D.A.R. Better Films Committee Review

"Navy Blue and Gold." Cast: Robert Young, Florence Rice, Billie Burke, Lionel Barrymore, James Stewart. Thursday, Friday, Saturday, March 17, 18, 19. A surprise production, ably directed with a genuine appeal to the nobler emotions. The cast is excellent with top honors going to James Stewart and Lionel Barrymore. Family.

"Hollywood Hotel." Cast: Dick Powell, Rosemary and Lola Lane, Ted Healy, Glenda Farrell. Sunday, Monday, Tuesday, March 20, 21 and 22. Gorgeous settings, beautiful costumes and perhaps an over-abundance of swing music and jazz bands make this musical extravaganza an entertaining one. The plot is slight—merely a series of episodes showing how a couple of small town young people make good in Hollywood. Family.

Feature No. 1 — "She Loved a Fireman." Cast: Dick Foran, Ann Sheridan, Robert Armstrong, Gordon Oliver. Wednesday, Thursday, March 23, 24. The story is one of the stock variety. The main value of the film consists in the description of the life of a fireman, showing the responsibility, discipline and high courage required in such calling. Towards the end there is a very thrilling scene of a burning building, climaxed by the heroic rescue of "Smoky" by his rival, Red. Of course the best man wins the girl. Adults.

Feature No. 2—"Big Town Girl." Cast: Elaine Trevor, Donald Woods, Alan Dinehart, Alan Baxter, Wednesday, Thursday, March 23, 24. A radio singer wears a mask and poses as a foreign countess in order to escape detection by her husband, an escaped convict. A skeptical reporter who tries to penetrate her disguise. A bank robbery and a severe storm lead to the story climax. Fair program picture. Adults.

FRESHMEN TO PLAN PROGRAM OF STUDY

This is the time of year when freshmen students are concerned with the planning of their four-year high school program of study.

To help the students plan courses of study in which they are most likely to be successful, the research department, under the direction of Dr. Richardson, administers an aptitude test to all students who expect to begin the study of foreign language. All students who expect to take plane geometry are given geometry aptitude tests.

The results of these tests are made available to the students and their advisers. Those who do well on the test can be expected to do well in the study of that course, while those who do poorly in the test as a rule find the subject difficult and uninteresting.

Since a foreign language and plane geometry are not required subject, unless the student plans to go to college, it becomes important for a student to know how well he is likely to succeed in these subjects if he elects them. If the success in these subjects is doubtful, he may, if he chooses, elect other subjects for which he has greater liking and aptitude. It should be understood, however, that a low test score does not prevent a student from taking these subjects.

The Standard Tudor Sedan

The Ford effort to make your dollars buy a constantly better car is well illustrated in the Standard Ford V-8.

ment that make it a still bigger bargain.

With the thrifty 60-horsepower engine, the Standard Ford V-8 is priced especially low and gives the greatest gas mileage in Ford history. Hundreds of owners report averages of 22 to 27 miles a gallon—or even more.

Your pocketbook will approve of the Standard Ford in every way. And so will you when you drive it!
