BOY SCOUT WEEK FEBRUARY 6-12th

A birthday which will involve more than a million boys and men throughout America is being celebrated this week. It is the 28th Anniversary of the founding of the Boy Scout Movement...

Plans for the week include a project through which Scouts themselves will express their thanks for the support and assistance given by men and women everywhere. This "thanks" will take the form of thousands of "living" demonstrations of safety and Scoutcraft...

Another high spot of Boy Scout Week celebration was the observance of Scout Sunday February 6th when Scouts attended church services in Scout uniform to give visual evidence of their practice of the twelfth Law, "A Scout is Reverent..."

Tuesday, February 8, as is traditional throughout the land, Scouts gathered to re-dedicate themselves to the Scout Promise and Scout Law which is the guiding principle of Scout living. The theme for the week, "Building a Stronger Generation" will be given meaning each day of Boy Scout Week...

Believe Marquette Was Here in 1795

Pioneers who came to this region found decaying remnants of a high wooden cross at a point near the south county line, in Highland Park. They replaced this with a new cross, established a cemetery near by, and built St. Mary's log church...

A map that was drawn in 1783 shows a river somewhere in the section now occupied by the town of Newport, at the mouth of which is placed the inscription, "Little Fort." An English map, which was published in 1795, shows practically the same outline, with "Old Fort River" as the name of the stream...

Early settlers told of a small earthwork, with decaying timbers that marked the rude inclosure that had been constructed for the protection of traders. This was located at a point on the bluff at Waukegan, about where Water street and Sheridan road intersect...

for furs, and it is thought that, even as late as the Revolutionary war, this was one of the best stations.

In the main part, the Indians who occupied this territory lived on fish and game, both of which were abundant, although there were Indian cornfields of considerable extent near the interior lakes and also on the island in Fox Lake...

Old records at the state capitol show that Luceus Lyons, as Commissioner on the part of the United States, and John Messenger, as Commissioner on the part of the state of Illinois, met at Galena, Ill., in October, 1831, with authority to mark the northern boundary of the state...

Card Party, Friday

Emanuel Shrine No. 50 of Lake Forest will hold a card party, Friday evening in the Lake Forest Masonic temple. Bridge and 500 will be played for which prizes will be awarded. Refreshments will be served. Members and friends are invited.

LOOKING BACKWARD

at progressive Highland Park through the files of The Press.

TWENTY YEARS AGO

February 7, 1918 Highland Park is adopting the co-operative delivery system with George F. Bock and Charles E. Geary two new members, who will start deliveries February 11...

TEN YEARS AGO

February 9, 1928 Richard John O'Brien a resident of Highland Park for many years, died Sunday at the J. B. Murphy hospital in Chicago following an operation for stomach ulcers...

Boy: And now, doctor, that I've told you I am going to marry Anne, there's one thing I want to get off my chest. Doctor: You just tell me about it, my boy. Boy: A tattooed heart with the name Mabel on it.

Gin and gas do not mix. Even if each is in a separate container, the two are bad company.

I have no sympathy nor mercy for a drunken auto driver. The laws governing this type of convicted criminal are too lenient. Judges should enforce what laws we do have to the limit...

But the question should not be when is a man drunk? A man who has had only one drink cannot have the same judgment or control that he would have without the liquor. I can see no plausible argument for his defense...

Again we are confronted with the hazard of slippery roads. For the next few months, the skidding will have to be kept in mind.

What precautions are you taking? Do you drive along at your usual rate of speed and trust to luck that you will not encounter anything that will call for a sudden stop? Many motorists do—and later regret it...

Who cares about the right-of-way if an accident depends on it? Why worry about the right-of-way at an intersection, crossroad, private driveway, or other road entrance when a few seconds' delay will eliminate the possibility of a smash-up?

To drive openly and defiantly headlong into an intersection simply because you have the right-of-way is not an act of courtesy nor is it safe driving.

Just ordinary good manners in driving an automobile will prevent as many accidents as reasonable care. The two go hand in hand and are inseparable.

Evanston Rental Situation Revealed in Sound Position

May first will find Evanston apartments in the soundest position from occupancy standpoint in many years, according to the renting committee of the Evanston-North Shore Real Estate Board...

At the present time, an occupancy percentage of approximately 99 per cent exists in Evanston apartment buildings, the highest in fifteen years. This means there is a decided shortage in all types of apartments, the saturation point having been reached in the smaller units...

list. Although it was agreed that there would be some increase in rentals this spring, the Real Estate board is taking no concerted action in this matter. House renting is also expected to show the effects of the general shortage of desirable living accommodations...
