

Large Audience Hear Judge Green at Lecture Sept. 7

Judge Samuel W. Greene, C.S.B. of Chicago, presented a lecture on Christian Science Thursday evening, September 7, at Elm Place school auditorium, under the auspices of First Church of Christ, Scientist, of Highland Park. Judge Greene is a member of the Board of Lectureship of the Mother Church, the First Church of Christ, Scientist, in Boston, Mass. A brief resume of his lecture was as follows:

The history of humanity through the ages has been an unceasing struggle for better conditions. Only the unthinking fail to progress. Each state of improved thought has a wider horizon, a larger outlook, a higher vision. Mortal man without vision, without hope, without incentive, gradually degrades, and becomes an object of pity.

Thus is indicated the tragedy of human belief—fallen man.

Mary Baker Eddy
The Discoverer and Founder of Christian Science, Mary Baker Eddy, has given to the world a new hope, a brighter vision, founded upon spiritual understanding and progress, rather than upon material belief and limitation.

In following the Scriptural method of healing she saw that the Bible requires spiritual interpretation to be properly helpful and healing. This new or spiritual interpretation she saw, must be consistent with a proper interpretation of God, and man in God's image and likeness. The generally accepted view of God as being the creator of both good and evil, or as being aware of both good and evil as equal realities, Mrs. Eddy perceived as being contrary to the nature of God and the teachings of the Bible.

God
In her effort to properly interpret God to humanity, the Discoverer and Founder of Christian Science boldly disputes the apparent inconsistencies inherent in the common interpretations of Deity, and discerns Him to be wholly good. All the synonyms for God used in Christian Science are readily understood, as this fundamental concept of God is accepted—God is Mind, Spirit, Soul, Principle, Life, Truth, Love. These various designations of Deity may be in part startling to the average Bible student, and the newness or strangeness of Christian Science to the beginner is apparent when he attempts to apply this spiritual concept of Deity in all its logical sequences in his daily living. For instance, the whole human family fears. Fear seems to be almost instinctive, and yet it is obviously inconsistent with the concept of God being wholly good. Humanity believes in pain, but how can there be pain in the creation of Love? Mortals believe in death, but how can death ever occur or exist in the realm of Life? And so, with each imperfect or inharmonious concept of life. It is at once found to be inconsistent with the true apprehension of God. Christian Science continually reminds us that it is necessary to have always in consciousness the proper concept of God.

Man
Humanity has apparently labored through the centuries under the delusion that man fell from his high estate as God's child or likeness, and that this fall was so real that his salvation ultimately depends upon some miraculous or supernatural intervention of Deity in his behalf.

Christian Science teaches that man has never fallen, but that a mist, or error, has seemed to shut from view the real man—God's child—and has provided an unreal or false concept of man that is material, and that lives and moves and has his being not in God, but in matter. This false view of man is responsible for all discord, sin, disease, poverty, hate and death.

Treatment
The purpose and promise of Christian Science is to bring dominion or

Libertyville Holstein Makes Good at World's Fair

Baker Farm Frances Direct, the 3-year-old Holstein whose picture is shown above, is gaining fame for herself and her owner, Ken Mosen, Hawthorn Farms, Libertyville, in the Borden Dairy World of Tomorrow at the New York World's Fair.

This cow is one of the herd of 150 fine purebreds from dairy farms throughout the United States and Canada on display at the Fair. The June and July average milk production records, for 150 cows, of 47.9 and 44.5 pounds of milk per cow per day, and per cow averages of 60 and 55 pounds of butterfat for each of the two months, so far as is known have never been approached by any herd of the size made up of cows of the five major dairy breeds.

The record-making Dairy World of Tomorrow herd is composed of 30 representative cows of each of the Ayrshires, Brown Swiss, Guernseys, Holstein-Friesians and Jerseys. A representative bull and representative calves of each breed also are on display at the Borden Dairy World of Tomorrow.

salvation to mankind, or, to put it in another way, is to reveal to humanity man as he really is, and thereby destroy the false beliefs and fears of human consciousness. It is following Paul's teaching to put off or destroy in belief the old man of matter, and to put on or to understand the real man who is spiritual.

Looking Backward

at progressive Highland Park through the files of The Press

TWENTY YEARS AGO

Sept. 11, 1919

The newly organized Park Board is advertising for a large tract of land suitable for park purposes—Elonzo Tyner, prominent resident of Highland Park, died suddenly, Saturday evening at Exmoor club . . . Lucien E. Williams, 19, who was tennis captain at Yale university last spring, won the state championship in singles, Sunday . . . The marriage of Miss Elizabeth Ralph and Mr. Roy Duncan took place Monday in Cleveland . . . Lucy O'Connor, eldest daughter of James O'Connor of Deerfield left Monday for Dubuque, Ia., where she will attend a convent and study to be a nun . . . Mrs. A. R. Williams and children are spending a week with her father Mr. E. A. Nevins of Elm Place . . . Miss Esther Hicks left Friday for Champaign where she will have charge of the French and Spanish departments in the Champaign high school.

TEN YEARS AGO

Sept. 12, 1929

The new Braeside school opened Monday, Sept. 9th with fifty-five children of kindergarten, primary grades . . . Miss Felicite Buhl was seriously injured Monday when her Packard Phaeton plunged over Sheridan road bridge into the ravine at the south limits of Lake Forest . . . Dr. John A. Bigler has located in Highland Park . . . George Briggs was installed as commander of Deerfield American Legion Post last evening (Wednesday) . . . Little Helen Moroney celebrated her sixth

Naval Station Is Put on War Basis; Closed to Visitors

The Great Lakes Naval Station has entered the first phase of its new "National Emergency" status in conformance with the new policy of the federal administration as set forth by the President.

Beginning with Roosevelt's proclamation and to continue until such a time as the "national emergency" is regarded as passed, the gates of the station will be closed to all visitors except those who are authorized to enter the reservation for business appointments with officials.

Even those who visit the station on authorized business missions will be kept under strict surveillance. Each will be detained at the main gate until he is identified and will then be escorted by an armed guard to the office of the official. When

the interview is completed, the guard will then escort the visitor back to the main gate and out of the grounds.

This rigid order is the same as was enforced at the station during World war days 20 years ago.

The station is also showing activity in other quarters in its preparations to conform to the new policy of "national emergency." Training of recruits is being stepped up. The training period has been cut from three months to two months. All recruits on the station are being prepared for immediate service on the seas and added impetus has been given to recruiting.

It is understood that many of the recruits who are being assigned to service on the seas will be sent to the west coast to man some of the 116 destroyers which the naval department has announced will be reconditioned for active service.

Modenese Society Junior Organize at Meeting Monday

The Modenese Mutual Aid society has organized its members' sons from the age of 13 to 17 years into a junior group which will become familiar with the functions of the Mutual Aid organization and which will promote youthful activities.

The group will be known as the Modenese Juniors. At its second meeting, Monday evening, Sept. 11, the following officers were elected: Louis Crovetto, president; Louis Moccioni, vice president; Mario Sirotti, treasurer; Renzo Mordini, secretary; Sinesio Zagnoli, chairman of entertainment; and Ferdinand Ori, chairman of activities.

The club's next meeting will be held Monday, Sept. 25, when plans will be presented for a dance to be given this fall.

A New Modern All-Purpose Shortening IN A NEW DOUBLE-SEALED CONTAINER

No leakage!
No greasy fingers!
No messy paper!
Scoop it out with a spoon!

Hands never touch Double-Sealed Wilson's Certified Pure Lard. Neither "specks", dirt, dust nor odors can pass the sanitary inside seal. Your hands are the first to open it.

IT'S CLEAN!

The Wilson label protects your table.

George Rector
Food Consultant, Wilson & Co.

SAYS: "In this new, clean, sanitary container you have the finest of all modern all-purpose shortenings in the most convenient form."

WILSON'S Certified PURE LARD

ALL-PURPOSE SHORTENING

Try Wilson's Certified Pure Lard—the modern all-purpose shortening. Learn for yourself why such famous experts as George Rector give it the highest rating for rich, nutlike flavor—appetizing color—shortness—digestibility and economy. See your nearby dealer.

F. H. A.

These are prominent and popular letters, representing as they do, an abbreviation of the name "Federal Housing Administration."

That is a loaning agency sponsored by the United States Government, which insures partially modernization loans known as Title I, and fully mortgage loans, known as Title II.

We are pioneers in the making of such loans. If you contemplate repairing or modernizing existing constructions, or if you have plans for the building and financing of a new home, it will pay you to call at the bank and learn all about the F.H.A.
