**FATHER'S DAY, SUNDAY, JUNE 19**

Next Sunday will be celebrated throughout the United States as "Father's Day."  
 Any way shouldn't father be recognized with a special day the same as mother is on "Mother's Day"?  
 Who is it pays the bills, brings home the bacon, keeps the home fires burning, listens to the tale of woe of each member of the family and has to do the major part of the punishing when Johnny is bad, but dad.  
 Of course mother bears her share of the burden, but dad has his problems as well.  
 Let's pay homage to our father's next Sunday by remembering him with a card or letter or some little token of our love for him. Even though he may have to foot the bill, he'll still appreciate it, for after all it's dad who pays and pays.

**HIT AND RUN PEDESTRIAN**

The "Hit and Run Driver" has been termed "a menace to humanity" and we should like to include under this term, the "Hit and Run Pedestrian" who recently knocked down an aged resident of Highland Park, then disappeared.  
 A week ago Saturday, one of Highland Park's pioneer residents was shopping in a local chain store, when a man bumped into the aged lady, and knocked her down. He stopped to pick her up, and without a word of apology would have left her to fall again, had she not urged him to hold her, as she could not stand alone. As soon as a chair had been secured for the injured woman, and without questioning how she felt, the culprit disappeared into the crowd, leaving her to the mercy of customers, or the management of the store. The victim is now in the Highland Park hospital suffering from a broken hip, received in that fall.  
 If this man is a citizen of Highland Park, where is his pride, conscience or common decency.  
 Is he so self centered and hardened that he shirks responsibility in the affair, or is he too busy to be bothered with such trifling matters? Has he no sympathy for this elderly woman who will be compelled to lie flat on her back for weeks?  
 Many persons today lack responsibility. Thoughtlessness is prevalent and the motto "do unto others as you would have others do unto you" is a thing of the past.  
 Regardless of age, we must bear our responsibility. Whether we drive a car, a bicycle or are on foot, we must be careful, considerate and conscientious. Without these qualities we are a menace to humanity.

**Board of Supervisors Applies For W.P.A. Grant For Hospital**

Bonds to be issued by the board of supervisors for the construction of Lake County tuberculosis sanitarium will be "nothing more than tax anticipation warrants" if a PWA grant of \$180,000 is obtained from the federal government, the board was informed by Assistant State Attorney Okel S. Fuqua.  
 The board authorized Chairman Daniel Hentges to file an application for the PWA grant of approximately 45 per cent of the estimate of the cost of the hospital building and nurses home on the property at Belvidere street near the Waukegan city limits.  
 Chairman Hentges will have to wait until the state legislature, now in special session, passes the act enabling the county board to issue bonds on the anticipated tax revenue over the next ten years.  
**Expect Quick Passage**  
 Information coming from Springfield today indicated that the house would pass the enabling act and would send the bill to the senate. Little opposition, if any, is expected in the senate. Gov. Henry Horner, who conferred with Fuqua and Hentges, said he would sign the bill in its present form when it is passed by both houses of the general assembly.  
 Based on the hope that the enabling act would be passed by the special session of the legislature, Supervisor Harold E. Pillifant introduced the resolution before the supervisors to have Chairman Hentges make application for the PWA grant.  
 Architects for the sanitarium buildings and equipment have placed the total cost at \$375,000. The hospital building is to have 92 beds with a possible capacity of 100 beds. There is to be a laboratory, operating room, reception room and other quarters necessary for the hospitalization of tuberculosis patients.  
 Dr. Charles Petter, director of tubercular work in the county, has found 144 active cases. At least 92 of these are said to be hospital cases.  
 At the present time only about 22 to 26 patients can be housed in the tuberculosis ward at the Lake County hospital.  
 If a PWA grant is obtained, in addition to the passage of the enabling act permitting the county to issue bonds, construction will be started before the end of the year.  
 Bonds, issued as a general obligation of the county, would be retired from the revenue obtained yearly from the 15-cent tax levy voted for the purpose of fighting the disease. One provision of the legislature enabling act approved by the governor holds that in no single year shall there be more money used for the retirement of bonds than is used for the maintenance of the sanitarium.
