### Must Re-establish Economic Cooperation Says W. N. Erickson

Erickson of Evanston, candidate for delegate to the Republican national convention from the Tenth district, declared that the party must re-establish economic cooperation between labor, agriculture, and industry in accordance with true American tradition.

Erickson, a member of the board of commissioners of Cook county, was invited to become a candidate as delegate to the convention because of his close identity with the Republican party activities and his familiarity with Republican voters in the Tenth district.

"Because the North Shore and Lake county has been the stronghold of Republicanism even during Democratic landslides, I wish to represent the district with a strong voice in the national convention," Commissioner Erickson stated.

### HOUSEHOLD HINTS

Put cut flowers in lukewarm water when they come from the florist and they will last much longer during the winter months.

Egg whites will stiffen more easily if a pinch of salt is added before they are beaten.

An old but reliable method of removing ink stains from washable fabrics is to soak the spot in milk—either sour milk or sweet, unpasteurized milk—and then wash in clear water.

A canvas ventilator is excellent for the baby's window because it will let in fresh air without permitting a draft to blow on the child.

Clean floor mops by washing in hot soapsuds to which plenty of ammonia has been added. Rinse them in clear, hot water and dry in the sun.

The many electrical Christmas gifts may have caused an overload on your electrical circuit. If your fuses have been blowing out, try the new-type fustats which absorb harmless overloads and at the same time prevent the use of pennies or other forms of dangerous tinkering.
