 Mrs. Robert W. Feltz, District Editor

**Elm Place P.T.A. to Present Famous Magician March 1**

"Elbert Hubbard said that he liked magicians because they were honest men," says Dr. Harlan Tarbell, internationally famous magician and teacher of magicians who will present his "Eyeless Vision" and "Magic of the East" at the Elm Place school auditorium, Friday evening, March 1, under the auspices of the Elm Place school Parent-Teachers Association.

"Magicians tell you they are going to fool you and proceed to do it but no matter what happens at the magical performance when you get home you still have your watch, your pocketbook and your appendix."

Great minds of the world have always been interested in the mysteries of the magician, and many have taken up the science and art and become proficient as amateurs. Harold Lloyd and Chester Morris are two of the best magicians in Hollywood. Morris was more delighted with a cup he won at the Pacific Coast Magicians Convention than he would have been in winning the Pulitzer prize for acting.

Lowell Thomas says that he can sit at Tarbell's feet all night and watch his mysteries. Ashton Stevens, Chicago dramatic critic, writes, "Even letters from such non-magicians as George M. Cohan and Alexander Wolcott don't seem one-half as much as this would-be sorcerer as a small screed from Master Magician Harlan Tarbell."

Tarbell is one of the greatest personalities in magic today. His knowledge of mystery, his insight into human nature, and his sense of humor are almost uncanny. He has you in deep philosophy one moment and in a roar of laughter the next.

Tarbell likes original magic — it fascinated him even as a boy—and he is happy bringing the classics of China, India, Japan, Egypt and Bali to Highland Park on the evening of March 1st.

These mysteries combined with "Eyeless Vision"—amazing sight with the eyes sealed, are as John Cogswell of the Boston Post says, "well calculated to send anyone into gibbering conniption fits."

Tickets will be on sale at Gsell's Drug Store.

**Bethlehem Church Will Hold Vesper Service Sunday**

Mr. Melvin Baddin, violinist, and Miss Claire Van der Griend, pianist, will present a program of some of the world's finest music next Sunday afternoon at 4:30 p.m. at the Bethlehem Evangelical church, 815 Rosemary terrace, Deerfield. Both of these young people are excellent musicians, and both are among the leading students at the School of Music, Northwestern university, Evanston.

The Bethlehem Evangelical church, through its monthly vesper service, is endeavoring to bring to the people of the community as well as the members and friends of its own congregation, outstanding talent in the musical field. From these hours

**Bethlehem Church Will Hold Vesper Service Sunday**

Mr. Melvin Baddin, violinist, and Miss Claire Van der Griend, pianist, will present a program of some of the world's finest music next Sunday afternoon at 4:30 p.m. at the Bethlehem Evangelical church, 815 Rosemary terrace, Deerfield. Both of these young people are excellent musicians, and both are among the leading students at the School of Music, Northwestern university, Evanston.

The Bethlehem Evangelical church, through its monthly vesper service, is endeavoring to bring to the people of the community as well as the members and friends of its own congregation, outstanding talent in the musical field. From these hours

spent under the spell of the masters of music come high resolves, broader visions, and a rededication to the task of building a Christian world.

Following the vesper service supper will be served in the social rooms of the church by a committee of women from the local congregation. An informal social hour will follow to which all are invited. This will include community singing led by the minister and a "Quiz" program in which all are invited to participate. The informal fellowship always closes with a devotional service led by the minister, Rev. Earl J. Brusco.

**Positions Available Thru Lake College; New Term Opens Feb. 1**

Lake College has received many calls for employment which the Employment Department has been unable to fill because of lack of graduates. This was especially true in the bookkeeping and comptometry fields. Many calls were for young men with stenographic ability. The opportunities for obtaining positions are better at the present time than they have been at any time for several years; but the demand is for exceptionally well-trained young people.

Lake College has received 103 calls for permanent help and 112 calls for temporary help since September 2, 1939. These calls have come directly to the office of the College from business and professional offices throughout Lake county. These positions have been in the Secretarial, Stenographic, Bookkeeping, Accounting and Comptometry fields.

For those interested in college-grade work in the commercial field, the mid-year term at Lake College will open February 5. The night classes for the second semester will begin February 1. This course is a four-months course, ending June 1. Classes in all speeds of shorthand from beginning theory up to 150 words a minute will be held. Beginning, intermediate and advanced bookkeeping and accounting classes are open to those interested in this branch of work. Typewriting, dictaphone, and comptometry classes will be available for those interested in machine work. Penmanship, Salesmanship, Spelling, Business English, Business Mathematics and Filing courses will also be offered. Instruction in these subjects is given in both the day and night school.

**Inklings from Neighboring Towns**

John Tibbetts, son of M. C. Tibbetts of Lake Forest, has been elected to the Phi Delta Theta social fraternity at the University of Virginia. A first-year student in the College of Arts and Sciences, Tibbetts was among 309 students from 21 states and two foreign countries pledged among 28 various Greek letter societies.

Possibility that the First Congregational and First Christian churches of Waukegan will pool their resources, unite their congregations and erect a single new edifice seemed remote Thursday following a special meeting Wednesday night of First Christian parishioners who failed to muster any great enthusiasm for the suggested union. Both congregations lost their church buildings by fire within the last three months.

Peter Bergsma, a resident of Lake Forest for 30 years prior to two years ago, died at the home of his son, Theodore Bergsma, 110 Juniper street, Waukegan, on Tuesday, January 23. Mr. Bergsma was superintendent of the Howard Shaw estate in Lake Forest until his retirement two years ago. He was 67 years old.

Completion date of the Winnetka grade separation project originally scheduled by the PWA for June 30, has been extended to November 30, according to a telegram received by the village, Tuesday, from E. W. Clark, acting commissioner of public works, at Washington.

Because of unavoidable delays occasioned by inability to receive certain materials on scheduled time, weather interference, etc., the village had requested an extension of time.

At an adjourned meeting of the Winnetka board of local improve-

ments, Tuesday evening, contracts were awarded for the permanent bridges and paving.

The homes of two well-known doctors in Libertyville were damaged by fire within a week's time. The first blaze, which caused a known loss of \$3,000, occurred in the Dr. M. A. Wise residence, 138 W. Cook Ave. The second fire, attacked the home of Dr. F. H. Martin, 221 Elm court.

The Wise home, only three doors from the fire station, sustained the greater damage.

Herman C. Zersen, 74, father of Edward Zersen, Lake county deputy sheriff, died at 3 p.m. Friday at his home in Mundelein. Mr. Zersen had been ill of a heart ailment for the past three years. Friday morning he suffered an attack.

Henry B. Gates, former Wilmette village president and for many years manager of the North Shore division of the Illinois Bell Telephone Co. observed his 80th birthday this month at his Evanston home.

The occasion was marked by a surprise visit from his daughter, Mrs. E. C. Moulton of Fort Smith, Ark., and her son, E. C. Moulton, Jr. A son, Lieut. Col. Warner B. Gates, United States Army corps, stationed at Lowry field, Denver, had planned to make the trip east to greet his father, but was prevented from flying by adverse weather. A granddaughter, Mrs. E. R. Webber, Jr., who lives in Pasadena, Calif., was also unable to make the journey at the last minute.

Mr. and Mrs. Gates and their daughter, Miss Ruth Gates, have resided in Evanston for 15 years. He retired from business in 1930.

**Two Lake County Holstein Breeders Named All-American**

Two Lake County Holstein breeders, Hawthorn Farms, Libertyville, and Ravenscroft Farms at Antioch, have been honored by the selection of members of their herds for the 18th annual All-American Holstein herd by a committee of 17 eminent dairy cattle judges of the United States and Canada. The awards have just been announced.

King Bessie Senator, herd sire at Ravenscroft, owned by E. H. Ravenscroft, president of Abbott Laboratories, was chosen All-American two-year-old bull, the third successive year this animal has won the coveted All-American distinction. Another member of the Ravenscroft herd was given honorable mention.

At Hawthorn Farms, Libertyville, the honors went to Hawthorn Blue Eye Empress, chosen as the Reserve

All-American heifer calf of the year. Three other members of the herd received honorable mention. Hawthorn Farms are owned by J. F. Cuneo, president of the Cuneo Press in Chicago.

Ninety-two animals were nominated for consideration, all of them winners at state, sectional or national dairy shows in the United States, or Class A shows in Canada. Fifteen animals, making up a complete show herd with one entry in each class, were selected for the All-American herd, and the 15 second-choice animals are the Reserve herd. Forty-six others were given honorable mention.

**IN ANY COOKING METHOD**  
**This Year's GAS Ranges**  
**SAVE TIME · FOOD · FUEL**

**OVEN COOKING ...**

- Faster oven pre-heating time saves over-all cooking time and fuel cost at the very beginning. New oven burners that operate at low temperatures let you cook foods at slow heats . . . full oven insulation keeps more of the heat in the oven, less heat in your kitchen. Accurate oven heat control ends oven guesswork. Even the oven racks are improved, with positive non-tilting stops.

**SURFACE COOKING ..**

- Cook with the exact heat the cooking operation requires—from a tiny simmering heat to high-speed. Cook vegetables in their own natural juices. Burners light automatically as soon as you turn the valve. The new type burners eliminate the possibility of clogging from spillovers. Enamelled burner trays and smooth burner surfaces can be cleaned quickly with a damp cloth.

**BROILING ...**

- Smokeless broiler grills drain away fats so that they can't smoke or blaze. Many of the new ranges have elevated broilers that eliminate steaming.
