NEW STEP IN GRADE PROJECT

Grade separation workmen are hastening the laying of permanent North Western tracks throughout the Winnetka-Kenilworth project, over which North Shore line trains are being temporarily operated while the other permanent construction is carried forward.

For the past two weeks as pictured above, North Shore trains have been cut over from a point a short distance south of Willow street to the south end of the project, through Winnetka and Kenilworth.

This was done in order that work might be started at an early date on the retaining wall along the east side of the right-of-way through Indian Hill and the north part of Kenilworth.

In the meantime, permanent North Western tracks are being laid through the cut to the north end of the project, in Glencoe.

In the top picture, workmen are shown cutting over the south-bound North Shore track. In the center picture, an electric welder is putting on the copper binders, and in the lower the 9:47 Chicago local is shown entering the new track, on schedule, the entire cut-over operation having been performed within the 30 minute period between train schedules.

Results of Second Archery Contest

Sunday afternoon, November 5, at Lincoln Playground Community Service of Highland Park conducted Highland Park's second archery contest of the year. The field captain was George Scheuchenpflug (Mr. X.)

The results were as follows: American round for men—First to W. E. Cunningham. Hitting the target for 89 out of a possible 90 times with a score of 593. This betters his score in the first contest by 119 points. Second place to Irving Brand, 409 points, and third place to Jerry Sasch, 308 points.

Columbian round for women was won by Paula Raff, who scored 195 points; second to Mrs. Ruth Cunningham, who had 192 points, and third place to Anna Mary Pantelis.

In the boy and girl class, Leonard Goring scored 250 points and Carol Laegler scored 202 points.

Carl Kleist of Northbrook shot a demonstration American round for men with the men archers. He hit the target 89 times out of a possible 90 with a score of 611.

Brief Synopsis of Lecture on Christian Science Given Nov. 9

Speaking before a large audience in the Deerfield Grammar school, last Thursday evening, Dr. John R. Carr, C.S., of Philadelphia, Pa., gave a lecture on "Christian Science: The Science of Christian Healing." Dr. Carr is a member of the Board of Lectureship of The Mother Church, The First Church of Christ, Scientist, in Boston, Mass. The lecture was as follows:

Christian Science, with its scientifically Christian system of Mind-healing as taught and practiced originally by Christ Jesus, and in this age by Mary Baker Eddy, is a subject of supreme importance and profound significance to the whole world.

Christian Science is a Science, a philosophy, and a religion, a three-fold mode of thought whereby Truth comes to the understanding. Through Christian Science, thought is re-pented, reformed, regenerated, purified, and spiritualized—the human yielding to the divine; and, through baptism or the submergence of the human in the divine, consciousness is exalted to the high level of spiritual understanding.

Christian Science, properly presented and rightly understood, is a "feast of fat things, a feast of wines on the lees, of fat things full of marrow, of wines on the lees well refined." Christian Science bids all to this "feast of fat things" and "wines on the lees" as it spreads a table of Truth and Love for those hungering and thirsting after righteousness.

To be scientific, a system of healing or of teaching must possess three fundamentals or prerequisites; namely: first, principle; second, rule; third, proof. Christian Science meets fully these requirements, as the following quotations from the Christian Science textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy, reveal: "The Principle of divine metaphysics is God; the practice of divine metaphysics is the utilization

of the power of Truth over error; its rules demonstrate its Science" (p. 111); and, "Science will declare God aright, and Christianity will demonstrate this declaration and its divine Principle, making mankind better physically, morally, and spiritually" (p. 466).

Mind, not matter, is medicine. Mrs. Eddy states this on page 142 of the textbook. She writes: "If Mind was first and self-existent, then Mind, not matter, must have been the first medicine. God being All-in-all, He made medicine; but that medicine was Mind." Health is a spiritually-mental state, not a physiological nor an anatomical one. Healing is a metaphysical or divine-ly-mental process, not a physical nor a pathological one. It is brought about by the action of impersonal, impartial, universal Principle, divine Mind, Love, operating through spiritual law, to the end of proving the presence, power, might, majesty, dominion, victory, supremacy, even the allness of God, good, Mind, Love.

In the Manual of The Mother Church, written by Mary Baker Eddy, page 17, one reads: "At a meeting of the Christian Scientist Association, April 12, 1879, on motion of Mrs. Eddy, it was voted,—To organize a church designed to commemorate the word and works of our Master, which should restate primitive Christianity and its lost element of healing."

This Science offers to a sick and sinning world a system of healing which is scientific, Christian, absolute, exact, full, and final; a system which, when applied according to the Science stated in "Science and Health with Key to the Scriptures" by Mary Baker Eddy, has healed, is healing, and will continue to heal, in ever-increasing manner, every ill "that flesh is heir to."

The Principle, rule, and proof of this Christianly scientific system of medicine are set forth in the writings of Mrs. Eddy, which together with the King James Version of the Bible, form the texts of Christian Science. Christian Science healing is a system of therapeutics identical with that taught and practiced by Christ Jesus.

Charity Wrestling Show at Waukegan Staged by P.-T.A.

Two of the country's foremost grappling stars, both former All-American football players, Joe Savoldi of Notre Dame and Jim McMillen of Illinois, will headline the charity wrestling show to be presented by the Parent-Teacher associations of Waukegan and North Chicago next Tuesday night, Nov. 21, starting at 8:30 at the Waukegan high school gym.

The card shapes up as the finest ever presented in a Lake county ring, and all indications point to a capacity turnout. Proceeds of the show, over and above actual expenses, will be used by the P.-T.A. groups to purchase milk for the undernourished children in the public and parochial schools.

Savoldi, one of the ten top heavyweights in the wrestling game, is also one of the most colorful wrestlers in the business. He was a star fullback on two of the late Knute Rockne's greatest elevens. McMillen, likewise, was a great grizzer in his intercollegiate days, winning All-American honors at the University of Illinois.

In the semi-windup of the charity show, Fred Grubyer, the "Missing Link" of the heavyweight division, will grapple the one and only Ruffy Silverstein, unbeaten in three years of professional wrestling.

The two preliminary bouts will feature Johann Bromberg, German ace, against Fritz Krueger, and the powerful Mike London, hailing from Lodi, Calif., against Kid Chapman. Tickets for the show are popularly

priced. The 85-piece Waukegan township high school band will entertain before the show and during the intermission, it was announced by the chairman of the P.-T.A. council.

On exhibition in the New Guinea collection at Field Museum are certain masks of the Tami tribe, known as "tatgo." Worn by designated men, they represent spirits. Under tribal law, any woman, child or uninitiated person seeing or recognizing, by accident or otherwise, the wearer of the mask, is condemned to death.

Early Announcement Expected Regarding Senate Candidacy

Chicago, Ill., Nov. 14—After conferring with many Republican leaders throughout the State since his return from Washington, and months of pressing on the part of his friends, Congressman Ralph E. Church, Evanston, lone Republican representative in Washington from Cook county, today indicated he would make an early announcement concerning his decision on becoming a candidate for the United States Senate.

Acknowledged by all as a slave to duty, Congressman Church has maintained a five-year record of never having missed a session of Congress nor a single roll call, rising from a sick bed for the Special Session this fall. His thorough knowledge of events in Washington and the entire New Deal legislative program, make him the "up-to-date" candidate for service in the Senate, according to his admirers. In this period of world unrest and European War, they also point to his ranking position and long service on the House Naval Affairs committee. He was in Oslo, Norway, this summer, as a delegate to the Interparliamentary Conference just prior to Germany's invasion of Poland. He heard Anthony Eden deliver his famous war speech in the House of Commons but he refuses to let emotionalism sway his opposition to American participation in this war.

Congressman Church served 16 years in the Illinois Legislature. He was elected to Congress in 1934 and in 1936 carried his district by 18,000 votes against Roosevelt's 15,000 margin. The Democratic landslide in Cook county in 1938 failed to affect Church who rolled up a 40,000 majority. Although a Cook county man, living in Evanston and practicing law in Chicago, the Congressman comes from Vermilion county where he and three sisters still have large farming interests.

End MAKESHIFT Hot Water Service

... Change to Year-Around AUTOMATIC Hot Water with an AUTOMATIC Water Heater

You can have hot water every time you turn the faucet—constant temperature hot water, whether the furnace is cold or roaring. Start an AUTOMATIC just once—from then on you can forget it! That's the kind of service that more and more people are using these days.

Chances are that you're already paying for this kind of service, in increased fuel bills and damage to tank and piping. There's no such thing as "free" furnace coil hot water! Let us show you how you can get the AUTOMATIC, trouble-free service you're paying for.

Investigate now! Automatic gas water heaters as low as \$55 for a 20-gallon heater. Only \$1 down and 5 years to pay. This offer for a limited time only.

Laboratory tests show that furnace coils use as much as 20% of the furnace fuel.
