Take an inspection trip through your home, from attic to cellar. If you find that your house is in apple-pie order, you will be gratified. If you find that there is cleaning to be done, you will be glad to do what is necessary to make your home more healthful and more beautiful.

**INSPECT THOROUGHLY RUGS AND CARPETS**

Rugs should be properly cleaned at least once a year to insure against germ laden dust and harmful grit.

**DRAPES AND CURTAINS**

Adequate ventilation is important to health. Improperly cleaned curtains and drapes do not permit this; cleaning of these items should be done by a qualified expert.

**UPHOLSTERED FURNITURE**

Upholstery gathers germs and dust—the cause of common colds. Moths, harmful to fabrics, gather in seams and corners. All these can be removed by expert dry cleaning.

**WEARING APPAREL**

It is imperative that wearing apparel be cleaned periodically for the sake of health and for beauty and durability in the fabric.

**CHILDREN'S CLOTHING**

Everyone gives special attention to the health of growing children. Clothing cleaned by an experienced cleaner is reasonable insurance.

**MATTRESSES AND PILLOWS**

The important part of the bed is under the sheet! Mattresses specially processed in our plant give more comfort — more health — and MORE SLEEP!

**BLANKETS AND COMFORTERS**

If you spend 8 hours daily in bed, you spend one-third of your life there. Fluffy, airy, blankets and quilts, cleaned of course by experts, give proper ventilation and yet retain the heat of the body.
