Get Social Security Account Numbers Before Starting Work

Persons who obtain temporary employment in Highland Park and vicinity summer resorts should obtain social security account numbers before or at the time of starting work. This statement was made today by Mr. Albert S. Lewis, manager of the old age insurance bureau field office in Waukegan.

"Many students, also persons who have been employed on farms will obtain jobs in summer resorts of this state," Mr. Lewis said.

"Those who have not previously obtained social security numbers should do so before seeking employment in the resort field. Many operators of resorts now demand that new employees show social security account numbers at the time workers are hired.

"Every worker in resorts of this character should have an account number so that it can be reported when the employer makes his report of contributions to the U. S. Collector of Internal Revenue at the close of each quarter.

United States Treasury checks which are now payable to many residents of Lake and McHenry counties are unclaimed according to Mr. Lewis. Such lump sum benefits are payable to workers who attain age 65 after having been employed in occupations covered by social security. They also may be claimed by relatives of workers who have died after having had similar employment.

Account numbers are issued over the counter or by mail and assistance rendered to claimants or other interested persons on any phase of the social security act at the field office of the Social Security Board located in the Post Office building, Waukegan, Illinois, telephone Ontario 6595.

SAFETYGRAMS

It's peculiar to note that automobile racing experts who compete at Indianapolis and other speedways year after year are very slow and careful drivers.

Statements from these men and evidence of their driving habits prove they are careful. They know the results of excessive speed. They know what will happen when the car gets out of control. They must have good judgment on turns. They exercise common sense.

Safety is about 99 per cent common sense—accidents are 99 per cent thoughtless hurry.

It's better to say, "Give him the right of way," than "Get Him right away."

It's smart to be careful.
