To the PEOPLE of DEERFIELD WE want to take this means of thanking you for your patronage and loyalty during 1937 and especially during the time that our store was picketed. However we do feel that our place of business should never have been picketed, as we have no labor troubles. We have no labor employed, nor have we any control, interest or jurisdiction over any milk drivers or dairy employees whatsoever. . . . Neither do we have any interest directly or indirectly with the Dairy Company from whom we purchase milk regarding the employment of any of its labor. MILK of QUALITY for LESS — WHY? WE are only interested in offering to our many customers a milk of quality according to the standards that we have been taught and practiced in our many years spent in the dairy business in the state of Wisconsin. It is an accepted fact that their stringent dairy and food supervision and laws have given their products an enviable reputation throughout the country. We are in the position to offer this quality milk at a very reasonable price for a number of good and legitimate business reasons, and without any sacrifice made by the farmer or producer. 1. The willingness of Brandt Dairy to pasteurize, bottle, and make delivery in large wholesale quantities to our stores with only a fraction of a cent per quart profit. 2. By also offering this milk for sale in gallon jugs, thus eliminating some bottle and handling expense. 3. We have no costly truck to operate to make house to house delivery, nor the salary of a delivery man. 4. We have no credit losses. When you buy a quart of our milk you pay for what you get only, and not for the bottle that someone else got and did not pay for. 5. We have no bottle losses, and bottles cost money. Each purchaser of our milk makes a deposit on each and every bottle he or she takes out, so that in event of their neglect to return same or should they accidentally break it, that person has paid us for that bottle so that we have the money to replace it and not burden an undue tax or cost on the person who does return his bottle. Any dairy company who bottles any large quantity of milk buys many carloads of new bottles annually. Who must pay for these bottles? RIGID TEST MADE Our milk is tested daily by the Suburban Laboratory of Cleora for quality and purity, and also is subject to North Shore inspection. BUILDING NEW PLANT The Brandt Dairy of Barrington, Lake County, Illinois, from whom we purchase our milk, is now in the process of building a new plant which will be ready for occupancy in February. It will be equipped with all the newest modern machinery known to the dairy business, which insures you the highest grade milk at all times. The public is invited to visit this new dairy which is located on Route 12, Barrington. AGAIN WE THANK YOU We wish to again thank you for your liberal support during the past months and wish you a HAPPY AND PROSPEROUS NEW YEAR. Wisconsin Dairy Mart J. R. TRACY, Prop.
