Move To Avert Repetition of Lake Tragedy

cap of distance, combined as it almost invariably is with rough seas and heavy weather, make such long-range help tragically inadequate, despite the most heroic efforts of the Coast Guard personnel.

Highland Park desperately needs and deserves a United States Coast Guard Station. The establishment of such a station would automatically carry with it the construction of some degree of sea protection in the form of breakwaters, to facilitate boat handling and mooring. It is hoped that when all the facts are properly and earnestly presented to federal authorities, backed by the most recent evidence of loss of life and property, adequate action can be stimulated.

The committee designated to raise monies for Highland Park's life saving equipment suggests that contributions in any sum, be made in the form of checks or cash in the name of the Highland Park Lake Front Safety Fund, and sent or handed to Mr. Leo J. Sheridan, 1601 Dean avenue, Highland Park, or in care of the First National Bank of Highland Park, Administration and accounting for the expenditure of the fund will be in charge of the general committee named above.
