Little Chats About Your Health

Preventing Wrecks Better Than Caring for Wrecks.

Railroad executives pride themselves in the fact that travel is constantly being made safer more than in the fact that they are better than ever equipped to take care of wrecks.

Physicians are also better than ever equipped to correct serious ills but their great work lies in life extension—in preventing health "wrecks."

Your doctor can help you to live longer and happier if you will give him at least an opportunity each year to make a thorough physical examination.

Consult him oftener. It is a common sense plan which insures dividends out of all proportion to the time and expense involved.

LIFTING THE SHADOW OF DREAD

The discovery of Anti-Toxins, Serums and Vaccines is one of the accomplishments of Medical Science, of which all Doctors are proud, and for which they are profoundly thankful. These have helped to lift some of the dread, which parents endure during the infancy and early childhood of their youngsters.

It is almost criminal these days, for children to be left to the mercy of common but deadly diseases, such as diphtheria, smallpox and lock-jaw, with preventive serums easily available. Many deaths, grave illnesses and life-long after effects can be avoided by proper attention and timely immunization.

Consult your Doctor and protect your children against these drains on growth and development.

Offer of Reward

I hereby offer a reward of \$100 for information leading to the apprehension and conviction of the person fraudulently impersonating me in soliciting so-called "political campaign funds."

The purpose of this offer of reward is twofold: (1) to protect any person from making political contributions to a man who as late as this week represented himself on the telephone to be Congressman Church, thereby obtaining a check, and fraudulently endorsing and cashing same in my name; (2) to urge the co-operation of those approached in apprehending the guilty person with a view to prompt prosecution.

Repeated reports of such fraudulent solicitation drive me to this public offer of reward.

As late as Thursday, March 31st, a man telephoned a leading north side business man stating in effect: "I am Congressman Church, just off the plane from Washington. The Campaign Committee needs more money. I would like to send a man right over for a check. I want to go back to Washington tonight."

Note carefully that I have not been in Illinois since January 1, 1938. Vital legislative business has kept me in Washington. I have of course never authorized the use of my name by any so-called fund raising "campaign committee."

In my twenty years in public office I have always entirely paid my own campaign expense. I have never solicited campaign contributions and have returned every contribution which has been sent me.

Will those who have contributed to this person who is falsely impersonating me write me direct or co-operate with my law partner, Dean Lake Traxler, 10 South LaSalle Street, Chicago, furnishing him with the details?

RALPH E. CHURCH, M.C.

REPUBLICAN CANDIDATE

COUNTY CLERK
PRIMARY APRIL 12, 1938

WILLIAM J. STRATTON, when Secretary of State, inaugurated the policy of earning and paying into the State Treasury, interest on the receipts of his office. His good judgment and painstaking care in selecting depositaries for state funds is shown by the fact that during the state's most critical financial period, when 600 banks within the state closed their doors, Mr. Stratton accounted for and paid into the State Treasury every penny of principal and interest which passed through his hands as Secretary of State, amounting to over \$80,000,000.
