Two to Four Years of COLLEGE

When a young man or woman aspires to the Medical profession, it is necessary that a solid groundwork of education be laid, on which to build scientific knowledge. After high school, two to four years of college preparation is required for entrance to Medical Schools. Entrance requirements are becoming more rigid each year.

During these pre-medical school years, the embryonic doctor majors in studies bearing directly on his medical training, such as Latin, chemistry, biology, physiology and physics.

She Doesn't Count The Cost

Nope! The housewife doesn't count the cost. If the cost of the soap, water, light and time were added up they would reach—we don't know how far. Anyway much farther than it costs to send the laundry to those wash day worry eliminators. The RELIABLE LAUNDERERS AND CLEANERS. Here your clothes are laundered under scientific germ killing conditions, so your clothes—flat work—blankets, etc are returned not only spotless, but absolutely sanitary.
