**Neon Eye solves problem That has vexed all motorists!**

From 50 miles an hour up, does your car handle as easily as at lower speeds? Or, do you unconsciously tighten your grip on the steering wheel and your nerves become more tense? At those higher speeds does your car tramp, shimmy, or jiggle? Unbalanced wheels are the cause! Now the Bear DY-NAM-IC Wheel Balancer solves the problem by not only balancing the wheels statically, but also dynamically with the Neon Eye.
