**PARTNERS IN SAFETY!**

**SELECT AND BUY Firestone GUM-DIPPED TIRES**

You may never drive your car at the record-breaking speeds made by America's famous race drivers — but isn't it a comforting thought to know that Firestone Gum-Dipped Tires have proved their SAFETY at speeds much higher than you will ever drive? In planning your Fourth of July trip or your summer vacation tour, guard your life and the lives of your family with the only tires made that are Triple-Safe.

By Triple-Safe we mean —

First: Every fiber in every cord of every ply is saturated and coated with liquid rubber by the Firestone patented process of Gum-Dipping which counteracts tire-destroying internal friction and heat. That means protection against blowouts.

Second: They have two extra layers of Gum-Dipped cords under the tread. That means protection against punctures.

Third: They have a scientifically designed tread that stops your car up to 25% quicker. That means protection against skidding.

Only Firestone gives you these patented and exclusive SAFETY features. Join the Firestone Save-A-Life Campaign today by equipping your car with a set of new Firestone Tires — the only tires made that are safety-protected on the speedways for your protection on the highways.
