

Synopsis of Lecture on Christian Science Given Here Thursday

Last Thursday evening, Mr. William Duncan Kilpatrick, C. S. D. of Detroit, Mich., gave a lecture on Christian Science, before a large and interested audience at the Elm Place school auditorium. Mr. Kilpatrick is a member of the Board of Lectureship of The Mother Church—The First Church of Christ, Scientist, in Boston, Massachusetts. A brief resume of his talk is as follows:

With the understanding that material existence is merely a state of the human consciousness, and that our material world is the externalized expression of carnal thoughts which come from a so-called carnal mind claiming existence independently of that consciousness, we may begin to understand how the process of individual salvation is to be accomplished.

Through the carnal in our consciousness we endow our material universe with those laws and conditions which make for the unhappiness, the misery, and the tragedies of human living. Through the carnal in human consciousness we endow our brother man with the hate, the jealousy, and the dishonesty with which he confronts us.

The sickness, the poverty, and the inharmonies of the human body are inflicted thereon by the carnal which obtains in the consciousness of the possessor of the body. The injurious and harmful elements of nature are not inherent therein but become a part thereof through the carnal mind in human consciousness. The goldenrod and other beautiful expressions of nature embody no natural elements of danger and discord. They become annoying and pestilential only through the carnal held in human consciousness. The ferocity and carnivorous natures of the beasts of the jungle are simply the manifestation of the carnal claiming existence in the human consciousness. The poison and venom hidden in the fangs of the reptile are imposed therein by the carnal in our human consciousness. The carnal mind in human consciousness not only creates our material world but it likewise endows that world with those material and harmful qualities which render material existence a most precarious and perilous experiment.

Through the influx of the divine into the human mind these carnal thoughts which are externalized in our concept of materiality as sickness, poverty, hate, poison, bestiality, danger, and the like are gradually displaced. The carnal thoughts entertained in the human consciousness are thrust out by the divine, so that the process of salvation involves the necessity of human perfection of the material state before complete spiritualization of existence can follow. Thus, in accomplishing the process of complete spiritualization, each individual must have overcome and eliminated from experience the minor or secondary conditions of material existence, such as sickness, poverty, sorrow, inharmonies, and the like, before he can proceed to the larger problem of spiritually or mentally overcoming and eliminating matter entirely. In following, then, the divine order of complete salvation, instead of being possessed of a human mind through which is manifested a sick, poverty-stricken, material body, we shall find ourselves, as thought becomes more spiritual, possessed of a consciousness through which is manifested a material body and a material universe, from which have been eliminated all elements of sin, sickness, hate, jealousy, poverty, inharmonies, danger, discord, and the like.

What a boon to be permitted to enjoy the gifts of nature in all their pristine simplicity, without the carnal accompaniments of danger, harm, and destruction for which our own wrong thinking has ever been responsible! How beautiful the smile of the goldenrod without those elements of distress which annually plague the victims of hay fever! What happiness and contentment in the world wherein the creatures of forest and field are free from the carnivorousness and bestiality of human imposing! Surely, "the wolf also shall dwell with the

lamb, and the leopard shall lie down with the kid; and the calf and the young lion and the fatling together; and a little child shall lead them." What happiness, joy, and comfort shall be found in the company of those in whom we find no guile, no sin, and no hate, because we see as Jesus saw.

Many Social Security Lump Sum Payments Remain Unclaimed

Many persons who are entitled to lump-sum benefit payments under the Social Security Act have failed to claim this money, it was reported today by Albert S. Lewis, manager of the Waukegan district office of the Old-Age Insurance Bureau serving Lake and McHenry counties.

With its machinery now geared to approve an old-age insurance lump-sum payment every 30 seconds of each working day, the Social Security board has approved 134,297 claims, totaling \$4,249,468

since January 1937.

During April 1938, according to a report submitted today to the board by John J. Corson, acting director of the Bureau of Old-Age Insurance, claim approvals amounted to 750 each working day. The total number of claims approved during the month was 19,370, amounting to \$824,234. Illinois stands No. 4 with 1244 claims certified in April 1938, for a total of \$59,500.74. Waukegan office accounted for 27 claims during the same period of \$1,077.57. Largest claim in this district was \$186.50.

Mr. Lewis pointed out that wage-earners who attain the age of 65 and the families or estates of those who die before attaining that age are entitled to a payment based on the amount of wages earned in covered employment since December 31, 1936. Such benefits can be paid only when written application is made on the prescribed forms, which may be obtained from the Waukegan office located in the Post Office building.

To Increase County Voting Precincts To Ninety-Five

In a preliminary report to the board of supervisors early this week the elections committee composed of Supervisors Frank Davis, Frank Burke, James O'Connor and Arthur Swanson indicated that the county's 78 voting precincts will be reapportioned to make 95 polling places.

A public hearing is scheduled by the committee, with the approval of the board, for 10 a. m., Friday, May 27, to decide on the boundary lines.

The preliminary report of the committee proposes the division of the 25 existing voting districts in Waukegan township into 31 precincts, the 12 in Deerfield (Highland Park) to 16, the eight in Shields (including a section of North Chicago, Lake Bluff and Lake Forest) into 10, the two precincts each in Avon and Grant into three, and the splitting of the single precincts in

Wauconda, Cuba and Ela into two each. The existing districts in the other 10 townships are to remain undisturbed.

After the committee hearing on May 27, final plans for the precinct readjustment will be drawn and then submitted to the June meeting of the board for approval.

The board was directed, in a writ of mandamus issued by the circuit court, to readjust voting districts designated now as Grant 1, Avon 1, Waukegan 2, 4, 5, 6, 8, 9, 11, 12, 13, 14, 20, 22 and 24; Shields 2 and 4; Cuba, Ela, and Deerfield 2, 6, 10, and 11 so that no precinct shall contain more than 800 votes.

This action must be performed at the June meeting of the board or the adjourned June meeting in July.

D.A.R. Board Will Discuss Plans for Next Year's Program

Mrs. Warren E. Danley, 260 Linden Park place, has called a meet-

ing of the board of directors of the North Shore Chapter Daughters of the American Revolution for Thursday morning, June 9, at 9:30 o'clock. Plans and programs for the new year's work will be discussed and acted upon.
