#### EDITORIAL

##### Let's Make This Country Better Not Bigger

If some of the European Nations would pledge themselves to make their country better, not bigger, some great wars might and probably would have never been, but they did not. They wanted to make their country bigger, probably not thinking how they could have their country better and have saved the lives of about 13,000,000 soldiers. In the war there was a cost of some \$186,333,637,103.

Losses from death, property, injury, and production would be about \$338,000,000,000. If the entire population of the United States in 1830 which was 12,866,000 had been wiped out, it would not have been as great as that among the sailors that fought in the World war. So if all the world would pledge themselves to peace it would do a great deal of good. Let's be the first ones to pledge ourselves.

Fred Blow.

### Deerfield Parents Are Urged to Visit School Nov. 5-11

To the parents of the Deerfield Grammar school children:

Each year the second week in November is set aside throughout the nation as American Education Week (Nov. 5-11). This is done in an attempt to call to our attention the work being done by the educational forces throughout the nation. In a sense it is a week during which we stop to evaluate things we have been doing in education during the past years. A view of this program is indeed interesting.

The past one hundred years have seen a great growth in American education to the point where it may be truthfully said that education from the first grade through college is available for all children who wish to avail themselves of the opportunities. We have in operation in the United States kinds of schools which are merely dreams of the future for other nations of the world. This is true because in a very real sense the American public school is the corner stone of our democratic tradition. Without these schools democracy as we know it could not exist.

The form of American education, its goals and ideals vary consistently from those of other nations. This is true because American schools serve a unique purpose. In a very real sense, they are the proving grounds for democracy. It is here in the public school that the ideals, the habits, the ways of thinking must be developed for future democratic citizenship. It is a function that no other institution in the history of man has been able to accomplish. The American people then may well be proud of the job it has done in creating free schools for a democracy. In these dark days of wars and hatreds, it is very possible that the world may find its answer through free public education, such as the United States has developed.

Our local school is a small part of this national picture. It is symbolic however of the work being done in each community to create intelligent, thinking citizens, capable of taking their place in a democracy. The Deerfield Grammar school belongs to this community in a sense that is true of no other institution, it is a product of your wishes. Its success and failure depends to a large extent upon the support and aid given it by the community.

We of the school stand ready and willing at all times to aid you in any way that we can. We invite your suggestions in regard to our program. We say, as schools all over the nation are saying this week, "Observe American Education Week—Visit Your Schools."

Sincerely,

LESTER M. BALL,

Superintendent.

### Armistice Day to Be Observed by Deerfield Legion

The Deerfield Post of the American Legion will hold an Armistice Day program on Saturday evening, Nov. 11, at 8 o'clock in the Masonic Temple. Professor R. C. Tomlinson of Lake Forest College, who has spoken to Deerfield audiences many times, has been invited to be the guest speaker. He is a great favorite with the local Legion and his talks are keenly enjoyed.

There will be an exhibit of souvenirs of the World War and some of the Legionnaires will tell of interesting and unusual experiences. Two highly respected local business men, the Siffert brothers, who are now American citizens, will tell of their experiences in the German army during the World War. Ralph Dunham is commander of the Deerfield Post, and he has appointed a social committee, who will serve refreshments of pie and coffee, at the close of the program.

**School Programs**  
The Legion will sponsor talks on "Americanism" in the three local schools tomorrow (Friday). Legionnaires chosen to make the speeches are John Klemp, who will speak at the Holy Cross parochial school; Earle Harris, at Wilmot grade school; and Anthony Mercurio, at the Deerfield Grammar school.

**At Church**  
The members of the American Legion and the Auxiliary have been invited to be guests at the morning worship service of the Deerfield Presbyterian church, by Dr. W. F. Weir. Each year the organizations attend church in a body, being guests at the respective churches.

**Deerfield to Help Foreign Born to Become Citizens**

The American Legion is obligated to foster and perpetuate one hundred percent Americanism. As a part of the activities of Deerfield post No. 738 in carrying out this obligation, the post announces that it will render assistance to any resident of this community, who is of foreign birth, in acquiring his or her naturalization papers.

In Europe an attempt is again being made to settle differences of opinion by war at the risk of destroying European civilization. The blessings of American rights and liberties must be realized by all of us in times like these and naturalization is upper most in the minds of those who have not obtained citizenship.

Deerfield post No. 738 urges all such persons to get in touch by telephone or mail with either Anthony J. Mercurio, 510 Waukegan road or Earle W. Harris, 1206 Deerfield avenue for assistance in becoming 100 per cent Americans.

**Deerfield American Legion Activities**

Commander Ralph Dunham started off with prospects of a wonderful year. Had a very fine Halloween party. Membership is coming in fine, the various committees are making their reports with enthusiasm, and altogether it looks like a big year is ahead for us.

Hospital Relations chairman, Russell Potterton, had 13 members out to the card party at hospital No. 105, Service officer W. A. Tennemann took care of all details for the Legion's part at the funeral of Comrade John Farmer, reported the passing on of Comrade Harry Stuppel's father, and that Harold Plagge is progressing favorably at Hines hospital.

Armistice night has all the earmarks of a wonderful program, moving pictures, and will have as their guest speaker Prof. R. C. Tomlinson of Lake Forest college, with whom we are all acquainted, having given talks to us before on several occasions and is looked forward to as an outstanding speaker. His subjects are always well prepared and cover very interesting topics. All Auxiliary members and their husbands, Legionnaires and their wives are requested to attend.

Dr. W. F. Weir of the Presbyterian church in Deerfield has invited the Legion and Auxiliary to attend his service Sunday morning Nov. 12th, in a body, where he has a very impressive and interesting sermon awaiting them.

Every eligible Legionnaire or Auxiliary member should avail himself of these wonderful opportunities.

Contributed.
