Annual Campaign Against Tuberculosis to Open in April
Miss Orpha White of the Lake County Tuberculosis Association, reports that county tuberculosis associations throughout the state are pausing in their Christmas Seal activities to formulate plans for this year's Early Diagnosis Campaign.
The 11th annual campaign for the early diagnosis of tuberculosis will open officially April first. Despite the fact that it is three months away, posters and pamphlets to be used are already being ordered by the Lake County Tuberculosis Association.
The slogan of this year's campaign is, "Tuberculosis Undiscovered Endangers You." By "you" is meant the individual, the family and the community. This nationwide campaign, while especially emphasized during April, is used in Illinois the year around. It is emphasized that early discovery of tuberculosis insures early recovery from the disease.
The Illinois Tuberculosis Association, in describing the campaign material, says: "If tuberculosis is undiscovered in an individual, he

or she is in danger. Chest X-rays will find it.
"If tuberculosis is undiscovered in the family, the growing children are in great danger. The tuberculin skin test, X-ray and family follow-up will help to remedy this condition.
"If tuberculosis is left undiscovered in the community, everybody is in danger. Systematic search for tuberculosis by examination of contacts, tuberculin testing and X-ray surveys of students and teachers, and programs to advise the community of the seriousness of the disease will lessen the danger."

Another Gold Digger
He had been trying all evening to summon the courage to tell her. It was a thing that really required a great deal of trepidity. She was his ideal. Slim, brown-eyed, beautiful golden hair. As he gazed at her he finally made up his mind.
"Darling," he said, "I love you. If I asked you to be my wife, what would be the outcome?"
"It depends," came the reply, "very much on the income."

The midweek service Wednesday 8 p.m.
