SAFETYGRAMS

Many of us drive along at 60 miles an hour feeling perfectly safe and assured that nothing can happen. If weather and traffic conditions are favorable, and the vehicle is in the best possible condition, this does not present such an unusual problem.

However, inattention to traffic conditions, recklessness or thoughtlessness in driving, and the many other driving faults we all have, make 60 miles an hour too fast a speed.

Let us remember this: When you hit a stone wall or other immovable object when driving at 60 miles an hour, the force of the impact is as great as if you were to drive off the top of a ten story building. Can you imagine that shock?

A mailman who travels 10,000 miles in a second—but he doesn't do it on foot. It's all done through a powerful short wave station. Read about the fastest mail service in the world, in the American Weekly, the magazine distributed with next Sunday's Chicago Herald-American.

Deerfield Board Sends Open Letter Concerning Roads

The following letter from the road and bridge committee of the Deerfield Village Board tells what has been done; what is being done; and what will be done in the future by this important part of the Deerfield government:

The source of money for the upkeep of our roads and bridges—other than state highways—comes from:

1. Motor fuel tax; to be used for arterial streets.
2. Vehicle licenses, traffic violations and other moneys earmarked for road and bridge work.

Besides many miscellaneous jobs improving your village, during 1939, the following accomplishments were put into the class of past history:

1. Greenwood avenue (arterial street) was graded and completely re-surfaced.
2. Oakley avenue was made into an arterial street and regravelled.
3. The East End bridge was repaired and a sidewalk put in on the south side of the bridge.

At present, the work under way consists of the re-surfacing of Elm street. This is in accord with the arterial highway improvement program, the cost being entirely borne by Motor Fuel Tax funds.

Planned for 1940 are the following projects:

1. Resurfacing Pine street (arterial).
2. Resurfacing Arbor Vitae street (arterial).
3. Resurfacing Cedar street (arterial).

The maintenance of thoroughfares in our village other than state or arterial highways is paid out of a specified percentage of the general taxes. Inasmuch as the latter are appreciably in arrears at the present time, our functions are somewhat limited in this respect.

Respectfully submitted,
Your Village Road and Bridge Committee.

Possibility for New Postoffices for Six Towns, Far Removed

Washington, D. C. (Special) — Anyone who still hopes he will live to see the government build a new postoffice in Antioch, Barrington, Deerfield, Grayslake, Highland Park or Zion, can resign himself to waiting at least two more years.

It will be the spring of 1942, at the earliest, before any earth will be turned for a new postoffice in these towns.

Construction of these new postoffices still is on the "project list" of the public building branch of the Federal Works administration, under estimated costs of \$70,000 for Grayslake, Deerfield, and Antioch, while the estimated cost for Barrington is \$95,000; Highland Park \$170,000 and Zion \$76,000.

However, this agency now is entering the third year of its three year program, involving \$130,000,000 for construction of new federal buildings. All of this \$130,000,000 has been allocated, though some of it remains to be appropriated. An economy congress has just refused to appropriate more than the \$15,000,000 necessary to carry on this authorized program, without expansion, in the fiscal year 1941.

Officials of the public buildings branch said today that they did not intend to challenge the will of congress by asking any special appropriation this year to provide for additional new postoffices. Even if such an appropriation is granted next year, it will be at least six months after the appropriation is made before the contract could be awarded for a proposed postoffice in any of these towns.

And, of course, there is no assurance that these towns will be among those selected to get new postoffices the next time congress appropriates more money for federal buildings.

Chas. C. Kapschull To Address Highwood Lions Club Tonight

Mr. Charles C. Kapschull of Deerfield, former state commander of the American Legion, will be the guest speaker at a dinner meeting of the Highwood Lions club to be held on Thursday (today) at 6 p.m. at the Pagoda.

With Lions clubs throughout the nation celebrating rededication week, Mr. Kapschull has chosen "Americanism" as the topic for his address. In the absence of Otto F. Fisher, president of the Highwood Lions club, Dr. N. C. Risjord, first vice president, will preside.

Members are inviting their wives and friends to attend this meeting. A special invitation has also been extended to the Highland Park Lions club.
