motor which furnishes power to keep the engine working.

Homecoming Oct. 30 at L. F. Academy

Each fall the alumni of Lake Forest Academy foregather on the campus of their prep Alma Mater for a "Homecoming" celebration. This year's affair—to which the parents of present Academy students have also been invited—include a luncheon, a football game with the Cranbrook School of Bloomfield Hills, Mich., and a tea and reception in Reid Hall following the game.
