

Dr. John M. Tutt Presents Lecture on Christian Science

Dr. John M. Tutt, C.S.B., of Kansas City, Mo., delivered a lecture on Christian Science under the auspices of First Church of Christ, Scientist, of Highland Park, Sunday afternoon, at the Elm Place School Auditorium.

The subject of his lecture which was delivered before a packed house was "Christian Science: Newness of Life." Following is a brief synopsis of his talk:

"When Nicodemus came to Jesus, acknowledging his spiritual origin and his demonstration of divine power to heal and save, acknowledging that Jesus was manifesting the Christ and that God was surely with him, the Master answered: 'Except a man be born again, he cannot see the kingdom of God.' And he made it plain that this new birth was no reincarnation. He said: 'That which is born of the flesh is flesh; and that which is born of the Spirit is spirit.' It was, then, a spiritual conception which was to make a new creature, a new heaven, and a new earth, in which old things should pass away, all things become new. My friend, heaven, the realm of spiritual harmony, is a present possibility. Christian Science has brought the good news that God's kingdom can come on earth, that God can be seen to dwell with men; and in-

never faded out through all the vicissitudes and vicinities of thirty-three years, through all the prayer and effort to realize the heavenly intuition, to make it real in my daily experience.

When Nicodemus came to Jesus, acknowledging his spiritual origin and his demonstration of divine power to heal and save, acknowledging that Jesus was manifesting the Christ and that God was surely with him, the Master answered: "Except a man be born again, he cannot see the kingdom of God." And he made it plain that this new birth was no reincarnation. He said: "That which is born of the flesh is flesh; and that which is born of the Spirit is spirit." It was, then, a spiritual conception which was to make a new creature, a new heaven, and a new earth, in which old things should pass away, all things become new. My friend, heaven, the realm of spiritual harmony, is a present possibility. Christian Science has brought the good news that God's kingdom can come on earth, that God can be seen to dwell with men; and in-

deed, that the heavenly harmony will come, here and now, to any individual whose heart, weary of earth's unsatisfying promises and dreadful punishments, will open itself to divine Love with its revivifying, regenerating, reforming power.

Greater Works It is now nearly seventy-five years since Mary Baker Eddy discovered the Science of Christ. Ten years after her discovery she had reduced divine Science, or the knowledge of divine Life, Truth, and Love, to human apprehension and, by her great book, had made Christian Science available for human needs.

"Science and Health" was conceived in Mrs. Eddy's spiritualized consciousness, and born in the throes of experiences so hard and bitter as to turn her from the world to God. Her discovery came with a rebirth of health, a recovery through prayer from an accident; but her preparedness was the culmination of a life-long search for God and His healing, saving Christ. That the book, "Science and Health," had a divine origin is evi-

denced by its healing and redemptive power over the sick and the ailing. Mary Baker Eddy has been the means of bringing the promised Comforter, the "Spirit of Truth," to the world. Consider her time, environment, her spiritual-mindedness, the beneficence of Christian Science, its amazing spread throughout the world. May we not recognize her achievements as among the greater works predicted by Christ Jesus and assured by his own demonstration of man's unity with God? Greater works are products of the new birth they are done by the spiritualized thought, by the "I" that goes to the Father.

Round Robin Club Elects New Officers

A regular bi-weekly meeting of the Round Robin club was held last Thursday evening, March 2nd, at the home of Mrs. Agnes Pasquesi, 320 Palmer avenue, Highland Park. Most of the meeting was devoted to serving. Officers for the year 1939 were elected:

Mrs. Lena Fishell President
Mrs. Mary Sweeney Vice-President
Mrs. Joanna Dunbar Secretary
Mrs. Dora Carrol Treasurer
Mrs. Marie Bernardi and Mrs. Agnes Pasquesi were chosen for the entertainment committee and Mrs. Jennie Zagalia and Mrs. Jennie Piccena were chosen for the refreshment committee. After the meeting, refreshments were served.

Congregational Meeting The annual Congregational Fellowship dinner and business meeting of Bethany church will be held Wednesday evening at 6:30 p.m. The election of officers and other items of business as well as reports of

organizations will take place. All members and contributing friends are invited.

On a certain beautiful summer morning in the year 1905, a man sat on the broad veranda of an old-fashioned hotel in the deep South, immersed in the pages of a book. The volume, known as the Christian Science text-book and entitled "Science and Health with Key to the Scriptures," was the product of the inspired pen of its author, Mary Baker Eddy, the Discoverer, Founder and Leader of Christian Science. Only a few days before, while reading this book with its deeply religious theme of God as divine Mind, Spirit, and man as God's likeness and image, spiritual, not material, this man had found complete healing of body and a remarkable change of heart. He had experienced the end of chronic eye disability, a long continued stomach disorder, and other derangements, all in the glorious hours of his first session with this great, shall we say, even greater work. He knew he had been healed but he did not know how the new freedom of body and thought had come. Seeking relief from these very ills, he had studied and practiced material medicine; and for years he had tried in vain both material and mental methods. In desperation he had turned to Christian Science, and the healing came with breath-taking suddenness. And so, on that mid-summer morning he sought the light. He knows now that, in the re-birth of health, he was close to God, and to the reality of His things, thoughts. He was very close to the "Life that maketh all things new." As he read there came to him a realization of the opposite natures of Spirit and matter; he saw that if Spirit is true and real, its opposite must be untrue and unreal. Then, as the existence and presence of spiritual good was accepted, he saw the things of matter, and all evil, as separate from reality, as non-existent; and he was able to gather together, that is, in his vision he was able to do so, all the erroneous presentments of matter and evil, and push them out of conscious acceptance. Even so must the demons have left their victim, and under Christ Jesus' sufferance, entering into the swine, rushed headlong down a steep place into the sea. With all that is unlike good relegated to proper non-existence, the man's thought was flooded with spiritual reality; and there on that gallery all things he saw became new. There was a surcharge of pure joy and happiness such as he had never known before. The most common-place things were glorified. The sun shone, the birds sang, people smiled, flowers bloomed, with aspect and meaning apart from matter. He had a glimpse of things as they really are, not as material conceptions, but as ideas of pure, divine Mind, God. And the vision of reality, spiritual harmony, which came to me that day—for need I say that the man was myself—has
